divination obituary and obsequies initiation into Ehwa womanhood rites and sabbatical fattening of brides festivals identity of people governance heroes heroines and modern pacesetters and the changes provoked by modernity By using simple language graphic descriptions and vivid and clear explanations of the phenomena and events the author has taken the reader through the maze as it were with the needed compass to navigate through these labyrinths Resource Conflict and Environmental Relations in Africa Kelechi Johnmary Ani,2023-03-15 The book discusses the failure of many African governments in providing the social needs of the masses thereby placing the citizenry on the desperate quest for economic resources Unfortunately in many African States mineral resources are owned explored and marketed by the machinery of the state The problem arises when the masses begin to challenge state access and ownership of resources that are domiciled within their ancestral land communities and constituencies Often the challenge and resistance to state ownership of resources is generated by communal or group sense of exploitation negligence and widespread poverty in the face of high resource endowment and waste by the government officials Paradoxically in Niger Delta of Nigeria as discussed in the book the state has unleashed unlimited might upon all social groups and agitators thereby leading to the increased act of taking arms by such groups When the informal resource agitators succeed in arming themselves they begin to demand social and environmental justice thereby leading to mass armed conflict between them and the government security agencies Sometimes the confrontation could be between them and other rival local resource actors in the informal sector of their country s economy bearing in mind that the resources within their jurisdiction have become the central determinant of national commonwealth It is at that state of desperado to control access extraction and sale of natural resources in a State by different armed groups that the process of natural resources extraction qualifies as the most visible cause of conflicts and crises around the African continent that is the centrepiece of the book This is quite understandable given that mineral resource is a gift of nature and nature is that phenomenon that every human group and nation claim to represent or believe to represent them **Research Methods in Private International Law** Xandra Kramer,Laura Carballo Piñeiro,2024-05-02 This incisive Research Handbook provides valuable insights into the various methodological approaches to Private International Law from regulatory and educational perspectives It comprehensively unpacks central themes in the field including international jurisdiction recognition and enforcement and scrupulously analyses core debates whilst addressing legislative and policy issues **Postgraduate UK study and funding guide** ,2008 Features information on studying at Postgraduate level in the UK what is involved what opportunities there are lists details 75 million of funding available to Postgraduate students *The African Book Industry* UNESCO,2025-06-18 **Sustainable Transformation in African Higher Education** Felix Maringe,Emmanuel Ojo,2017-04-18 The book is a must read for policy makers academics university administrators and post graduate research students in the broad field of education and in higher education studies in particular The book brings together a wealth of information regarding the imperatives of transformation in Africa s higher
