Night Haunts A Journey Through The London Night:

Night Haunts Sukhdev Sandhu, 2010-11-22 Traditional depictions of London at night have imagined a lawless orgy of depravity and pestilence But is Britain's capital after dark now as bland and unthreatening as an evening in any new provincial town Sukhdev Sandhu journeys across the city to find out whether the London night really has been rendered insipid by street lighting and CCTV Night Haunts seeks to reclaim the mystery and romance of the city to revitalize the great myth of London for a new century **Invisible Migrant Nightworkers in 24/7 London** Julius-Cezar

MacQuarie, 2023-08-30 This book captures the hidden labour of migrant nightworkers in 24/7 London It argues that late capitalism normalises nightwork yet refuses to recognise the associated problems from lack of decent working conditions to the seizure of the workers private time for self development family and social life The book shows how the articulation of nightworkers subjectivities and socialities happens at the intersection between migration precarity and nightwork and traces how each of these dimensions magnifies the lived experience of the others It further reveals that any possibilities for cooperation or solidarity in the workplace between migrant nightworkers become fragile and secondary to their survival of the nightshift It also elucidates the mechanisms that hinder cohesion between vulnerable groups placed temporally and socially on a different par to the mainstream societies As such this book is an excellent resource for labour regulators experts and student researchers in migration work and gender The book offers a deeply empathic and engaging portrayal of the production of disciplined and exploitable manual labor in permanent nightshift cities It cogently unpacks the experiences of embodied precarity through the largely unseen micro practices of workplaces that entrap migrant laborers The ethnographic component adds an original dimension to the inquiry Violetta Zentai Central European University

Working At Night Ger Duijzings, Lucie Dušková, 2022-10-03 The night represents almost universally a special liminal or out of the ordinary temporal zone with its own meanings possibilities and dangers and political cultural religious and social implications Only in the modern era was the night systematically colonised and nocturnal activity normalised in terms of industrial labour and production processes Although the globalised 24/7 economy is usually seen as the outcome of capitalist modernisation development and expansion starting in the late nineteenth century other consecutive and more recent political and economic systems adopted perpetual production systems as well extending work into the night and forcing workers to work the night shift normalising it as part of an alternative non capitalist modernity This volume draws attention to the extended work hours and night shift work which have remained underexplored in the history of labour and the social science literature By describing and comparing various political and economic regimes it argues that from the viewpoint of global labour history night labour and the spread of 24/7 production and services should not be seen only and exclusively as an epiphenomenon of capitalist production but rather as one of the outcomes of industrial modernity London From Punk to Blair Joe Kerr, Andrew Gibson, 2013-06-01 London from Punk to Blair is a rich portrait of Europe's foremost capital An array

of contributors including poets journalists teachers historians wanderers drinkers photographers and foodies offer a selection of personal and subjective readings of the city since the late 70s These essays chart a variety of literal and metaphorical explorations through modern and postmodern London showing how it works and how it fails to work what makes it vibrant and what makes it seedy From West End galleries to strip pubs in Shoreditch from millionaires loft apartments to buses and suburban Tube stops from film fashion and gay clubs to punk bands ruinous factories pigeon filth and the vagaries of weather London from Punk to Blair embraces the city like no other book has before This revised edition includes a new introduction by editor Joe Kerr that brings the book up to date and gives the essays context for the post recession world Full of insight into the diverse experiences that constitute the recent history of London Architects Journal This rewarding collection brings into clear focus those dramatic shifts in the fortunes of the metropolis Beautiful revealing insights into particular ways of understanding and using the city London Society Journal

Re-thinking Travel Writing Ben Stubbs, Lee Mylne, 2024-03-30 This book stems from the question that we as co authors grappled with for the past 3 plus years while in our own periods of stasis during the pandemic What place does the travel writing genre hold in a post COVID world With the massive interruptions to travel and travel writing across 2020 2023 as the pandemic forced us indoors and into isolation it also raised many other pertinent questions about the practice of and future of travel writing Part of the prompt for this book comes from the post pandemic assumption that in an ecologically fraught less mobile and more uncertain world there may not be a place for travel writing as we know it to exist in any meaningful way We examine the problems and solutions apparent for travel writing as it engages with a period of re thinking prompted by the pandemic though necessary for a plethora of other reasons as well As academics and travel writing

practitioners with decades of experience in the field we offer a unique perspective on this topic as we have the in the field experience of professional travel writers and we have the academic grounding to better understand the history theoretical concerns and contradictions of the genre to provide a more in depth perspective to our travel writing colleagues This grounding allows us to access a unique and valuable perspective for Re thinking Travel Writing The Journey of a Genre for academics aspiring travel writers and contemporary colleagues in the field

Dark Matters Nick Dunn, 2016-11-25 *Dark Matters* explores the city at night as a place and time within which escape from the confines of the daytime is possible More specifically it is a state of being There is a long history of nightwalking often integral to shady worlds of miscreants shift workers and transgressors Yet the night offers much to be enjoyed beyond vice Night by definition contrasts day summoning notions of darkness and fear But another night exists out there Liberation and exhilaration in the urban landscape is increasingly rare when so much of our attention and actions are controlled Rather than consider darkness as negative opposed to illumination and enlightenment this book explores the rich potential of the dark for our senses The question may no longer be about what spaces we wish to engage with but when we do

The Walkable City Jennie Middleton, 2021-08-18 This book explores everyday walking in contemporary urban life It brings together important theoretical and empirical insights to understand how the walkability of urban spaces can be imagined planned for and experienced The book focuses on the everyday experiences of the urban walker the bodily experiences of walking and different walking research methods It goes beyond the conventional focus on walkable places by delving into the ways in which urban space is consumed and produced through different ways of walking Drawing on fieldwork in the UK and international secondary sources the book examines how walking is socially and materially co produced focusing on pedestrian practices infrastructures and the social nature of walking Chapters in the book offer key explorations of the cultural and social inclusions and exclusions of navigating the city on foot The book considers transport planning and policy promoting pedestrian movement pedestrian infrastructures the politics of walking and social interactions of urban pedestrians The book offers vital analyses of how different but overlapping dimensions of walking and their relationship with urban space are often overlooked and the importance of centring the lived experiences of walking in understandings of pedestrian practices This book provides a timely contribution to the field of mobilities due to a growing interest in urban walking It will be of interest to students and scholars of urban studies human geography sociology and public health

Literary Landscapes of Time Jobst Welge, 2022-11-07 The volume asks how the literatures of the Americas and the Caribbean present multiple or internally differentiated spaces and how these are distinguished or traversed by different temporalities The historical and post colonial experiences of these areas turns them into especially fertile ground for the exploration of the connections between landscape geography and historical temporal palimpsests as well as the specificities of literary form The contributions are dedicated to individual yet conceptually interconnected studies of staggered multiple non simultaneous

temporalities in modern and contemporary literature The volume adopts a comparative perspective throughout and intends to foster the dialogue between the study of Latin American and Caribbean literatures in Spanish Portuguese French and English Therefore the individual essays are not grouped according to geographical or linguistic areas but follow a trajectory from spatiotemporal constellations of the 19th century to ruined catastrophic landscapes and the geopoetic inscriptions of time in regions The essays should appeal to all readers interested in World Literature Hemispheric Studies as well as temporal approaches to space and geography

Let's Talk About Love Carl Wilson, 2014-03-13 A revised expanded edition of Carl Wilson's beloved book *Let's Talk About Love* now including essays from a host of writers and cultural critics with a new afterword by the author

How to Sleep Matthew Fuller, 2018-01-25 Sleep is quite a popular activity indeed most humans spend around a third of their lives asleep However cultural political or aesthetic thought tends to remain concerned with the interpretation and actions of those who are awake *How to Sleep* argues instead that sleep is a complex vital phenomena with a dynamic aesthetic and biological consistency Arguing through examples drawn from contemporary modern and renaissance art from literature film and computational media and bringing these into relation with the history and findings of sleep science this book argues for a new interplay between biology and culture Meditations on sex exhaustion drugs hormones and scientific instruments all play their part in this wide ranging exposition of sleep as an ecology of interacting processes *How to Sleep* builds on the interlocking of theory experience and experiment so that the text itself is a lively articulation of bodies organs and the aesthetic systems that interact with them This book won't enhance your sleeping skills but will give you something surprising to think about whilst being ostensibly awake

Shores, Surfaces and Depths Felicity Picken, Emma Waterton, 2024-11-26 This book examines the oceanic presence in life on Earth and the ways that we engage with the oceanic worlds for play pleasure adventure and the pursuit of leisure and escape through tourism and travel The oceanic turn across the social sciences and humanities has produced a still proliferating opus of work that seeks to discover and emphasize oceanic presence in life on Earth This literal and figurative unearthing of blue spaces has encouraged scholars to gaze beyond the lands that have supported much of our experience and knowledge towards the gathering up of a more holistic appreciation of blue planetary life This widening of scholarly attention from land to sea is occurring simultaneously across a range of disciplines and fields including history archaeology anthropology comparative literature public policy cultural studies and geography With an explicit focus on leisure and tourism this edited collection follows a growing appreciation that it is our seemingly inconsequential encounters at play for pleasure and on holidays that are increasingly present and influential in our oceanic relations This volume will be of value to scholars and students interested in social and cultural history and environmental history and humanities

Arthur Morrison and the East End Eliza Cubitt, 2019-02-21 This the first critical biography of Arthur Morrison 1863 1945 presents his East End writing as the counter myth to the cultural production of the East End in late Victorian realism Morrison's works particularly *Tales of Mean*

Streets 1894 and A Child of the Jago 1896 are often discussed as epitomes of slum fictions of the 1890s as well as prime examples of nineteenth century realism but their complex contemporary reception reveals the intricate paradoxes involved in representing the turn of the century city Arthur Morrison and the East End examines how an understanding of the East End in the Victorian cultural imagination operates in Morrison's own writing Engaging with the contemporary vogue for slum fiction Morrison redressed accounts written by outsiders positioning himself as uniquely knowledgeable about a place considered unknowable His work provides a vigorous challenge to the fictionalised East End created by his predecessors whilst also paying homage to Charles Dickens George Gissing Walter Besant and Guy de Maupassant Examining the London sites which Morrison lived in and wrote about this book is an excursion not into the Victorian East End but into the fictions constructed around it

Overnight Dan Richards,2025-03-27 There is something special about the night For many just the idea of it conjures thoughts of starlit skies romance of being tucked up in bed For others the night means fear vulnerability and sleeplessness At night things go bump owls take wing and foxes prowl Overnight is a celebration of all things nocturnal a hymn to nighttime wildlife travel dreams and art Along the way Dan Richards meets a fascinating array of people who labour while the rest of us sleep and brings their work into the light From night terrors to the glow of watching the dawn break on the summer solstice Overnight will change the way you think about the hours after dark

Geographies of Rhythm Tim Edensor,2016-04-15 In Rhythmanalysis Henri Lefebvre put forward his ideas on the relationship between time and space particularly how rhythms characterize space Here leading geographers advance and expand on Lefebvre's theories examining how they intersect with current theoretical and political concerns within the social sciences In terms of geography rhythmanalysis highlights tensions between repetition and innovation between the need for consistency and the need for disruption These tensions reveal the ways in which social time is managed to ensure a measure of stability through the instantiation of temporal norms whilst at the same time showing how this is often challenged In looking at the rhythms of geographies and drawing upon a wide range of geographical contexts this book explores the ordering of different rhythms according to four main themes rhythms of nature rhythms of everyday life rhythms of mobility and the official and routine rhythms which superimpose themselves on the multiple rhythms of the body

The End of Night Paul Bogard,2013-07-09 A deeply panoramic tour of the night from its brightest spots to the darkest skies we have left A starry night is one of nature's most magical wonders Yet in our artificially lit world three quarters of Americans eyes never switch to night vision and most of us no longer experience true darkness In The End of Night Paul Bogard restores our awareness of the spectacularly primal wildly dark night sky and how it has influenced the human experience across everything from science to art From Las Vegas Luxor Beam the brightest single spot on this planet to nights so starlit the sky looks like snow Bogard blends personal narrative natural history science and history to shed light on the importance of darkness what we've lost what we still have and what we might regain and the simple ways we can reduce the brightness of our nights tonight
