An unorthodox history Gavin Schaffer, 2025-02-18 A bold new history of British Jewish life since the Second World War Historian Gavin Schaffer wrestles Jewish history away from the question of what others have thought about Jews focusing instead on the experiences of Jewish people themselves Exploring the complexities of inclusion and exclusion he shines a light on groups that have been marginalised within Jewish history and culture such as queer Jews Jews married to non Jews Israel critical Jews and even Messianic Jews while offering a fresh look at Jewish activism Jewish religiosity and Zionism Weaving these stories together Schaffer argues that there are good reasons to consider Jewish Britons as a unitary whole even as debates rage about who is entitled to call themselves a Jew Challenging the idea that British Jewish life is in terminal decline An unorthodox history demonstrates that Jewish Britain is thriving and that Jewishness is deeply embedded in the country s history and culture

Capitalism in the Anthropocene John Bellamy Foster, 2022-08-23 Over the last 11 700 years

during which human civilization developed the earth has existed within what geologists refer to as the Holocene Epoch Now science is telling us that the Holocene Epoch in the geological time scale ended replaced by the onset of a new more dangerous Anthropocene Epoch which began around 1950 The Anthropocene Epoch is characterized by an anthropogenic rift in the biological cycles of the Earth System marking a changed reality in which human activities are now the main geological force impacting the earth as a whole generating at the same time an existential crisis for the world s population What caused this massive shift in the history of the earth In this comprehensive study John Bellamy Foster tells us that a globalized system of capital accumulation has induced humanity to foul its own nest The result is a planetary emergency that threatens all present and future generations throwing into question the continuation of civilization and ultimately the very survival of humanity itself Only by addressing the social aspects of the current planetary emergency exploring the theoretical historical and practical dimensions of the capitalism s alteration of the planetary environment is it possible to develop the ecological and social resources for a new journey of hope Winds of Doctrine, critical edition, Volume 9 George

Santayana,2023-08-01 A critical edition of a classic work by the renowned philosopher George Santayana evaluating key movements in American intellectual history Winds of Doctrine presents six essays by the internationally recognized critic and philosopher George Santayana The essays edited by David E Spiech Martin A Coleman and Faedra Lazar Weiss and introduced by Paul Forster address the broad sweep of intellectual trends or as the title suggests the ever changing winds of thought of the Spanish born American thinker s time The topics range from the secularization of American culture to the rise of religious modernism to the genteel tradition in American philosophy the subject of Santayana s final lecture in America and perhaps his best known essay The original Winds of Doctrine published in 1913 was the first book published after Santayana s 1912 departure for Europe Santayana had felt stifled at Harvard for some time and his long contemplated resignation from academia released him from previous obligations and allowed him a new freedom to think and write Much later Santayana remarked on the significance of that choice to step away In Winds of Doctrine and my subsequent books a reader of my earlier writings may notice a certain change of climate It was not my technical philosophy that was principally affected but rather the meaning and status of philosophy for my inner man An insightful document of American intellectual history supplemented with annotations and rich textual commentary Winds of Doctrine is a vital and engaging survey of the religious political philosophical and literary trends of the twentieth century **The Global History of Paleopathology**
