Nietzsche Philosopher Of The Perilous Perhaps Nietzsche Philosopher Of The Perilous Perhaps:

Nietzsche, Philosopher of the Perilous Perhaps Rebekah S. Peery, 2008 Friedrich Nietzsche's notoriety is most often associated with his perspectives on and interpretations of Christianity. Here the author unmask the great essayist as he surreptitiously and cleverly proceeds to expose the destructive power of Christianity on Western culture and hence the world. As we face a rapidly growing specter of religious turmoil and threat on the international scene this timely study provides an overview of Friedrich Nietzsche's positions and ideas about the Church and about power more broadly. Nietzsche, Philosopher of the Perilous Perhaps Rebekah S. Peery, 2008 Friedrich Nietzsche's notoriety is most often associated with his perspectives on and interpretations of Christianity. Here the author unmask the great essayist as he surreptitiously and cleverly proceeds to expose the destructive power of Christianity on Western culture and hence the world. As we face a rapidly growing specter of religious turmoil and threat on the international scene this timely study provides an overview of Friedrich Nietzsche's positions and ideas about the Church and about power more broadly. *Nietzsche for the 21st Century* Rebekah S. Peery, 2010 Prof Peery's first two books emphasized Nietzsche's concerns and contributions as a cultural critic and cultural historian this time she concentrates on his major legacy as a philosopher. Taking a tender scalpel to his works from *Ecce Homo* and *Thus Spake Zarathustra* to *Beyond Good and Evil* and others she gets inside to the heart of his writing and creates an intellectual dialogue involving everyone from Dionysus and Democritus to Jacob Burckhardt and GWF Hegel. By dialectical process she notes Nietzsche reasserts Heraclitus' views of the constant tension or process always occurring between two opposites interacting elements or forces. She also brings in the contributions of R J Hollingdale and other Nietzsche analysts to present a range of insights into these nuanced writings whose application to current reality seems perhaps more apt than ever. During his lifetime 1844-1900 the impact of Nietzsche's thinking was dimly perceived if at all by most of his contemporaries or readers. Into and during the 20th century however the unexpected dangers but mostly the possibilities of his ideas began to be recognized, explored and adopted and resisted. There were exciting creative achievements far beyond Nietzsche's philosophy. These ideas continued to rapidly display their increasingly amazing and untapped resources. Well into the 21st century appreciating, interpreting and evaluating Nietzsche's thinking appear to be rising still or again. And he repays generously every effort, every investment. *The Routledge Companion to Performance Philosophy* Laura Cull, Ó Maoilearca, Alice Lagaay, 2020-07-08 The Routledge Companion to Performance Philosophy is a volume of especially commissioned critical essays, conversations, collaborative creative and performative writing, mapping the key contexts, debates, methods, discourses and practices in this developing field. Firstly the collection offers new insights on the fundamental question of how thinking happens, where, when, how and by whom philosophy is performed. Secondly it provides a plurality of new accounts of performance and performativity as the production of ideas, bodies and knowledges in the arts and beyond. Comprising texts written by international artists, philosophers and scholars from multiple disciplines, the

essays engage with questions of how performance thinks and how thought is performed in a wide range of philosophies and performances from the ancient to the contemporary Concepts and practices from diverse geographical regions and cultural traditions are analysed to draw conclusions about how performance operates across art philosophy and everyday life The collection both contributes to and critiques the philosophy of music dance theatre and performance exploring the idea of a philosophy from the arts It is crucial reading material for those interested in the hierarchy of the relationship between philosophy and the arts advancing debates on philosophical method and the relation between Performance and Philosophy more broadly

Philosophy as World Literature Jeffrey R. Di Leo, 2020-11-26 What does it mean to consider philosophy as a species of not just literature but world literature The authors in this collection explore philosophy through the lens of the worlding of literature that is how philosophy is connected and reconnected through global literary networks that cross borders mix stories and speak in translation and dialect Historically much of the world's most influential philosophy from Plato's dialogues and Augustine's confessions to Nietzsche's aphorisms and Sartre's plays was a form of literature as well as by extension a form of world literature *Philosophy as World Literature* offers a variety of accounts of how the worlding of literature problematizes the national categorizing of philosophy and brings new meanings and challenges to the discussion of intersections between philosophy and literature

The Americans and Philosophy Robert Arp, Kevin Guilfooy, 2017-10-16 The Americans a dark tense action thriller with comic touches has been hailed by many critics as currently the best show on television The story created by a former CIA spy centers on two Soviet agents posing as an ordinary American couple Philip and Elizabeth Jennings in 1980s Washington DC They have two teenage children who know nothing of their clandestine occupation and function as part of their cover story The Americans and Philosophy brings together diverse philosophers who take a close look at the metaphysical and ethical aspects of the The Americans The Jenningses believe they are living in a decadent capitalist society and draw emotional uplift from their dedication to a higher ideal Just one step ahead of the FBI they practice murder and seduction as instruments to further the goals of Communist subversion This gives their lives more meaning and more excitement than those of the other people around them and serious questions arise as to whether their lives can be truly fulfilling and ennobled Quaint looking 1980s culture plays a conspicuous role in The Americans an example being the psychotherapeutic self awareness cult known as est which features in the story and also serves as an allegory of espionage as est along with ancient philosophy asks the question Do our secret inner lives truly align with how we act The gadgetry of espionage including the poorly adapted but actually historically accurate mail robot of the 1980s FBI prompt speculations about the interaction of humans with artificial intelligence Philip and Elizabeth's genuine horror when they find that one of their children is praying and attending church brings out the ambiguities in the popular notion of brainwashing and indoctrination Since the Jenningses children enjoy a comfortable life with many opportunities can it be true that they are immorally exploited Knowing that all weapons of war are intended to kill and maim can we uniquely stigmatize some weapons such as the biological weapon called Glanders in Season Four as unacceptable All governments practice the duplicity and deception of espionage but special problems arise when continual lying invades personal relationships Is it true that in the modern world devotion to the state has become a sacred fiction like a religion Lying is everywhere in The Americans but much of the lying is very similar to everyday deception parents often withhold from their children facts about the parents jobs which might cause needless anxiety and tell their

children apparently harmless fibs like saying that Santa Claus exists The boundary between criminal lying and everyday lying is a continual irony in the script of *The Americans* Can the demands of a lofty cause even the survival of freedom or justice in the world justify the deliberate killing of an innocent individual Such questions continually bombard the show's protagonists while existentialist philosophy poses the question Is Elizabeth truly free to quit being a spy

Nietzsche's Philosophy of the Eternal Recurrence of the Same Karl Lowith, 2023-12-22 This long overdue English translation of Karl Lowith's magisterial study is a major event in Nietzsche scholarship in the Anglo American intellectual world Its initial publication was extraordinary in itself a dissident interpretation written by a Jew appearing in National Socialist Germany in 1935 Since then Lowith's book has continued to gain recognition as one of the key texts in the German Nietzsche reception as well as a remarkable effort to reclaim the philosopher's work from political misappropriation For Lowith the centerpiece of Nietzsche's thought is the doctrine of eternal recurrence a notion which Lowith unlike Heidegger deems incompatible with the will to power His careful examination of Nietzsche's cosmological theory of the infinite repetition of a finite number of states of the world suggests the paradoxical consequences this theory implies for human freedom How is it possible to will the eternal recurrence of each moment of one's life if both this decision and the states of affairs governed by it appear to be predestined Lowith's book one of the most important if seldom acknowledged sources for recent Anglophone Nietzsche studies remains a central text for all concerned with understanding the philosopher's work This long overdue English translation of Karl Lowith's magisterial study is a major event in Nietzsche scholarship in the Anglo American intellectual world Its initial publication was extraordinary in itself a dissident interpretation written by a Jew
