Thomas Smits,2019-12-05 This book looks at the roots of a global visual news culture the trade in illustrations of the news between European illustrated newspapers in the mid nineteenth century In the age of nationalism we might suspect these publications to be filled with nationally produced content supporting a national imagined community However the large scale transnational trade in illustrations which this book uncovers points out that nineteenth century news consumers already looked at the same world By exchanging images European illustrated newspapers provided them with a shared transnational experience *Avant-Garde and Criticism* ,2015-06-29 Avant Garde and Criticism sheds new light on the complex aims

functions practices and contexts of art criticism in relation to the European avant garde Although many avant garde works and the avant gardes of various countries have been analyzed considerably less attention has been given to the reviews in newspapers and journals on avant garde literature art architecture and film This volume of Avant Garde Critical Studies will look at how art critics operated in a strategic way The strategies of avant garde criticism are diverse Art critics especially when they are artists themselves attempt to manipulate the cultural climate in their favour They use their position to legitimize avant garde concepts and to conquer a place in the cultural field But they are also markedly influenced by the context in which they operate The position of fellow critics and the ideological bias of the papers in which they publish can be as important as the political climate in which their criticism flourishes The analysis of avant garde art criticism can also make clear how strategies sometimes fail and involuntarily display non avant garde characteristics On the other hand traditionalist criticism on the avant garde offers new insights into its status and reception in a given time and place This volume is of interest for scholars teachers and students who are interested in the avant garde of the interbellum period and work in the field of literature art film and architecture *Newspaper and Bank Directory of the World* Harlan Page Hubbard,1882

maestro di capella of the cathedrals of Rieti 1583 84 and Assisi 1584 86 and as cantor tenorista in Rome 1586 88 and Padua 1588 1601 He ended his career as an exceptionally well paid singer in the court chapel of Christian IV in Copenhagen 1601 03 In 1590 a collection of three part motets appeared under the surprising title *Motecta de dignitate et moribus sacerdotum* motets about the dignity and morals of priests presumably intended as a denunciation of the priests who had had him imprisoned in Assisi on charge of heresy a charge of which Tollius was later acquitted In 1591 two collections of five part motets appeared in quick succession In these motets Tollius uses techniques of word painting that go significantly further than those used by his contemporaries in sacred music In 1597 an extended and revised reprint appeared of the a collection of six part madrigals In his madrigals Tollius shows himself to be a skilled composer who is in keeping with the madrigal output of his Italian contemporaries In 1598 two new madrigals by Tollius appeared in collections of works by Paduan masters including such great names as Lodovico Viadana and Costanzo Porta Tollius is unconventional in his compositions He combines works with an archaic character with works that fit in prevailing compositional trends but he also experiments with means that go far beyond what his contemporaries allowed themselves His oeuvre may be small but its diversity and quality makes it notable During his life Tollius regularly came into conflict with his employers He was often fined and sometimes even imprisoned Contemporary accounts of Tollius are contradictory when it comes to his personality but they are unanimous in recognising that he was a skilled musician

*The Hajj and Europe in the Age of Empire*, 2016-10-05 The present volume focuses on the political perceptions of the Hajj its global religious appeal to Muslims and the European struggle for influence and supremacy in the Muslim world in the age of pre colonial and colonial empires In the late fifteenth century and early sixteenth century a pivotal change in seafaring occurred through which western Europeans played important roles in politics trade and culture Viewing this age of empires through the lens of the Hajj puts it into a different perspective by focusing on how increasing European dominance of the globe in pre colonial and colonial times was entangled with Muslim religious action mobility and agency The study of Europe's connections with the Hajj therefore tests the hypothesis that the concept of agency is not limited to isolated parts of the globe By adopting the tools of empires the Hajj in itself a global activity would become part of global and trans cultural history With contributions by Aldo D Agostini Josep Lluís Mateo Dieste Ulrike

*Newspaper Press Directory*, 1905      **Indonesia's Export Crops 1816-1940** P. Creutzberg, 2012-12-06      The German Fifth Column in the Second World War Louis de Jong, 2016-11-11 Originally published in 1956 this book mainly confines itself to Fifth Column work developed by Germans Naturally I am aware that there were other Fifth Columns which moved forward in the international offensive of national socialism Hitler found accomplices in every country The time is not yet ripe however to give an accurate description of the activities of those multifarious native Fifth Columns There are no good monographs extant reliable archive material is hard to come by and the social and political diversities of those non German groups who actively sympathised with national socialism is greater and even more confusing than of the German groups In this study a unifying element lies in the fact that the activities described originated with Germans whereas a comparative study of the native Fifth Columns would become a tangle of groups of divergent natures which would each have to be understood from the special angle of its own social and political environment Louis de Jong Preface
