Local Peacebuilding and Legitimacy Landon E. Hancock, Christopher Mitchell, 2018-02-15 This volume searches for pragmatic answers to the problems that continue to beset peacebuilding efforts at all levels of society with a singular focus on the role of legitimacy Many peacebuilding efforts are hampered by their inability to gain the support of those they are trying to help at the local level or those at regional national or international levels whose support is necessary either for success at the local level or to translate local successes to wider arenas There is no one agreed upon reason for the difficulty in translating peacebuilding from one arena of action to another but among those elements that have been studied one that appears understudied or assumed to be unimportant is the role of legitimacy Many questions can be asked about legitimacy as a concept and this volume addresses these questions through multiple case studies which examine legitimacy at local regional national and international levels as well as looking at how legitimacy at one level either translates or fails to translate at other levels in order to correlate the level of legitimacy with the success or failure of peacebuilding projects and programs The value of this work lies both in the breadth of the cases and the singular focus on the role of legitimacy in peacebuilding By focusing on this concept this volume represents an attempt to build beyond the critical peacebuilding approach of deconstructing the liberal peacebuilding paradigm to a search for pragmatic answers to the problems that continue to plague peacebuilding efforts at all levels of society This book will be of much interest to students of peacebuilding conflict resolution development studies security studies and International Relations

From Midnight to Glorious Morning? Mihir Bose, 2017-07-03 Mihir Bose was born in January 1947 Eight months later India became a modern free nation The country he knew growing up in the 1960s has undergone vast and radical change India today exports food sends space probes to Mars and all too often Indian businesses rescue their ailing competitors in the West In *From Midnight to Glorious Morning* Bose travels the length and breadth of India to explore how a country that many doubted would survive has been transformed into one capable of rivaling China as the world's preeminent economic superpower Multifarious challenges still continue to plague the country although inequality and corruption are issues not unique to India such a rapid ascent to global prominence creates a precarious position However as Bose outlines this rapid ascent provides evidence that India is ever capable of making great strides in the face of great adversity Bose's penetrating analysis of the last seventy years asks what is yet to be done for India in order to fulfill the destiny with which it has been imbued The predictions of doom in August 1947 have proved to be unfounded the growth of the nation in population and capital has been exponential and there is much to celebrate But Bose's nuanced personal and trenchant book shows that it is naive to pretend the hoped for bright morning has yet dawned
