Winter Is Coming Garry Kasparov, 2015-10-27 The stunning story of Russia's slide back into a dictatorship and how the West is now paying the price for allowing it to happen The ascension of Vladimir Putin a former lieutenant colonel of the KGB to the presidency of Russia in 1999 was a strong signal that the country was headed away from democracy Yet in the intervening years as America and the world's other leading powers have continued to appease him Putin has grown not only into a dictator but an international threat With his vast resources and nuclear arsenal Putin is at the center of a worldwide assault on political liberty and the modern world order For Garry Kasparov none of this is news He has been a vocal critic of Putin for over a decade even leading the pro democracy opposition to him in the farcical 2008 presidential election Yet years of seeing his Cassandra like prophecies about Putin's intentions fulfilled have left Kasparov with a darker truth Putin's Russia like ISIS or Al Qaeda defines itself in opposition to the free countries of the world As Putin has grown ever more powerful the threat he poses has grown from local to regional and finally to global In this urgent book Kasparov shows that the collapse of the Soviet Union was not an endpoint only a change of seasons as the Cold War melted into a new spring But now after years of complacency and poor judgment winter is once again upon us Argued with the force of Kasparov's world class intelligence conviction and hopes for his home country *Winter Is Coming* reveals Putin for what he is an existential danger hiding in plain sight

Hunger and Fury Jasmin Mujanović, 2018 Argues that the Balkans are on the cusp of a historic socio political transformation rather than renewed ethnic strife *Putin's Third Term as Russia's President, 2012-18* Larry Black, 2018-12-07 This book provides a comprehensive and systematic overview of Putin's third term as Russia's president It covers political international relations economic and social issues and provides a balanced assessment of Putin's successes and failures These include the conflict in Ukraine the annexation of Crimea scandals associated with the Olympics Russia's increasing involvement with Asia including with the Shanghai Co operation Organisation and shifts in the economy away from huge reliance on energy resources The book sets Putin's activities as president in their wider context discussing his overall popularity the weakness of potential opposition and the development of the Russian Federation as a relatively new state

The Putin Paradox Richard Sakwa, 2020-02-06 Vladimir Putin has emerged as one of the key leaders of the twenty first century However he is also recognized as one of the most divisive Abroad his assertion of Russia's interests and critique of the western dominated international system has brought him into conflict with Atlantic powers Within Russia he has balanced various factions within the elite intelligentsia alongside the wider support of Russian society So what is the Putin paradox Richard Sakwa grapples with Putin's personal and political development on both the international political scene and within the domestic political landscape of Russia This study historicizes the Putin paradox through theoretical historical and political analysis and in light of wider developments in Russian society Richard Sakwa presents the Putin paradox as a unique regime type balancing numerous contradictions in order to adapt to its material environment while maintaining

sufficient authority with which to shape it House of Trump, House of Putin Craig Unger, 2018-08-14 THE NEW YORK TIMES BESTSELLER The story Unger weaves with those earlier accounts and his original reporting is fresh illuminating and more alarming than the intelligence channel described in the Steele dossier The Washington Post House of Trump House of Putin offers the first comprehensive investigation into the decades long relationship among Donald Trump Vladimir Putin and the Russian Mafia that ultimately helped win Trump the White House It is a chilling story that begins in the 1970s when Trump made his first splash in the booming money drenched world of New York real estate and ends with Trump s inauguration as president of the United States That moment was the culmination of Vladimir Putin s long mission to undermine Western democracy a mission that he and his hand selected group of oligarchs and Mafia kingpins had ensnared Trump in starting more than twenty years ago with the massive bailout of a string of sensational Trump hotel and casino failures in Atlantic City This book confirms the most incredible American paranoid about Russian malevolence To most it will be a hair raising revelation that the Cold War did not end in 1991 that it merely evolved with Trump s apartments offering the perfect vehicle for billions of dollars to leave the collapsing Soviet Union In House of Trump House of Putin Craig Unger methodically traces the deep rooted alliance between the highest echelons of American political operatives and the biggest players in the frightening underworld of the Russian Mafia He traces Donald Trump s sordid ascent from foundering real estate tycoon to leader of the free world He traces Russia s phoenix like rise from the ashes of the post Cold War Soviet Union as well as its ceaseless covert efforts to retaliate against the West and reclaim its status as a global superpower Without Trump Russia would have lacked a key component in its attempts to return to imperial greatness Without Russia Trump would not be president This essential book is crucial to understanding the real powers at play in the shadows of today s world The appearance of key figures in this book Paul Manafort Michael Cohen and Felix Sater to name a few ring with haunting significance in the wake of Robert Mueller s report and as others continue to close in on the truth **Modern War and Grey Zones** Marzena Żakowska, David Last, 2025-06-30 This book explores the challenges small states face in navigating the complexities of modern war particularly within the ambiguous Grey Zones where the boundaries between peace and conflict blur This book addresses the multifaceted challenges of policy strategy operations and tactics providing valuable insights into how small states can deter and manage violence It highlights the vital role of international organizations alliance building cyber operations information warfare lawfare and the balance of power Additionally it tackles the issue of strengthening state security and fostering social cohesion in the face of Grey Zone threats A distinctive feature of this book is the inclusion of innovative design problems developed to assist small states in navigating complex security landscapes with both practical and strategic approaches This book will be essential reading for security practitioners and military professionals and of great interest to students of security studies defense studies and international relations **Is Russia Fascist?** Marlene Laruelle, 2021-03-15 In Is Russia Fascist Marlene Laruelle argues that the charge of fascism has become a

strategic narrative of the current world order Vladimir Putin's regime has increasingly been accused of embracing fascism supposedly evidenced by Russia's annexation of Crimea its historical revisionism attacks on liberal democratic values and its support for far right movements in Europe But at the same time Russia has branded itself as the world's preeminent antifascist power because of its sacrifices during the Second World War while it has also emphasized how opponents to the Soviet Union in Central and Eastern Europe collaborated with Nazi Germany Laruelle closely analyzes accusations of fascism toward Russia soberly assessing both their origins and their accuracy By labeling ideological opponents as fascist regardless of their actual values or actions geopolitical rivals are able to frame their own vision of the world and claim the moral high ground Through a detailed examination of the Russian domestic scene and the Kremlin's foreign policy rationales Laruelle disentangles the foundation for meaning and validity of accusations of fascism in and around Russia *Is Russia Fascist* shows that the efforts to label opponents as fascist is ultimately an attempt to determine the role of Russia in Europe's future

Putin's Olympics Robert W. Orttung, Sufian N. Zhemukhov, 2017-02-24 President Vladimir Putin's Olympic venture put the workings of contemporary Russia on vivid display The Sochi Olympics were designed to symbolize Russia's return to great power status but subsequent aggression against Ukraine large scale corruption and the doping scandal have become the true legacies of the games The Kremlin's style of governance through mega projects has had deleterious consequences for the country's development Placing the Sochi games into the larger context of Olympic history this book examines the political security business ethnic societal and international ramifications of Putin's system **Fear and Insecurity** Jonathan G. Leslie, 2022-12-13 To observers of the Iran Israel conflict its vitriolic rhetoric might suggest an ancient hatred between Jews and Muslims a biblical feud dating back hundreds or thousands of years But this rivalry is a far more modern development In this authoritative study Jonathan G Leslie examines the origins of the conflict Drawing on extensive archival and open source research he concludes that despite the animosity surrounding the Iran Israel relationship the twenty first century's hostilities are not inevitable consequences of these nations history nor of contemporary political events The intensification of tensions has been largely the product of one nation's efforts with Israel viewing Iran as a far greater danger than Iran does Israel Using a novel theoretical approach considering the power of narrative within historical context Leslie outlines how Israel's leaders successfully reimagined their erstwhile ally Iran as an existential threat Former Prime Minister Benjamin Netanyahu took this further employing populist strategies in an attempt to rewrite history depict Iran as a global menace and recruit allies against the JCPOA nuclear deal *Fear and Insecurity* provides important new insights into the history of the Iran Israel conflict and offers fresh prospects for defusing the tensions threatening both global and regional security **COVID-19**
