William E. Smythe

Nicholas Nixon The Brown Sisters:

The Brown Sisters Nicholas Nixon, 1999 The Brown Sisters presents a photographic project as compelling in effect as it is simple in conception four women 25 years Each year since 1975 photographer Nicholas Nixon has made a group portrait of his wife and her three sisters facing the camera in the same order Heather Mimi Bebe and Laurie The series now measures a quarter century in the lives of the sisters who in 1975 ranged in age from 15 to 25 each picture is dense with allusions to the year of experience that separates it from the one before *The Brown Sisters* Nicholas Nixon, Sarah Hermanson Meister, 2014-10-15 In August of 1974 the photographer Nicholas Nixon made a group portrait of his wife Bebe and her three sisters Heather Mimi and Laurie the Brown sisters He did not keep that image but in 1975 he made another portrait of the four who then ranged in age from 15 to 25 Working with an 8x10 inch view camera whose large negatives capture a wealth of detail and a luscious continuity of tone Nixon did the same in 1976 and this second successful photograph prompted him to suggest to the sisters that they assemble for a portrait every year The women agreed and have gathered for an annual portrait ever since Nicholas Nixon 40 Years of The Brown Sisters celebrates the fortieth anniversary of the series in 2014 featuring luminous tri tone reproductions of all forty portraits and a new afterword by curator Sarah Hermanson Meister which examines the series public exhibitions critical reception and cult following Like the previous editions of the series published by The Museum of Modern Art in 1999 and 2008 for the twenty fifth and thirty third anniversaries of the series and both out of print Nicholas Nixon 40 Years of The Brown Sisters is an important chapter in an ongoing project that we hope will continue for many years more *Nicholas Nixon*, 1999 **The Brown Sisters** Nicholas Nixon, Peter Galassi, 2007 Since 1974 photographer Nicholas Nixon has made an annual group portrait of his wife Bebe and her three sisters Following the bestselling first edition of 1999 this edition now includes the eight photographs that bring the series up to date **The Brown Sisters 1975-2022** Nicholas Nixon, 2025 *Nicholas Nixon* Jeffrey Fraenkel, 2015 American photographer Nicholas Nixon born 1947 is best known for The Brown Sisters his ongoing series of annual portraits of his wife Bebe and her three sisters recently exhibited and published by The Museum of Modern Art But Nixon's wider oeuvre has been less well documented Long overdue Nicholas Nixon About Forty Years will be the first publication to focus on the broader swath of Nixon's more than 40 year career In a published statement about photography written in 1975 Nixon remarked The world is infinitely more interesting than any of my opinions about it To present the world as he sees it in fascinating precise and often startling detail Nixon has consistently used unwieldy large format cameras with negatives measuring 8 x 10 inches or 11 x 14 inches His recurring subjects cities seen from above people on their porches landscapes portraits of the very young and the very old are woven together throughout his career like the cords of a cable Nixon's large format black and white photography is simultaneously intimate technically precise and somehow relaxed Beautifully designed and with exquisitely reproduced images About Forty Years presents the most thorough view yet of this important artist's career *Nicholas Nixon* Jordan

Arts - Therapies - Communication European Arts

Therapy Line Kossolapow,Sarah Scoble,2005 Stipulation of a present actual position of Art Therapy however inevitably leads to further thoughts about ongoing development Everything required for the theoretical practical founding of a European Art Therapy as discipline still has to be done including construction of a communicative bridge to partners in other continents or countries This development work has two strands of development One follows a more theoretical direction with European Art Therapy as a research and teaching subject as an objective in view The other is directed more towards practical fieldwork which in turn can lead to the establishment of funds of experience as well as quantitative and qualitative investigations and thus to theoretical methodical statements In the contributions on hand both connections pervade Naturally the individual articles in this collection do not fully expound the volume of art therapeutic work throughout Europe but they are a source of information and inspiration for the user from theory and or practice who can then find his particular niche with his own specific interests within the cross section and subsequently continue the discourse spatially and objectively

Smythe, 2013-05-13 This closely integrated collection of essays constitutes a wide ranging and comprehensive attempt to understand persons within psychology a long lost enterprise The volume was inspired by the observation that contemporary psychology has become increasingly depersonalized in its conceptions and its methodology and has thereby lost touch with its traditional subject matter of human individuality and the nature of persons This development now threatens the integrity of psychology as a discipline Using both a critical and constructive approach the various contributors share two common objectives to explore the roots of depersonalization in modern psychology through systematic criticism of contemporary functionalist and neo functionalist approaches to articulate some alternative holistic interpretive and historical approaches to the psychology of persons Despite these common objectives the chapters reflect a wide variety of theoretical perspectives and approaches including cognitive science and neuroscience discursive psychology hermeneutics social constructionism semiotics rhetorical analysis and psychological aesthetics These essays do not converge on a unified psychology of persons but they do serve to reopen a form of discourse that has long been absent from mainstream psychology This volume emerged from the deliberations of the Western Canadian Theoretical Psychologists WCTP a group of scholars primarily from Western Canadian universities with shared interests in the history and theory of psychology From its founding in 1989 to the present the WCTP has been actively engaged in promoting and contributing to the development of theoretical psychology Over the past half dozen years scholars have greatly benefitted from the close collaboration and collegial support that participation in the WCTP makes possible The annual meetings provide an opportunity for them to catch up on each other's work and also to pool their expertise to work on topics of shared interest **Analysis of Iris Images in Nicholas Nixon** James R. Suspended Conversations Martha Langford,2021-10-13 In Suspended Conversations Martha Langford shows how photographic albums tell intimate and revealing stories about individuals and families Rather than isolate the individual photograph treat albums as texts or argue that photography has supplanted memory she demonstrates that the photographic album must be taken as a whole and

interpreted as a visual and verbal performance that extends oral consciousness Exhibiting a collection of photographic travelogues memoirs thematic collections and family sagas compiled between 1860 and 1960 and held by the McCord Museum of Canadian History this second edition includes a revised and expanded preface along with new photographs of the Notman albums Printed in colour throughout the enhanced material draws out the distinct nuances and details of each album giving them new life to tell their stories Albums are treasured by families collected as illustrations of the past by museums of social history and examined by scholars for what they can reveal about attitudes and sensibilities but when no one is left to tell the tale the intrigue of the album becomes a puzzle a suspended conversation Langford argues that oral consciousness provides the missing key Correlating photography and orality she explains how albums were designed to work as performances and how we can unlock their mysteries A fascinating glimpse of the preoccupations of previous centuries Suspended Conversations brings photography into the great conversation of how we remember and how we send our stories into the future
