Chapter 10 Field Types and Field Controls Although it's a WSS 3.0 concept, field types and field controls are covered in this chapter in the context of a Publishing site. This includes creating custom field types with custom values, types, and controls, as well as custom field controls that leverage existing field types

Chapter 11 Web Parts This chapter covers creating custom Web Parts and some advanced topics related to custom Web Part development, such as Editor Parts, customizing the Verbs menu, and leveraging asynchronous programming techniques. Chapter 17 ContentDeployment A common request for larger content-centric Web sites is to have an internal authoring environment for content and then push the changed content out to a destination site, either in an organization's DMZ or at a co-location facility. This chapter describes the content deployment capability in MOSS, designed to handle such business requirements

Chapter 18 Offline Authoring with Document Converters While MOSS 2007 Publishing sites offer a very robust Web-based content authoring experience, SharePoint provides a way to author content offline using tools such as Microsoft Word or InfoPath.
