Reading and Writing the Electronic Book Catherine C. Marshall, 2010 Developments over the last 20 years have fueled considerable speculation about the future of the book and of reading itself This book begins with a gloss over the history of electronic books including the social and technical forces that have shaped their development The focus then shifts to reading and how we interact with what we read basic issues such as legibility annotation and navigation are examined as aspects of reading that eBooks inherit from their print legacy Because reading is fundamentally communicative I also take a closer look at the sociality of reading how we read in a group and how we share what we read Studies of reading and eBook use are integrated throughout the book but Chapter 5 goes meta to explore how a researcher might go about designing his or her own reading related studies No book about eBooks is complete without an explicit discussion of content preparation i e how the electronic book is written Hence Chapter 6 delves into the underlying representation of eBooks and efforts to create and apply markup standards to them This chapter also examines how print genres have made the journey to digital and how some emerging digital genres might be realized as eBooks Finally Chapter 7 discusses some beyond the book functionality how can eBook platforms be transformed into portable personal libraries In the end my hope is that by the time the reader reaches the end of this book he or she will feel equipped to perform the next set of studies write the next set of articles invent new eBook functionality or simply engage in a heated argument with the stranger in seat 17C about the future of reading Table of Contents Preface Figure Credits Introduction Reading Interaction Reading as a Social Activity Studying Reading Beyond the Book References Author Biography

Travel and Conflict in the Early Modern World Gábor Gelléri, Rachel Willie, 2020-12-18 This edited collection examines the meeting points between travel mobility and conflict to uncover the experience of travel whether real or imagined in the early modern world Until relatively recently both domestic travel and voyages to the wider world remained dangerous undertakings Physical travel whether initiated by religious conversion and pilgrimage diplomacy trade war or the desire to encounter other cultures inevitably heralded disruption contact zones witnessed cultural encounters that were not always cordial despite the knowledge acquisition and financial gain that could

be reaped from travel. Vast compendia of travel such as Hakluyt's *Principia Navigationis Voyages and Discoveries* printed from the late sixteenth century and Prevost's *Histoire Générale des Voyages* 1746-1759 underscored European exploration as a marker of European progress and in so doing showed the tensions that can arise as a consequence of interaction with other cultures. In focusing upon language acquisition and translation, travel and religion, travel and politics, and imaginary travel, the essays in this collection tease out the ways in which travel was both obstructed and enriched by conflict. **Mini Mysteries**

, [Writing New Worlds](#) Marília dos Santos Lopes, 2016-05-11 *Writing New Worlds* analyses the different ways in which travel literature constituted a fundamental pillar in the production of knowledge in the modern era. The impressive frequency of publication and the widespread circulation of translations and editions account for the leading and essential contribution of travel literature for a better understanding and awareness about the dynamics and practices associated with decoding and making sense of the prose of the world. These texts, in some cases accompanied by illustrations, covered a broad and extensive panoply of languages, grammars, and ways of seeing, translating, and writing new worlds. In drawing special attention to internationally less studied sources from Portugal and Germany, the book shows how authors, scholars, and artists between the 15th and 17th centuries responded to the challenges of modernity and explores the cultural dynamics involved in grasping and understanding the New. **Practical English, a Scholastic Magazine**, 1957 **Who's Who in**

Contemporary Women's Writing Jane Eldridge Miller, 2019-07-23 Unique in its breadth of coverage, *Who's Who in Contemporary Women's Writing* is a comprehensive, authoritative, and enjoyable guide to women's fiction, prose, poetry, and drama from around the world in the second half of the twentieth century. Over the course of 1000 entries by over 150 international contributors, a picture emerges of the incredible range of women's writing in our time, from Toni Morrison to Fleur Adcock; all are here. This book includes the established and well-loved but also opens up new worlds of modern literature which may be unfamiliar but are never less than fascinating. **Calvino and the Pygmalion Paradigm** Bridget Tompkins, 2015-06-28 *Calvino and the Pygmalion Paradigm: Fashioning the Feminine in *I nostri antenati* and *Gli amori difficili** is the first book-length analysis of the representation of the feminine in Calvino's fiction. Using the structural umbrella of the Pygmalion paradigm and using feminist interpretative techniques, this book offers interesting alternative readings of two of Calvino's important early narrative collections. The Pygmalion paradigm concerns the creation by a male artist of a feminine ideal and highlights the artificiality and narcissistic desire associated with the creation process. This book discusses Calvino's active and deliberate work of self-creation accomplished through extensive self-commentaries and exposes both the lack of importance Calvino placed on the feminine in his narratives and the relative absence of critical attention focused on this area. Relying on the analogy between Pygmalion's pieces of ivory and Barthes' *semé* and drawing upon the ideas underlying Kristeva's intertextuality, the book demonstrates that despite Calvino's professed lack of interest in character development, his female characters are carefully and purposefully constructed. A close reading of Calvino's narratives engaging directly with

Freud Lacan and the feminist psychoanalytical thinking of Kofmann Kristeva Kaplan and others demonstrates how Calvino uses his female characters as foils for the existential reflections of his typically maladjusted and narcissistic male characters

Writing Otherwise Jeanette Gaudet, 2023-07-17 Essentially a comparative and contrastive analysis Writing Otherwise examines the prose of five French women authors Liliane Atlan Marguerite Duras Liliane Giraudon Marie Redonnet and Monique Wittig Through close readings of texts published after 1985 this book explores the broad concerns and preoccupations infusing the ontological enterprise that is critique While maintaining a sensitivity to the diversity of styles and themes as well as the unique qualities of the poetic voice evident in the five texts under consideration this study seeks to highlight in very general terms what is common to them The intertextual ground that informs the works the construction of subjectivity and the ambivalence and tension inherent to the practice writing constitute significant and important areas of convergence These features form the ground of each chapter while specific areas of divergence complete the discussion of individual aesthetics Inspired by feminist literary theory Writing Otherwise is also concerned with how these five women writers negotiate their relationship to writing
