culturally diverse The Humanity of Cities provides a welcome respite from the usual culture bound texts that give limited attention for effect only of the stereotypical Third World Contemporary Sociology Gulick s style is to develop each topic by presenting appropriate case studies He manages to include an enormous range of studies and he wisely reaches out beyond anthropology to the many fields that concern themselves with urban life This book is consequently an excellent compilation of the recent history of theoretical and empirical research on an in cities The 28 page bibliography is itself a tour de force American Anthropologist Combining major urban theories with empirical studies from around the world the author offers poignant glimpses into urban life including the streets of San Francisco as seen through the eyes of a proud garbage collector the marketplace of Ibadan as seen by a petty food trader the curiously empty streets of Fun city a California retirement community and Cairo s teeming cemetary the City of the Dead filling with the living The problems of urban life are shown to be more a result of worldwide forces rather than the intrinsic nature of cities This major new and timely contribution to the field is a most useful way to introduce urban scholars planners and students in a variety of disciplines to The Humanity of Cities A complete teachers manual makes this the perfect text *Insurgent Public Space* Jeffrey Hou, 2010-04-21 Winner of the EDRA book prize for 2012 In cities around the world individuals and groups are reclaiming and creating urban sites temporary spaces and informal gathering places These insurgent public spaces challenge conventional views of how urban areas are defined and used and how they can transform the city environment No longer confined to traditional public areas like neighbourhood parks and public plazas these guerrilla spaces express the alternative social and spatial relationships in our changing cities With nearly twenty illustrated case studies this volume shows how instances of insurgent public space occur across the world Examples range from community gardening in Seattle and Los Angeles street dancing in Beijing to the transformation of parking spaces into temporary parks in San Francisco Drawing on the experiences and knowledge of individuals extensively engaged in the actual implementation of these spaces Insurgent Public Space is a unique cross disciplinary approach to the study of public space use and how it is utilized in the contemporary urban world Appealing to professionals and students in both urban studies and more social courses Hou has brought together valuable commentaries on an area of urbanism which has up until now been largely ignored **Food Cultures of the World Encyclopedia** Ken Albala, 2011-05-25 This comprehensive reference work introduces food culture from more than 150 countries and cultures around the world including some from remote and unexpected peoples and places From babka to baklava to the groundnut stew of Ghana food culture can tell us where we ve been and maybe even where we re going Filled with succinct yet highly informative entries the four volume Food Cultures of the World Encyclopedia covers all of the planet s nation states as well as various tribes and marginalized peoples Thus in addition to coverage on countries as disparate as France Ethiopia and Tibet there are also entries on Roma Gypsies the Maori of New Zealand and the Saami of northern Europe There is even a section on food in outer space detailing how and what astronauts eat and how they prepare
