Curriculum and Teaching Dialogue Barbara Slater Stern,2009-10-01 Curriculum and Teaching Dialogue is the journal of the American Association of Teaching and Curriculum AATC An important historical event in the development of organizations dealing with the scholarly field of teaching and curriculum was the founding of the AATC on October 1 1993 The members of the AATC believed that the time was long overdue to recognize teaching and curriculum as a basic field of scholarly study to constitute a national learned society for the scholarly field of teaching and curriculum teaching is the more inclusive concept curriculum is an integral part of teaching the what to teach aspect Since it s founding AATC has produced scholarship in teaching and curriculum and serves the general public through its conferences journals and the interaction of its members The purpose of the organization was originally defined in Article 1 Section 2 of the AATC Constitution To promote the scholarly study of teaching and curriculum all analytical and interpretive approaches that are appropriate for the scholarly study of teaching and curriculum shall be encouraged Curriculum and Teaching Dialogue seeks to fulfill that mission *The Comedian as Confidence Man* Will Kaufman,1997 In this lively and fascinating analysis of humorists and their work Will Kaufman breaks new ground with his irony fatigue theory The Comedian as Confidence Man examines the humorist s internal conflict between the social critic who demands to be taken seriously and the comedian who never can be the irony fatigue condition Concentrating on eight American literary and performing comedians from the 18th 19th and 20th centuries this study explores the irony fatigue affect that seems to pervade the work of comedians those particular social observers who are obliged to promise Only kidding folks even when they may not be in G B Shaw s words they must put things in such a way as to make people who would otherwise hang them believe they are joking If these social observers are obliged to become in effect confidence men with irony as the satiric weapon that both attacks and diverts then the implications are great for those social critics who above all wish to be heeded Unstuck in Time Gregory D.

Sumner,2011-11-08 In *Unstuck in Time* Gregory Sumner guides us with insight and passion through a biography of fifteen of Kurt Vonnegut s best known works his fourteen novels starting with *Player Piano* 1952 all the way to an epilogue on his last book *A Man Without a Country* 2005 to illustrate the quintessential American writer s profound engagement with the American Dream in its various forms Sumner gives us a poignant portrait of Vonnegut and his resistance to celebrating the

traditional values associated with the American Dream grandiose ambition unbridled material success rugged individualism and winners over losers Instead of a celebration of these values we read and share Vonnegut's outrage his brokenhearted empathy for those who struggle under the ethos of survival of the fittest in the frontier mentality something he once memorably described as an impossibly tough minded experiment in loneliness Heroic and tragic Vonnegut's novels reflect the pain of his own life's experiences relieved by small acts of kindness friendship and love that exemplify another way of living another sort of human utopia an alternative American Dream and the reason we always return to his books

CliffsNotes on Vonnegut's Slaughterhouse-Five Dennis S Smith, 2007-08-15 An odd book in that it mixes elements of science fiction with psychological analysis Slaughterhouse Five tells the story of Billy Pilgrim a GI prisoner of war He time travels and wanders through a mysterious ether where spatial temporal relationships are at odds with what we accept as reality *Imagining Home* Susan Elizabeth Farrell, 2017 War has often been seen as the domain of men and thus irrelevant to gender analysis and American writers have frequently examined war according to traditional gender expectations that boys become men by going to war and girls become women by building a home Yet the writers discussed in this book complicate these expectations since their female characters often take part directly in war and especially since their male characters repeatedly imagine domestic spaces for themselves in the midst of war Chapters on Hemingway and the First World War Kurt Vonnegut and the Second World War and Tim O'Brien and the Vietnam War place these writers in their particular historical and cultural contexts while tracing similarities in their depiction of gender relationships imagined domestic spaces and the representability of trauma The book concludes by examining post 9/11 American literature probing what happens when the front lines actually come home to Americans While much has been written about Hemingway Vonnegut O'Brien and even 9/11 literature separately this study is the first to bring them together in order to examine views about war gender and domesticity over a hundred year period It argues that 9/11 literature follows a long tradition of American writing about war in which the domestic and public realms are inextricably intertwined and in which imagined domestic spaces can provide a window into representing wartime trauma an experience often thought to be unrepresentable or incomprehensible to those who were not actually there SUSAN FARRELL is Professor of English at the College of Charleston *God Is Not God's Name* Rev. Steve Edington, 2018-08-06 I concede to the irony of writing a book with the words beyond words in its subtitle If I were to truly go beyond words the following pages would all be blank I am hardly the first to deal with this conundrum however Jewish scholars tell us that in the aftermath of the Babylonian Exile of the sixth century BCE the Jews ceased to use their name for God Yahweh because the divine name had come to be regarded as too sacred and holy to even be spoken They had to come up with other ways to identify that which they regarded as ultimately sacred and holy I can relate The Compleat Motherfucker Jim Dawson, 2011-05 How this vulgar slang became a cultural archetype and the subject of Supreme Court rulings **Selected Nonfiction, 1962-2007** J. G. Ballard, 2023-10-24 J G

Ballard's collected nonfiction from 1962 to 2007 mapping the cultural obsessions, experiences and insights of one of the most original minds of his generation. J. G. Ballard was a colossal figure in English literature and an imaginative force of the twentieth century. Alongside seminal novels from the notorious *Crash* (1973) to the semi-autobiographical *Empire of the Sun* (1984), Ballard was a sought-after reviewer and commentator publishing journalism, memoir and cultural criticism in a variety of forms. This volume collects the most significant short nonfiction of Ballard's fifty-year career, extending the range of the only previous collection of his nonfiction, *A User's Guide to the Millennium* (1996), which selected essays and reviews published between 1962 and 1995. A decade on from Ballard's death in 2009, a new generation of readers needs a new collection. In the period following *A User's Guide*, Ballard's writing addressed 9/11, British politics from New Labour onward and what he termed the rise of soft fascism, a diagnosis that maintains its relevance amid a shift toward right populism in European and US politics. Beautifully edited by Ballard scholar and novelist Mark Blacklock, this volume includes Ballard's editorials and manifestos, commentaries on his own work, commentaries on the work of others, reviews and more. Above all, it makes the case for the currency of Ballard's work at a contemporary juncture at which so many of his diagnoses concerning the media and politics have become apparent.

Reading the Family Dance John V. Knapp, Kenneth Womack, 2003. The development in recent years of the intersections between the family and literary study continues to emerge as one of the most productive and illuminating arenas of contemporary critique. In addition to addressing the family dynamic through which a given literary character develops, a fully realized sense of self, family systems therapy allows readers to examine the patterns by which characters function in their larger intimate systems, whether those systems be social, institutional or even global. As the intellectual foundation for the forms of therapy practiced by the majority of contemporary American and European psychotherapists, the study of family systems theory and its intersections with literary works affords readers with an illuminating glimpse into the terminology and processes involved in this dynamic form of critique. Perhaps most significantly, family systems therapy allows critics to consider the distinctly social interactions that characterise our pathways to interpersonal development and selfhood. John V. Knapp is Professor of English with a joint appointment in modern literature and in teacher education at Northern Illinois University. Kenneth Womack is Assistant Professor of English at the University of Illinois at Chicago.

The Cambridge Companion to American Novelists Timothy Parrish, 2013.
