

Dear _____

To the Parents of: _____

This letter is to inform you that your child, _____
is performing below the minimum standards for promotion to the next grade level. After reviewing your child's progress this year, we have determined that retention is the most appropriate intervention to enhance your child's education. We would still recommend that you enroll your student in summer school to accelerate your child's progress towards meeting grade level standards.

Sincerely,

Middle School Retention Letter:

Stuck in a Schmuck Soledad Carrillo, 2018-04-20 I am a mother of three Two have completed college and my son who has a learning disability made the deans list My youngest who also has a learning disability is still in high school What do you do when your child is struggling in school How do you handle when school officials tell you that your child cannot cope with the mainstream How do you react when you learn your child has a learning disability Do you still think about college for your child Of course you do Mine is a true story about how children with learning disabilities can indeed succeed Mine is a true story about how I navigated and even went against school administrators to obtain the best plan for my child The Harvard Education Letter, 2003 *Standardization of the Schools in Kansas* John Addison Clement, 1912 **Resources in Education**, 2001 **Children, Schools, And Inequality** Doris R Entwisle, 2018-03-05 Educational sociologists have paid relatively little attention to children in middle childhood ages 6 to 12 whereas developmental psychologists have emphasized factors internal to the child much more than the social contexts in explaining children s development Children Schools and Inequality redresses that imbalance It examines elementary school outcomes e g test scores grades retention rates in light of the socioeconomic variation in schools and neighborhoods the organizational patterns across elementary schools and the ways in which family structure intersects with children s school performance Adding data from the Baltimore Beginning School Study to information culled from the fields of sociology child development and education this book suggests why the gap between the school achievement of poor children and those who are better off has been so difficult to close Doris Entwistle Karl Alexander and Linda Olson show why the first grade transition how children negotiate entry into full time schooling is a crucial period They also show that events over that time have repercussions that echo throughout children s entire school careers Currently the only study of this life transition to cover a comprehensive sample and to suggest straightforward remedies for urban schools Children Schools and Inequality can inform educators practitioners and policymakers as well as researchers in the sociology of education and child development What Current Research Says to the Middle Level Practitioner Judith L.
