The Brief and Turbulent Life of Modernising Conservatism Stuart Mitchell, 2008-12-18 The Brief and Turbulent Life of Modernising Conservatism is an examination of government tensions and frustrations during a time of economic and social flux. It concentrates on the development of domestic industrial policy in the Conservative Party between 1945 and 1964 with particular emphasis on Harold Macmillan's and Sir Alec Douglas Home's administrations. Between the general elections of 1959 and 1964 the Conservative Government effected a series of striking and dangerously controversial policy transformations in response to its recognition of Britain's relative economic decline. These adjustments were both practical and strategic. The administration's aim was extraordinarily ambitious. It sought to fashion a recognisably modern and dynamic yet socially stable nation that could retain its place in the international elite. Thereby the Party hoped to ensure its own continuation in power. The author considers policy innovations that included an ill-starred attempt to join the European Community, the development of macro-economic planning and the abolition of resale price maintenance, an exploit which roused the Tory Party to unusual heights of passion. The book does not simply regurgitate an orthodox high political narrative. Instead it investigates topics of interest to modern historians and political scientists alike. It will be of value to anyone interested in questions of modern political ideology, social and economic change, the nature of popular political support or the constraints on state power in the post-war world.

From the New York Times bestselling presidential biographer comes the greatest untold story of the Civil War how two American presidents faced off as the fate of the nation hung in the balance and how Abraham Lincoln came to embrace emancipation as the last best chance to save the Union Of all the books written on Abraham Lincoln there has been one surprising gap the drama of how the railsplitter from Illinois grew into his critical role as U.S. commander in chief and managed to outwit his formidable opponent Jefferson Davis in what remains history's only military faceoff between rival American presidents Davis was a trained soldier and war hero Lincoln a country lawyer who had only briefly served in the militia Confronted with the most violent and challenging war ever seen on American soil Lincoln seemed ill suited to the task inexperienced indecisive and a poor judge of people's motives he allowed his administration's war policies to be sabotaged by fickle faithless cabinet officials while entrusting command of his army to a preening young officer named George McClellan whose defeat in battle left Washington the nation's capital at the mercy of General Robert E. Lee Davis's star performer The war almost ended there But in a Shakespearean twist Lincoln summoned the courage to make at last a climactic decision issuing as a military necessity a proclamation freeing the 3.5 million enslaved Americans without whom the South could not feed or fund their armed insurrection The new war policy doomed the rebellion which was in dire need of support from Europe none of whose governments now would dare to recognize rebel independence in a war openly fought over slavery The fate of President Davis was sealed With a cast of unforgettable characters from first ladies to fugitive coachmen to

treasonous cabinet officials Lincoln vs Davis is a spellbinding dual biography from renowned presidential chronicler Nigel Hamilton a saga that will surprise touch and enthrall
