Mothers United An Immigrant Struggle For Socially Just Education:

Mothers United Andrea Dyrness, 2013-11-30 In urban American school systems the children of recent immigrants and low income parents of color disproportionately suffer from overcrowded classrooms lack of access to educational resources and underqualified teachers The challenges posed by these problems demand creative solutions that must often begin with parental intervention But how can parents without college educations American citizenship English literacy skills or economic stability organize to initiate change on behalf of their children and their community In *Mothers United* Andrea Dyrness chronicles the experiences of five Latina immigrant mothers in Oakland California one of the most troubled urban school districts in the country as they become informed and engaged advocates for their children s education These women who called themselves Madres Unidas Mothers United joined a neighborhood group of teachers and parents to plan a new small and autonomous neighborhood based school to replace the overcrowded Whitman School Collaborating with the author among others to conduct interviews and focus groups with teachers parents and students these mothers moved from isolation and marginality to take on unfamiliar roles as researchers and community activists while facing resistance from within the local school district *Mothers United* illuminates the mothers journey to create their own space centered around the kitchen table that enhanced their capacity to improve their children s lives At the same time Dyrness critiques how community organizers teachers and educational policy makers despite their democratic rhetoric repeatedly asserted their right as experts reproducing the injustice they hoped to overcome A powerful inspiring story about self learning consciousness raising and empowerment *Mothers United* offers important lessons for school reform movements everywhere

Composing Storylines of Possibilities Martha

J. Strickland,2022-01-01 In this book internationally migrant families invite us to listen to the storylines of their mostly muted voices as they navigate the local schools in their new cultural context They call us to hear them as they grapple with issues they encounter They implore us to feel like an outsider and see the school as a foreign culture with language and communication barriers The book is organized to enhance this carework Each chapter begins with a vignette that includes the voices of one or more members of international migrating families while introducing the context of the chapter At the end of each chapter readers will find specific implications to consider These are constructed with preservice teachers practicing teachers and educational administrators in mind As you read each chapter there is the call for school transformation The families in this book entreat school personnel to engage with international migrant families and to embrace a risk and resilience model as we strive together for success These storylines challenge us to examine our personal storylines for biases and deficit understandings and call us all to purposefully rewrite these in the spirit of possibilities as the families in this book have embodied for us

Speaking Truths Valerie Chepp,2022-02-11 The twenty first century is already riddled with protests demanding social justice and in every instance young people are leading the charge But in addition to

protesters who take to the streets with handmade placards are young adults who engage in less obvious change making tactics In *Speaking Truths* sociologist Valerie Chepp goes behind the scenes to uncover how spoken word poetry and young people's participation in it contributes to a broader understanding of contemporary social justice activism including this generation's attention to the political importance of identity well being and love Drawing upon detailed observations and in depth interviews Chepp tells the story of a diverse group of young adults from Washington D C who use spoken word to create a more just and equitable world Outlining the contours of this approach she interrogates spoken word activism's emphasis on personal storytelling and truth the strategic uses of aesthetics and emotions to politically engage across difference and the significance of healing in sustainable movements for change Weaving together their poetry and personally told stories Chepp shows how poets tap into the beautiful emotional personal and therapeutic features of spoken word to empathically connect with others advance intersectional and systemic analyses of inequality and make social justice messages relatable across a diverse public By creating allies and forging connections based on friendship professional commitments lived experiences emotions artistic kinship and political views this activist approach is highly integrated into the everyday lives of its practitioners online and face to face Chepp argues that spoken word activism is a product of and a call to action against the neoliberal era in which poets have come of age characterized by widening structural inequalities and increasing economic and social vulnerability She illustrates how this deeply personal and intimate activist approach borrows from builds upon and diverges from previous social movement paradigms Spotlighting the complexity and mutual influence of modern day activism and the world in which it unfolds *Speaking Truths* contributes to our understanding of contemporary social change making and how neoliberalism has shaped this political generation's experiences with social injustice

Hurd,2014-09-05 The school aged population of the United States has become more racially and ethnically diverse in recent decades but its public schools have become significantly less integrated In California nearly half of the state s Latino youth attend intensely segregated minority schools Apart from shifts in law and educational policy at the federal level this gradual resegregation is propelled in part by grassroots efforts led predominantly by white middle class residential communities that campaign to reorganize districts and establish ethnically separate neighborhood schools Despite protests that such campaigns are not racially culturally or socioeconomically motivated the outcomes of these efforts are often the increased isolation of Latino students in high poverty schools with fewer resources less experienced teachers and fewer social networks that cross lines of racial class and ethnic difference **Confronting Suburban School Resegregation in California** investigates the struggles in a central California school district where a predominantly white residential community recently undertook a decade long campaign to secede from an increasingly Latino attended school district Drawing on years of ethnographic research Clayton A Hurd explores the core issues at stake in resegregation campaigns as well as the resistance against them mobilized by the working class Latino community From the emotionally charged narratives of local students parents teachers school administrators and community activists emerges a compelling portrait of competing visions for equitable and quality education shared control and social and racial justice (Re)Mapping Migration and Education ,2022-07-04 At a time of unprecedented human migration education can serve as critical space for examining how our society is changing and being changed by this global phenomenon This important and timely book focuses on methodological lenses to study how migration intersects with education In view of newer methodological propositions such as the reduction of participant researcher binaries along with newer technology allowing for mapping various forms of data the authors in this volume question the very legitimacy of traditional methods and attempt here to expose power relations and researcher assumptions that may hinder most methodological processes Authors raise innovative questions blur disciplinary lines and reinforce voice and agency of those who may have been silenced or rendered invisible in the past Contributors are Gladys Akom Ankobrey Sarah Ansch tz Amy Argenal Anna Becker Jordan Corson Courtney Douglass Edmund T Hamann Belinda Hernandez Arriaga Iram Khawaja Jamie Lew Cathryn Magno Valentina Mazzucato Timothy Monreal Laura J Ogden Onallia Esther Osei Sophia Rodriguez Betsab Roman Juan S nchez Garc a Vania Villanueva Reva Jaffe Walter Manny Zapata and Victor Z iga Hans-Jürgen Syberberg, the Film Director as Critical Thinker Xue Lan Rong,Jeremy Hilburn,2016-12-27 Fourth wave immigration with its vast economic ethnic cultural linguistic and religious diversities have brought new dynamics into the existing social and demographic structures and added both opportunities and challenges to educational systems in North Carolina a Southern U S state with the fastest growing rate of

foreign born population in the nation in 1990 2010 and unique geopolitical history This book brings together 17 scholars who have extensive experience working with immigrants in North Carolina and represent a wide range of educational expertise Together their studies illustrate the intersections between historical contexts geopolitical historical constraints structural factors power policies and laws institutions and organization cultural issues philosophies ideologies identities beliefs values and traditions and immigrant students characteristics on the development of educational practices policies reforms and resistance divMost importantly studying how North Carolina education systems and actors adapt to meet the challenges may offer valuable opportunities for researchers to understand the transformation of educational systems in other new gateway states Collectively studies in this book deconstruct the framework of the traditional hierarchical assimilation and linguisticism policies in recasting the concept of becoming Americans in the New South The authors utilize frameworks that recognize the structural barriers that disadvantage immigrants in new gateway states but also position youth families and communities as possessing and utilizing valuable resources to promote educational access and achievement In this sense this book contributes significantly to major contemporary empirical and theoretical debates relating to educating immigrant children It is our hope that this critical dialogue will continue at a national platform to promote discussion of these timely issues div div

Power, Culture, and Family-School Relations Jen Stacy, 2025-01-30 Power Culture and Family School Relations Towards Culturally Sustaining Practices explores the extent to which common practices in school based family outreach advance equity or sustain the status quo in power and cultural relations Using a rich ethnographic account of a school based family literacy program in Nebraska the book unfolds the daily cultural practices of the program so that readers may visualize and contemplate how and if the

program serves newcomer and refugee families within the unique context of the New Latine Diaspora The author draws upon critical theory to showcase how neoliberal and deficit ideologies are at play throughout the different aspects of the program the influence these ideologies have on the participants and the tactics used by the caregivers to resist and change the programmatic structures and curriculum to meet their needs As such the book invites educators administrators and scholars into the nebulous and difficult conversation about how schools paradoxical entities that often colonize but prospectively liberate must not just rethink how they work with parents and caregivers but rather dismantle traditional cultural practices that seek to assimilate minoritized families Showcasing the power of ethnography as a tool which can be used to support educators and scholars to understand cultural elements of family outreach programs on a semiotic level and how transforming these semiotic building blocks can lead to equitable relationships it will appeal to scholars and researchers with interests in adult education social foundations of education critical ethnography multilingual Adult Basic Education and family outreach

Promiscuous Feminist Methodologies in Education Sara M Childers, Stephanie L Daza, Jeong-eun Rhee, 2016-04-14 The book marks the circulation of the term promiscuous feminist methodology and registers its salience for educational researchers who risk blundering feminist theories and methodologies in chaotic and unbridled ways The sexism embedded in language is what makes the notion of promiscuous feminists gone wild tantalizing though what the book puts forth is how the messy practice of inquiry transgresses any imposed boundaries or assumptions about what counts as research and feminism What can researchers do when we realize that theories are not quite enough to respond to our material experiences with people places practices and policies becoming data As a collection the book provides how various theories researchers put to work get dirty as they are contaminated and re appropriated by other ways of thinking and doing through contexts of messy practices In this way gender cannot simply be gender and promiscuous feminist methodologies are always in the making and already ahead of what we think they are This book was originally published as a special issue of the International Journal of Qualitative Studies in Education
