Moths of the Limberlost Gene Stratton-Porter, 2018-03-15 To me the Limberlost is a word with which to conjure a spot wherein to revel The swamp lies in north eastern Indiana nearly one hundred miles south of the Michigan line and ten west of the Ohio In its day it covered a large area When I arrived there were miles of unbroken forest lakes provided with boats for navigation streams of running water the roads around the edges corduroy made by felling and sinking large trees in the muck Then the Winter Swamp had all the lacy exquisite beauty of such locations when snow and frost draped while from May until October it was practically tropical jungle From it I have sent to scientists flowers and vines not then classified and illustrated in our botanies [Moths of the Limberlost](#) Gene Porter, 2006
