twenty first century neoliberal narratives about Americanization hard work and individual success However Hedrick emphasizes its focus on Latina characters necessarily inflects this celebratory mode the elusiveness of meaning in its use of the very term Latina empties out the differences among and between Latina o and Chicano a groups in the United States Of necessity chica lit also struggles with questions about the actual social and economic place of Latinas and Chicanas in this same neoliberal landscape these questions unsettle its reliance on the tried and true formulas of chick lit and romance writing Looking at chica lit s market driven representations of difference poverty and Americanization Hedrick shows how this writing functions within the larger arena of struggles over popular representation of Latinas and Chicanas
