Restorative Practice Meets Social Justice Anthony H. Normore, Antonia Issa Lahera, 2017-01-01 Restorative Practice Meets Social Justice Unsilencing the Voices of At Risk Student Populations is a collection of pragmatic urban school experiences that focus on restorative approaches situated in the context of social justice

By adopting this approach researchers and practitioners can connect and extend long established lines of conceptual and empirical inquiry aimed at improving school practices and thereby gain insights that may otherwise be overlooked or assumed This holds great promise for generating refining and testing theories of restorative practices in educational leadership and will help strengthen already vibrant lines of inquiry on social justice The authors posit that a broader conceptualization of social and restorative justice adds to extant discourse about students who not only experience various types of daily oppression in US schools but also regularly live on the fringes of society Chapters are written by a combination of researchers and practicing school leaders who believe in the power of healing and restoring relationships within school communities as opposed to traditional punitive structures The dynamic approaches discussed throughout the book urge school leaders teachers school community members and those who prepare administrators to look within and build bridges between themselves and the communities in which they serve

Elie Wiesel, the Shtetl, and Post-Auschwitz Memory Christine June Wunderli, 2023-04 How are Holocaust events remembered and narrated and why? What knowledge can Holocaust testimony convey? Christine June Wunderli explores these questions as she examines four works by Holocaust survivor Elie Wiesel. Guided by Bourdieu's theory of literary field as well as Young's theory of literary representation, she traces Hasidic influences in Wiesel's writing. Her conclusions are telling: Wiesel's narratives are born as memory is pulled towards both Auschwitz and the shtetl caught up in the tension between the two. Still, the emerging trajectory is one of hope led by a new categorical imperative.

The Decolonial Abyss An Yountae, 2016-10-03 The Decolonial Abyss probes the ethico-political possibility harbored in Western philosophical and theological thought for addressing the collective experience of suffering, socio-political trauma, and colonial violence. In order to do so, it builds a constructive and coherent thematization of the somewhat obscurely defined and underexplored mystical figure of the abyss as it occurs in Neoplatonic mysticism, German Idealism, and Afro-Caribbean philosophy. The central question An Yountae raises is: How do we mediate the mystical abyss of theology, philosophy, and the abyss of socio-political trauma engulfing the colonial subject? What would theopoetics look like in the context where poetics is the means of resistance and survival? This book seeks to answer these questions by examining the abyss as the dialectical process in which the self's dispossession before the encounter with its own finitude is followed by the rediscovery or reconstruction of the self.

Are We All Nazis? Hans Askenasy, 1978 This book is based on the famous experiments conducted by Yale psychologist Stanley Milgram, which concluded that given an adjusted controlled environment, most of us will act in a manner at total odds with our normal behavior patterns. Dr. Hans Askenasy agrees with these findings and presents, with compelling logic and scholarship, a most disquieting view that the Nazis who carried out the murder of six million Jews were

neither sadists madmen or monsters Most of us would like to think they were for then the responsibility for the atrocities they committed could be placed upon a special class of criminals or lunatics essentially different from the rest of us Auschwitz could not we like to believe have happened here yet it is psychologically easy to ignore responsibility when one is only an intermediate link in a chain of evil The author concludes that the main cause of large scale destructiveness is not individual criminality but social abnormality a collective madness which we do not fully understand and with which we have not yet come to terms From publisher description

Diversity, Equity and Inclusion in Honors Education Graeme Harper, 2019-01-15 In education sorting students according to attainment is common Such sorting clearly sets up the potential for exclusion based on the attainment ideals and on the modes of selection Ideals of inclusion suggest diversity and those of equity by reference to impartiality suggest freedom from bias Honors education which celebrates excellence and references honor and all that word and concept infers heightens and promotes the principled recognition of attainment giving rise to questions of diversity equity and inclusion The Organization for Economic Co Operation and Development OECD in its Ten Steps to Equity in Education notes that inclusion is intertwined with fairness How can honors education and in the case of the discussions in this book largely honors in US higher education promote fairness be diverse and support equity If it does not do so how can it at all claim to be offering a principled version of what the National Collegiate Honors Council USA says are opportunities for measurably broader deeper and more complex learning centered and learner directed experiences for its students In 2015 the National Society for Minorities in Honors www.nsfmih.org was launched in the USA to specifically explore support and promote diversity equity and inclusion in and across honors colleges and programs The first annual NSFMIH conference was held at Oakland University Michigan This book began at that inaugural conference and has been enhanced by enthusiastic contributions beyond that event as well

Rain of Ash Ari Joskowicz, 2023-03-14 A major new history of the genocide of Roma and Jews during World War II and their entangled quest for historical justice Jews and Roma died side by side in the Holocaust yet the world did not recognize their destruction equally In the years and decades following the war the Jewish experience of genocide increasingly occupied the attention of legal experts scholars educators curators and politicians while the genocide of Europe's Roma went largely ignored Rain of Ash is the untold story of how Roma turned to Jewish institutions funding sources and professional networks as they sought to gain recognition and compensation for their wartime suffering Ari Joskowicz vividly describes the experiences of Hitler's forgotten victims and charts the evolving postwar relationship between Roma and Jews over the course of nearly a century During the Nazi era Jews and Roma shared little in common besides their simultaneous persecution Yet the decades of entwined struggles for recognition have deepened Romani Jewish relations which now center not only on commemorations of past genocides but also on contemporary debates about antiracism and Zionism Unforgettably moving and sweeping in scope Rain of Ash is a revelatory account of the unequal yet necessary entanglement of Jewish and Romani quests for historical justice and self

representation that challenges us to radically rethink the way we remember the Holocaust
