The Mother's Legacy in Early Modern England Jennifer Heller, 2016-03-03 Using printed and manuscript texts composed between 1575 and 1672 Jennifer Heller defines the genre of the mother's legacy as a distinct branch of the advice tradition in early modern England that takes the form of a dying mother's pious counsel to her children Reading these texts in light of specific cultural contexts social trends and historical events Heller explores how legacy writers used the genre to secure personal and family status to shape their children's beliefs and behaviors and to intervene in the period's tumultuous religious and political debates The author's attention to the fine details of the period's religious and political swings drawn from sources such as royal proclamations sermons and first hand accounts of book burnings creates a fuller context for her analysis of the legacies Similarly Heller explains the appeal of the genre by connecting it to social factors including mortality rates and inheritance practices Analyses of related genres such as conduct books and fathers legacies highlight the unique features and functions of mothers legacies Heller also attends to the personal side of the genre demonstrating that a writer's education marriages children and turns of fortune affect her work within the genre

Black Skulls T.O. Smith, 2022-11-16 A past so dark and she can't run from it Amelia is doing her best to stay alive Her world is dark it's tainted It holds nothing but bones and blood carnage A club struggling a family he can barely breathe around All Cole has known is the club He lives it breathes it He knows the kind of darkness that lies in a man's soul when he wears that cut Cole thinks he's seen it all but when he finds Amelia bloody and unconcious he hasn't even begun to see the worst He'll burn the world down to the ground for her to hell with the consequences Someone wants to send a message but Amelia's not opening her mouth She'll die before she tarnishes this club before she drags Cole into her darkness But when everyone is turning against her and Cole is the only person she can rely on she may not have a choice Because these people aren't going to kill her They're going to break her

Dunedin Christine Johnston, 2003-11 Dunedin's remarkable literary heritage is founded on Charles Brasch who presided over the nation's literature from his Dunedin home for many years as the editor of *Landfall* on James K Baxter arguably New Zealand's greatest poet and on internationally celebrated novelist Janet Frame It is an impressive record for a small city and all three are represented in Christine Johnston's lively anthology of Dunedin writing Also featured are works by well known poets and memorists Brian Turner Ruth Dallas and Alistair Campbell and by a new generation of writers that includes Paula Boock and Emma Neale This rich collection is a delight from beginning to end and will satisfy the most demanding reader The *Our City* series offers a new perspective on New Zealand's major cities Each

volume presents a selection of the literature inspired by one of New Zealand's four major cities Chosen with care by a well known editor from each city the selections include short stories poems and extracts from novels and writers memoirs Each contributor whether contemporary or historical has a strong association with the city concerned and every selection has something significant to say about the character of the city Together they create a vivid picture of what makes the city unique

American Gothic Robert K. Martin, 1998-06 In America as in Britain the rise of the Gothic represented the other the fearful shadows cast upon Enlightenment philosophies of common sense democratic positivism and optimistic futurity Many critics have recognized the centrality of these shadows to American culture and self identification American Gothic however remaps the field by offering a series of revisionist essays associated with a common theme the range and variety of Gothic manifestations in high and popular art from the roots of American culture to the present The thirteen essays approach the persistence of the Gothic in American culture by providing a composite of interventions that focus on specific issues the histories of gender and race the cultures of cities and scandals and sensations in order to advance distinct theoretical paradigms Each essay sustains a connection between a particular theoretical field and a central problem in the Gothic tradition Drawing widely on contemporary theory particularly revisionist views of Freud such as those offered by Lacan and Kristeva this volume ranges from the well known Gothic horrors of Edgar Allan Poe and Nathaniel Hawthorne to the popular fantasies of Stephen King and the postmodern visions of Kathy Acker Special attention is paid to the issues of slavery and race in both black and white texts including those by Ralph Ellison and William Faulkner In the view of the editors and contributors the Gothic is not so much a historical category as a mode of thought haunted by history a part of suburban life and the lifeblood of films such as *The Exorcist* and *Fatal Attraction*

Death's Jest-Book Reginald Hill, 2010-05-14 Three times DCI Pascoe has wrongly accused dead pan joker Franny Roote

This time he's determined to leave no gravestone unturned as he tries to prove that the ex con and aspiring academic is mad, bad and dangerous to know. Meanwhile Edgar Wield rides to the rescue of a child in danger only to find he has a rent boy with a priceless secret under his wing. DC Bowler is looking forward to a blissful New Year with the girl of his dreams. Unfortunately her dreams are filled with a horror too terrible to tell. And over all this activity broods the huge form of DS Andy Dalziel. As trouble builds the Fat Man discovers as have many deities before him that omniscience can be more trouble than it's worth and that sometimes all omnipotence means is that you can have any colour you want as long as it's black.

The Indian state of West Bengal is home to one of the world's most vibrant traditions of goddess worship. The year's biggest holidays are devoted to the goddesses Durga and Kali with lavish rituals, decorated statues, fireworks and parades. In *Offering Flowers, Feeding Skulls* June McDaniel provides a broad, accessibly written overview of Bengali goddess worship. McDaniel identifies three major forms of goddess worship and examines each through its myths, folklore, songs, rituals, sacred texts and practitioners. In the folk/tribal strand which is found in rural areas, local tribal goddesses are worshipped alongside Hindu goddesses with an emphasis on possession, healing and animism. The tantric/yogic strand focuses on ritual, meditation and visualization as ways of experiencing the power of the goddess directly. The devotional or bhakti strand which is the most popular form involves the intense love and worship of a particular form of the goddess. McDaniel traces these strands through Bengali culture and explores how they are interwoven with each other as well as with other forms of Hinduism. She also discusses how these practices have been reinterpreted in the West where goddess worship has gained the values of sexual freedom and psychological healing but lost its emphases on devotion and asceticism. *Offering Flowers, Feeding Skulls* takes the reader inside the lives of practicing Shaktas including holy women, hymn singers, philosophers, visionaries, gurus, ascetics, healers, musicians and businessmen and offers vivid descriptions of their rituals, practices and daily lives. Drawing on years of fieldwork and extensive research, McDaniel paints a rich, expansive portrait of this fascinating religious tradition. **Africa** John George Wood, 1878 **Tit-bits from All the Most Interesting Books, Periodicals and Newspapers in the World**, 1881 **The Saturday Evening Post**, 1920
