Committee on International Relations. Subcommittee on Africa, Global Human Rights, and International Operations, 2005 *The Religion of Falun Gong* Benjamin Penny, 2012-03-01 In July 1999 a mere seven years after the founding of the religious movement known as the Falun Gong the Chinese government banned it Falun Gong is still active in other countries and its suppression has become a primary concern of human rights activists and is regularly discussed in dealings between the Chinese government and its Western counterparts But while much has been written on Falun Gong's relation to political issues no one has analyzed in depth what its practitioners actually believe and do The Religion of Falun Gong remedies that omission providing the first serious examination of Falun Gong teachings Benjamin Penny argues that in order to understand Falun Gong one must grasp the beliefs practices and texts of the movement and its founder Li Hongzhi Contextualizing Li's ideas in terms of the centuries long Chinese tradition of self cultivation and the cultural world of 1980s and 90s China particularly the upwelling of biospiritual activity and the influx of translated works from the Western New Age movement Penny shows how both have influenced Li's writings and his broader view of the cosmos An illuminating look at this controversial movement The Religion of Falun Gong opens a revealing window into the nature and future of contemporary China **How the Specter of Communism Is Ruling Our World Vol 3**, 2020-06-30 **The People's Republic of Amnesia** Louisa Lim, 2014 One of the best analyses of the impact of Tiananmen throughout China in the years since 1989 The New York Times Book Review

**Understanding Securitisation Theory** Thierry Balzacq, 2010-09-13 This volume aims to provide a new framework for the analysis of securitization processes increasing our understanding of how security issues emerge evolve and dissolve Securitisation theory has become one of the key components of security studies and IR courses in recent years and this book represents the first attempt to provide an integrated and rigorous overview of securitization practices within a coherent framework To do so it organizes securitization around three core assumptions which make the theory applicable to empirical studies the centrality of audience the co dependency of agency and context and the structuring force of the dispositif These assumptions are then investigated through discourse analysis process tracing ethnographic research and content analysis and discussed in relation to extensive case studies This innovative new book will be of much interest to students of securitisation and critical security studies as well as IR theory and sociology Thierry Balzacq is holder of the Tocqueville Chair on Security Policies and Professor at the University of Namur He is Research Director at the University of Louvain and Associate Researcher at the Centre for European Studies at Sciences Po Paris **Critical Security and Chinese Politics** Juha A. Vuori, 2014-10-24 This book examines how critical approaches to security developed in Europe can be used to investigate a Chinese security issue the case of the Falungong The past few decades have produced a rich field of theoretical

approaches to security in Europe In this book the security specific notions of securitization the politics of insecurity and emancipation are used as analytical approaches to investigate the anti Falungong campaign in the People s Republic of China This campaign launched in 1999 was the largest security related propaganda campaign since 1989 and was directed against a group of qigong practitioners who were presented as a grave threat to society The campaign had major impacts as new security legislation was established and human rights organizations reported severe mistreatment of practitioners This book approaches one empirical case with three approaches in order to transcend the tendency to pit one approach against another It shows how they highlight different aspects in investigation and how they can be combined to gain more comprehensive insights and thereby invigorate renewed debate in the field Furthermore this is used as a vehicle to discuss more general philosophical issues of theory development and theory development and will assist students to comprehend the effects research framework selection has on a piece of research Such discussions are necessary in order to apply the frameworks in investigations that go beyond the socio political context they were originally developed in This book will be of interest to students of critical security studies Chinese politics research methods and IR in general Chinese Religiosities Mayfair Mei-hui Yang,2008-11-04 Extraordinarily timely and useful As China emerges as an economic and political world power that seems to have done away with religion in fact it is witnessing a religious revival The thoughtful essays in this book show both the historical conflicts between state authorities and religious movements and the contemporary encounters that are shaping China s future I am aware of no other book that covers so much ground and can be used so well as an introduction to this important field Peter van der Veer University of Utrecht **Radicalisation** James R. Lewis,Akil N. Congress. House. Committee on International Relations. Subcommittee on Oversight and Investigations,2006 The advocacy trap Stephen Noakes,2017-12-27 What does China s rise mean for transnational civil society What happens when global activist networks engage a powerful and norm resistant new hegemon This book combines detailed ethnographic research with cross case comparisons to identify key factors underpinning variation in the results and processes of advocacy on a range of issues affecting both China and the world including global warming intellectual property rights HIV AIDS treatment the use of capital punishment suppression of the Falun Gong religious movement and Tibetan independence Built on a unique blend of comparative and international theory it advances the notion of advocacy drift a process whereby the objectives and principled beliefs of activists are transformed through interaction with the Chinese state The book offers a timely reassessment of transnational civil society including its power to persuade and to leverage the policies of national governments
