**Matricentric Feminism: Theory, Activism, Practice. The 2nd Edition** Andrea O'Reilly, 2021-04-04 The 2nd edition includes a new preface that considers how matricentric feminism in

positioning mothering as a verb affords a gender neutral understanding of motherwork and allows for an appreciation of how motherwork is deeply gendered and how this may be challenged and changed through empowered mothering The book argues that the category of mother is distinct from the category of woman and that many of the problems mothers face are specific to women's role and identity as mothers Indeed mothers are oppressed under patriarchy as women and as mothers Consequently mothers need a feminism of their own one that positions mothers concerns as the starting point for a theory and politic of empowerment O'Reilly terms this new mode of feminism matricentric feminism and the book explores how it is represented and experienced in theory activism and practice *A Road Too Short for the Long Journey* Quentin P.

Kinnison,2019-02-04 The inevitability of death in our broken world means that grief and mourning are a normal part of the human experience Too often though this normal journey of grief is cut short by a culture intent on pretending bad things don't really happen In *A Road Too Short for the Long Journey* readers are invited to consider how we might travel this road of mourning with those who grieve and how we might join them as partners in a reorientation of the world experienced through loss

**Motherless Daughters (20th Anniversary Edition)** Hope Edelman,2014-04-08 The classic New York Times bestseller that has helped millions of women cope with and heal from the grief of losing their mothers Although a mother's mortality is inevitable no book has discussed the profound lasting and far reaching effects of this loss until *Motherless Daughters* which became an instant classic More than twenty years later it is still the go to book that women of all ages look to for comfort help and understanding when their mother dies Building on interviews with hundreds of mother loss survivors Edelman's personal story of losing her mother and recent research in grief and psychology *Motherless Daughters* reveals the shared experiences and core identity issues of motherless women Why the absence of a nurturing hand shapes a woman's identity throughout her lifespan How present day relationships are defined by past losses How a woman can resolve past conflicts and move toward acceptance and healing Why grief really is not a linear passage but an ongoing cyclical journey How the legacy of mother loss shifts with the passage of time **Encyclopedia of Motherhood** Andrea O'Reilly,2010-04-06

**Cinematic Warriors** Jennifer K. Stuller,2010-01-30 From Wonder Woman to Buffy Summers Emma Peel to Sydney Bristow

Charlie's Angels to The Powerpuff Girls Superwomen are more than just love interests or sidekicks who stand by their Supermen. In her new book Stuller shows how the female hero in modern mythology has broken through the boy's club barrier of tradition and reveals the pivotal role of high-heeled crime fighters in popular culture. Featuring spies and sexuality, daddy's girls and super mothers, this is a comprehensive, engaging and thought-provoking guide to female detectives, meta-humans and action heroines as well as their creators, directors, performers and consumers. The book also includes a glossary of modern mythic women from Aeon to Zoe as well as a foreword by acclaimed cultural commentator Roz Kaveney, author of *Superheroes: Capes and Crusaders in Comics and Films* published by I B Tauris, April 2008. **Matricentric Feminism** Andrea O'Reilly, 2016-10-01. The book argues that the category of mother is distinct from the category of woman and that many of the problems mothers face (social, economic, political, cultural, psychological) and so forth are specific to women's role and identity as mothers. Indeed, mothers are oppressed under patriarchy as women and as mothers. Consequently, mothers need a feminism of their own, one that positions mothers' concerns as the starting point for a theory and politics of empowerment. O'Reilly terms this new mode of feminism *matricentric feminism* and the book explores how it is represented and experienced in theory, activism and practice. The chapter on maternal theory examines the central theoretical concepts of maternal scholarship while the chapter on activism considers the twenty-first century motherhood movement. Feminist mothering is likewise examined as the specific practice of *matricentric feminism* and this chapter discusses various theories and strategies on and for maternal empowerment. *Matricentric feminism* is also examined in relation to the larger field of academic feminism; here O'Reilly persuasively shows how *matricentric feminism* has been marginalized in academic feminism and considers the reasons for such exclusion and how such may be challenged and changed. **In (M)other Words** Andrea O'Reilly, 2024-04-30. Dr. Andrea O'Reilly is internationally recognized as the founder of Motherhood Studies (2006) and its subfield Maternal Theory (2007) and creator of the concept of *Matricentric Feminism* (a feminism for and about mothers, 2016) and *Matricritics* (a literary theory and practice for a reading of mother-focused texts, 2021). With this collection O'Reilly continues the conversation on the meaning and nature of motherhood initiated by Adrienne Rich in *Of Woman Born* (close to fifty years ago). In *In (M)other Words* O'Reilly shares 25 of her chapters and articles published between 2009-2024 to examine the oppressive and empowering dimensions of mothering and to explore motherhood as institution, experience, subjectivity and empowerment. The collection considers the central themes and theories of motherhood studies, including normative motherhood, feminist mothering, maternal regret, *matricentric pedagogy*, young mothers, academic motherhood, *matricentric feminism*, *matricritics*, motherhood and feminism, the motherhood memoir, the twenty-first century motherhood movement, mothers and daughters, mothers and sons, pandemic mothering and the motherline. **Handbook of Childhood Death and Bereavement** PhD Charles A. Black Womanist Leadership Toni C. King, S. Alease Ferguson, 2011-06-01 Featuring the stories of fourteen Black women scholars Black Womanist Leadership Tracing the Motherline offers a culturally based model of Black women's leadership practices and examines the mother daughter transmission of these skills The personal narratives fit into a storytelling tradition that reveals the ways Black mothers and women of the community the Motherline teach girls the ways women lead The essays present a range of different practical and theoretical issues of leadership and development including mother nurture emulation of and divergence from core values internalized oppression self determination representation of the physical self guardianship governance of the body cooperative economics activism contentiousness with or differentiation from the mother and negotiation of leadership across public and private spheres Together they make a compelling argument for the necessity of continuing to teach the cultural and gender specific resistance to oppression that has been passed along the Motherline and to adapt this Motherline tradition to the lives and needs of women and girls in the 21st century

On My Own Florence Falk, 2008-03-25 At some point over the course of the average American woman's life she will find herself alone whether she is divorced widowed single or in a loveless isolating relationship And when that time comes it is likely that she will be at a loss as to how to handle it As a society we have an unspoken but omnipresent belief that a woman alone is an outcast inherently flawed in some way In this invigorating

supportive book psychotherapist Florence Falk aims to take the fear doubt confusion and helplessness out of being a woman alone Falk invites all women to find their own paths toward an authentic selfhood to discover the pleasures and riches of solitude and to reconnect with others through a newfound sense of self confidence Like so many women before her Florence Falk found herself divorced alone and unsure of herself Soon she realized that by embracing her solitude for what it was a potentially enriching and life altering experience she could turn what once would have felt like loneliness into a far more positive and empowered aloneness Falk notes that each of us has two opposing drives one causes us to yearn to make close connections with others and the other pulls us back into ourselves into the need for selfhood and certainty that can only be shaped through solitude In order to be whole she says we must heed both of those impulses But in our modern culture the former is stressed while the latter is neglected even vilified On My Own boldly shifts that paradigm With inspiring intimate stories of women from all backgrounds Falk illuminates the essential role that being alone plays in women s lives Whether she is in a stable relationship or on her own every woman must learn to be by herself for if she can be fully free unfettered by society s stigmas about being alone life and all its possibilities will open up for her And as Falk demonstrates once a woman has discovered the richness of solitude she is not likely to give it up so easily **Celebrating the Wounded Healer**

**Psychotherapist** Sharon Klayman Farber,2016-10-04 Why would someone decide to become a psychotherapist It is well known within the field that psychoanalysts and psychotherapists are often drawn to their future professions as a result of early traumatic experiences and being helped by their own psychoanalytic treatment While dedicating their lives to relieving emotional suffering without being judgmental they fear compromising their reputations if they publicly acknowledge such suffering in themselves This phenomenon is nearly universal among those in the helping professions yet there are few books dedicated to the issue In this innovative book Farber and a distinguished range of contributors examine how the role of the wounded healer was instrumental in the formulation of psychoanalysis and how using their own woundedness can help clinicians work more effectively with their patients and advance theory in a more informed manner Celebrating the Wounded Healer Psychotherapist will be of interest to psychoanalysts and psychoanalytic psychotherapists graduate students in clinical disciplines including psychology social work ministry chaplaincy and nursing as well as the general public

**Mother Outlaws** Andrea O'Reilly,2004-05-13 Feminist scholars of motherhood distinguish between mothering and motherhood and argue that the latter is a patriarchal institution that is oppressive to women Few scholars however have considered how mothering as a female defined and centred experience may be a site of empowerment for women This collection is the first to do so Mother Outlaws examines how mothers imagine and implement theories and practices of

mothering that are empowering to women Central to this inquiry is the recognition that mothers and children benefit when the mother lives her life and practices mothering from a position of agency authority authenticity and autonomy **Killing Men & Dying Women** Griselda Pollock, 2022-07-05 What did it mean for painter Lee Krasner to be an artist and a woman if in the culture of 1950s New York to be an artist was to be Jackson Pollock and to be a woman was to be Marilyn Monroe With this question Griselda Pollock begins a transdisciplinary journey across the gendered aesthetics and the politics of difference in New York abstract gestural painting Revisiting recent exhibitions of Abstract Expressionism that either marginalised the artist women in the movement or focused solely on the excluded women as well as exhibitions of women in abstraction Pollock reveals how theories of embodiment the gesture hysteria and subjectivity can deepen our understanding of this moment in the history of painting co created by women and men Providing close readings of key paintings by Lee Krasner and re thinking her own historic examination of images of Jackson Pollock and Helen Frankenthaler at work Pollock builds a cultural bridge between the New York artist women and their other Marilyn Monroe a creative actor whose physically anguished but sexually appropriated star body is presented as pathos formula of life energy Monroe emerges as a haunting presence within this moment of New York modernism eroding the policed boundaries between high and popular culture and explaining what we gain by re thinking art with the richness of feminist thought Clinical Fictions Jeffrey
