Picturing the Floating World Julie Nelson Davis, 2021-08-31 Today we think of ukiyo e the pictures of the floating world as masterpieces of Japanese art highly prized throughout the world Yet it is often said that ukiyo e were little appreciated in their own time and were even used as packing material for ceramics In Picturing the Floating World Julie Nelson Davis debunks this myth and demonstrates that ukiyo e was thoroughly appreciated as a field of artistic production worthy of connoisseurship and canonization by its contemporaries Putting these images back into their dynamic context she shows how consumers critics and makers produced and sold appraised and collected and described and recorded ukiyo e She recovers this multilayered world of pictures in which some were made for a commercial market backed by savvy entrepreneurs looking for new ways to make a profit while others were produced for private coterie and high ranking connoisseurs seeking to enrich their cultural capital The book opens with an analysis of period documents to establish the terms of appraisal brought to ukiyo e in late eighteenth century Japan mapping the evolution of the genre from a century earlier and the development of its typologies and the creation of a canon of makers both of which have

defined the field ever since Organized around divisions of major technological and aesthetic developments the book reveals how artistic practice and commercial enterprise were intertwined throughout ukiyo e s history from its earliest imagery through the twentieth century The depiction of particular subjects in and for the floating world of urban Edo and the process of negotiating this within the larger field of publishing are examined to further ground ukiyo e as material culture as commodities in a mercantile economy *Picturing the Floating World* offers a new approach a critical yet accessible analysis of the genre as it was developed in its social cultural and political milieu The book introduces students collectors and enthusiasts to ukiyo e as a genre under construction in its own time while contributing to our understanding of early modern visual production *Japanese Fashion* Toby Slade,2009-12-15 This book examines the entire sweep of Japanese clothing history from the sophisticated fashion systems of late Edo period kimonos to the present day providing possible theories of how Japan made this fashion journey and linking current theories of fashion to the Japanese example The book is unique in that it provides the first full history of the last two hundred years of Japanese clothing It is also the first book to include Asian fashion as part of global fashion as well as fashion theory It adds a hitherto absent continuity to the understanding of historical and current fashion in Japan and is pioneering in offering possible theories to account for that entire history By providing an analysis of how that entire history changes our understanding of the way fashion works this book will be an essential text for all students of fashion and design *Women, Rites, and Ritual Objects in Premodern Japan* Karen M. Gerhart,2018-06-12 *Women Rites and Ritual Objects in Premodern Japan* edited by Karen M Gerhart is a multidisciplinary examination of rituals featuring women in which significant attention is paid to objects produced for and utilized in these rites as a lens through which larger cultural concerns such as gender politics the female body and the materiality of the ritual objects are explored The ten chapters encounter women rites and ritual objects in many new and interactive ways and constitute a pioneering attempt to combine ritual and gendered analysis with the study of objects Contributors include Anna Andreeva Monica Bethe Patricia Fister Sherry Fowler Karen M Gerhart Hank Glassman Naoko Gunji Elizabeth Morrissey Chari Pradel Barbara Ruch Elizabeth Self ***Envisioning the Empress: The Lives and Images of Japanese Imperial Women, 1868-1952*** Alison J. Miller,2024-12-02 *Envisioning the Empress* illuminates dynamic and powerful empresses who impacted not only women in their own time but whose influence extended to later generations of royalty creating a greater role for imperial women and elevating the status of women s roles at a crucial juncture in Japanese history The central focus of this book is visual monarchy exploring how the empress biographies were primarily expressed in visual culture and how their images worked in support of Japan s imperial policies in the late nineteenth and early twentieth centuries The book begins with a brief overview of premodern and modern imperial women to orient the reader In each chapter different media audiences and distribution channels for constructing the narrative of feminine imperial power in Japan are addressed alongside biographical information It is argued that the ultimate purpose of all of these images was to elevate the empress

and promote her image as a conventional role model for modern women but one with enough celebrity cache to maintain popularity The images of the modern empresses as distributed by the Imperial Household Agency strike a balance between propaganda and popular media noble philanthropist and upper middle class role model celebrity and mother of the nation The modern empress image was crafted to be both exalted and approachable and worked to establish individual biographies while simultaneously establishing the position of the empress as timeless in the public eye Envisioning the Empress introduces students of royal studies as well as modern Japanese history and art history to this fascinating element of the history of monarchy and women s history more broadly *Reading Japan Cool* John E. Yoshida, 2020-11-15 This book offers a reassessment of how matter in the context of art history criticism and architecture pursued a radical definition of multiplicity against the dominant and hierarchical tendencies underwriting post fascist Japan Through theoretical analysis of works by artists and critics such as Okamoto Taro Hanada Kiyoteru Kawara On Isozaki Arata Kawaguchi Tatsuo and Nakahira Takuma this highly illustrated text identifies formal oppositions frequently evoked in the Japanese avant garde between cognition and image self and other human and thing and one and many in mediums ranging from painting and photography to sculpture and architecture In addition to an aesthetics of separation which refuses the integrationist implications of the human the author proposes the anthropofugal meaning fleeing the human as an original concept through which to understand matter in the epistemic universe of the postwar Japanese avant garde Chapters in this publication offer critical insights into how artists and critics grounded their work in active disengagement to advance an ethics of nondominance *Avant Garde Art and Nondominant Thought in Postwar Japan* will appeal to students and scholars of

Japanese studies art history and visual cultures more widely **Facing Images** Kristopher W. Kersey, 2024-07-16 If we want to decolonize the history of art argues Kristopher Kersey we must rethink our approach to the historical record This means dispensing with Eurocentric binaries divisions between Western and non Western modern and premodern and making a commitment to artworks that challenge the perspectives we build upon them In *Facing Images* the question takes elegant and intriguing form If the aesthetic hallmarks of modernity can be found in twelfth century art what does it really mean to be modern Kersey s answer to this question models a new historiography *Facing Images* begins by tracing the turbulent discourse surrounding the emergence of Japanese art history as a modern field In lieu of examining canonical works from the twelfth century Kersey foregrounds the elusive and the enigmatic in artworks little known and understudied outside Japan the manuscripts he selects defy traditional art historical narratives by exhibiting decidedly modern techniques including montage self reference reuse noise dissonance and chronological disarray Kersey weaves these medieval case studies together with insights from a wide range of interdisciplinary scholarship using a methodology that will prove important for historians *Facing Images* produces a history of non Western art in which diverse and anachronic works are brought responsibly and equitably into dialogue with the present without being subsumed under Eurocentric formalisms or false universals A timely intervention in the history of medieval Japanese art art historiography and the history of global modernism *Facing Images* redefines the relationship of the premodern non West to modern art It will be of particular interest to scholars of medieval Japanese art and of modernism

women who report receiving mixed messages about how to be women Mirroring this women s self directed violence has increasingly been thematised in diverse Japanese narrative and visual culture This book examines the relationship between normative femininity and women s self directed violence in contemporary Japanese culture To theoretically define the complexities that constitute normativity the book develops the concept of contradictory femininity and shows how in Japanese culture women s paradoxical roles are thematised through three character construction techniques broadly derived from the doppelgänger motif It then demonstrates how eating disorders and self harm are included in normative femininity and suggests that such self directed violence can be interpreted as coping strategies to overcome feelings of fragmentation related to contradictory femininity Looking at novels artwork manga anime TV dramas and news stories the book analyses both globally well known Japanese culture such as Murakami Haruki s literary works and Miyazaki Hayao s animation as well as culture unavailable to non Japanese readers The aim of juxtaposing such diverse narrative and visual culture is to map common storylines and thematisation techniques about normative femininity self harm and eating disorders Furthermore it shows how women s private struggles with their own bodies have become public discourse available for consumption as entertainment and lifestyle products Highly interdisciplinary it will be of huge interest to students and scholars of Japanese studies Japanese culture and society and gender and women s studies as well as to academics and consumers of Japanese literature manga and animation
