**The Changing Nature of Eco/Feminism** Niamh Moore, 2015-04-15 In the summer of 1993 activists set up a peace camp blocking a logging road into an extensive area of temperate rainforest in Clayoquot Sound that was slated for clear cutting Twenty odd years later Clayoquot holds a prominent place in environmental discourse yet it is not generally associated with feminist or eco feminist movements The Changing Nature of Eco Feminism argues that Clayoquot offers a potent site for examining a whole range of feminist issues Through a careful study of eco feminist activism against clear cut logging practices in British Columbia the book explores how a transnational eco feminist practice insisted on an account of logging situated in histories of colonialism holding the Canadian state to account for its deforestation practices Moore demonstrates that the sheer vitality of eco feminist politics at

the Peace Camp in the summer of 1993 confounded dominant narratives of contemporary feminism and has re imagined eco feminist politics for new times

Something Wicked Douglas Brode, Leah Deyneka, 2024-10-31 An anthology of essays that deal with Witchcraft and the figure of the Witch as they have been presented in motion pictures television and popular culture in order to understand how why and when the common anti Witchcraft anti Witch attitude evolved Mainstream tales of Witchcraft including modern movies novels TV series and other examples of our popular culture more often than not express the traditional notion of a Witch as a wild dangerous untamable nasty woman obsessed with a desire for power to control all around her in most narratives such a hunger presented as a negative In truth The Witch is a symbol of threatening evil only to those men and women who accept a conservative sensibility For members of either gender who do not The Witch is perceived as hero and role model This collection begins with the Biblical figure of Lilith followed by Morgan le Fey from Arthurian legend myth in literature as well as in popular culture followed by the more contemporary depictions of the Witch that start to appear in the 1960s for example in the Bewitched sitcom the Star Wars franchise Harry Potter and even the television show Scooby Doo International depictions of the Witch are discussed including Italy's Dario Argento's films *Suspiria* and *Inferno* The final section of this collection focuses on the most iconic depictions of the Witch produced during the 21st century including *A Discovery of Witches* *Penny Dreadful* *Game of Thrones* and the history of the Witch in films by the Walt Disney studio from its origins more than a century ago to the latest releases arguing that here if perhaps surprisingly we discover the most fair and balanced portraits of Witches in the history of film and TV

**Part-Time for All** Jennifer Nedelsky, Tom Malleson, 2023-05-26 In Part Time for All Jennifer Nedelsky and Tom Malleson propose a plan to radically restructure both work and care and offer a solution to a fundamentally dysfunctional imbalance of work and care obligations They argue that no competent adult should do paid work for more than 30 hours per week and everyone should also contribute roughly 22 hours of unpaid care to family friends or their chosen community of care While such a transformation would require radical changes to our cultural norms as well as to our workplace practices this book carefully dissects the current crisis of care and offers a realistic plan forward

*Ecological Masculinities* Martin Hultman, Paul M. Pulé, 2018-09-26 Around the globe unfettered industrialisation has marched forth in unison with massive social inequities Making matters worse anthropogenic pressures on Earth's living

systems are causing alarming rates of thermal expansion sea level rise biodiversity losses in terrestrial and aquatic ecosystems and a sixth mass extinction As various disciplines have shown rich white men in the Global North are the main although not the only perpetrators of this slow violence This book demonstrates that industrial breadwinner masculinities have come at terrible costs to the living planet and ecomodern masculinities have failed us as well men included This book is dedicated to a third and relationally focused pathway that the authors call ecological masculinities Here they explore ways that masculinities can advocate and embody broader deeper and wider care for the global through to local glocal commons Ecological Masculinities works with the wisdoms of four main streams of influence that have come before us They are masculinities politics deep ecology ecological feminism and feminist care theory The authors work with profeminist approaches to the conceptualisations and embodiments of modern Western masculinities From there they introduce masculinities that give ADAM n for Earth others and self striving to create a more just and ecologically viable planet for all of life This book is interdisciplinary It is intended to reach but is not restricted to scholars exploring history gender studies material feminism feminist care theory ecological feminism deep ecology social ecology environmental humanities social sustainability science and technology studies and philosophy **Environmental Guilt and Shame** Sarah E.

Fredericks,2021-06-09 Bloggers confessing that they waste food non governmental organizations naming corporations selling unsustainably harvested seafood and veterans apologizing to Native Americans at the Standing Rock Sioux Reservation for environmental and social devastation caused by the United States government all signal the existence of action oriented guilt and identity oriented shame about participation in environmental degradation Environmental Guilt and Shame demonstrates that these moral emotions are common among environmentally friendly segments of the United States but have received little attention from environmental ethicists though they can catalyze or hinder environmental action Concern about environmental guilt and shame among everyday environmentalists reveals the practical emotional ethical and existential issues raised by environmental guilt and shame and ethical insights about guilt shame responsibility agency and identity A typology of guilt and shame enables the development and evaluation of these ethical insights Environmental Guilt and Shame makes three major claims first individuals and collectives including the diffuse collectives that cause climate change can have identity agency and responsibility and thus guilt and shame Second some agents including collectives should feel guilt and or shame for environmental degradation if they hold environmental values and think that their actions shape and reveal their identity Third a number of conditions are required to conceptually existentially and practically deal with guilt and shame s effects on agents These conditions can be developed and maintained through rituals Existing rituals need more development to fully deal with individual and collective guilt and shame as well as the anthropogenic environmental degradation that may spark them **Public Religion and the Urban Environment** Richard Bohannon,2012-04-26 Nature and the city have most often functioned as opposites within Western culture a dichotomy that has been reinforced and sometimes challenged

by religious images Bohannon argues here that cities and natural environments however are both connected and continually affected by one another He shows how such connections become overt during natural disasters which disrupt the narratives people use to make sense of the world including especially religious narratives and make them more visible This book offers both a theoretical exploration of the intersection of the city nature and religion as well as a sociological analysis of the 1997 flood in Grand Forks ND USA This case study shows how religious factors have influenced how the relationship between nature and the city is perceived and in particular have helped to justify the urban control of nature The narratives found in Grand Forks also reveal a broader understanding of the nature of Western cities highlighting the potent and ethically rich intersections between religion cities and nature

**Screening Children in Post-apocalypse Film and Television** Debbie Olson, 2023-11-16 This collection examines the child's role in contemporary post apocalyptic films and television By exploring the function of child characters within a dystopian framework this volume illustrates how traditional notions of childhood are tethered to sites of adult conflict and disaster a connection that often works to reaffirm the rightness of past systems of social order

**Environmental Ethics** Bob Jickling, Heila Lotz-Sisitka, Lausanne Olvitt, Rob O'Donoghue, Ingrid Schudel, Dylan McGarry, Blair Niblett, 2021-12-07 This well constructed and highly original sourcebook integrates educational materials for teaching environmental ethics with theoretical reflections The book is set to contribute immensely to its aim of taking ethics out of philosophy departments and putting it into the streets into villages and on the Earth to make ethics an everyday activity not something left to experts and specialists Context based activities are presented in almost every chapter While it acknowledges foundational theories in environmental ethics and the work that they continue to do it wholeheartedly embraces a growing body of literature that emphasises contextual process oriented and place based approaches to ethical reflection deliberation and action It walks on the ground

and isn't afraid to get a little dirty or to seek joy in earthly relationships. And it ultimately breaks with much Western academic tradition by framing ethics in a storied world, thus making room to move beyond Euro American perspectives in environmental issues. This work will be of interest to school teachers and other non-formal and informal educators, teacher educators, college instructors, university professors, and other professionals who wish to bring environmental ethics to the forefront of their pedagogical practices.

*Nature Ethics* Marti Kheel, 2008. In *Nature Ethics: An Ecofeminist Perspective*, Marti Kheel explores the underlying worldview of nature ethics, offering an alternative ecofeminist approach. Seeking to heal the divisions between the seemingly disparate movements and philosophies of feminism, animal advocacy, environmental ethics, and holistic health, Kheel proposes an ecofeminist philosophy that underscores the importance of empathy and care for individual beings as well as larger wholes.
