Good Practice in Science Teaching: What Research Has to Say Jonathan Osborne, Justin Dillon, 2010-05-16 The book has wide appeal in that the issues investigated for example the nature of science practical work the role of language of technology and formative and summative assessment are relevant and pertinent to science teachers work in all school systems Professor David F Treagust Curtin University of Technology Australia This new edition of Good Practice in Science Teaching offers a comprehensive overview of the major areas of research and scholarship in science education Each chapter summarizes the research work and evidence in the field and discusses its significance reliability and implications for the practice of science teaching Thoroughly revised throughout the new edition includes Three new chapters covering the learning of science in informal contexts teacher professional development and technology mediated learning Updates to every chapter reflecting the changes and developments in science education Further reading sections at the end of each chapter Each chapter has been written by science education researchers with national or international reputations Each topic is approached in a straight forward manner and is written in a concise and readable style This invaluable guide is ideal for science teachers of children of all ages and others who work in teaching and related fields It is an essential text for teachers in training and those studying for higher degrees Contributors Philip Adey Paul Black Maria Evagorou John Gilbert Melissa Glackin Christine Harrison Jill Hohenstein Heather King Alex Manning Robin Millar Natasha Serret Shirley Simon Julian Swain Mary Webb

From Able to Remarkable Robert Massey, 2019-10-04 In *From Able to Remarkable* Help your students become expert learners Robert Massey provides a pathway to help teachers guide their students through the gauntlets of the gifted the underpasses of underachievement and the roadblocks to remarkable on their learning journeys What makes remarkable students remarkable Attributes such as resilience curiosity and intelligence may come to mind and we might also add others such as intuition and tenacity But what has helped make them what they are Were they born this way or did their remarkabilities emerge during their schooling Such questions may make teachers feel uneasy prompting them to reflect on the sometimes limiting scope of what is often labelled as gifted and talented provision in their school Robert Massey argues however that these remarkabilities are there latent and dormant in many more students than we might at first acknowledge In *From Able to Remarkable* Robert shares a rich variety of practical cross curricular strategies designed to help teachers unearth and nurture these capabilities and signpost a route to the top for every learner Informed by educational research and evidence from the field of cognitive science the book talks teachers through a wide range of effective teaching and learning techniques all of which are appropriate for use with all pupils and not only with top sets or high attainers Robert also shares ideas on how teachers can improve their students abilities to receive respond to and then deliver feedback on both their own work and that of others To complement the feedback process he presents practical methods to help teachers make questioning self review and greater student ownership of their questioning within lessons a

staple of day to day classroom interaction Venturing beyond the classroom the book also explores approaches to whole school provision for high attaining students and offers some robust stretch and challenge to educational leaders in considering what widespread excellence in education might look like Suitable for teachers and gifted and talented coordinators in both primary and secondary schools

Sooner, Faster, Better Reading for All Diane Montgomery, 2023-10-05 Sutton Trust research showed that disadvantaged children were 11 5 months behind advantaged peers in reading by the end of their first year of primary education and never caught up By the time these students were completing their GCSE examinations they were 20 months behind This book provides a 7 point plan to change this so that all children including those with dyslexia can become readers by the end of Year 1 and critical readers in secondary school The changes proposed are cost free in terms of both money and teachers time This book is for educators and their students early years teachers English teachers and Special Education Co ordinators SENCos in primary and secondary schools and in Further Education as well as reading researchers and policy makers Altogether the 7 point plan proposed in this book will improve reading fluency comprehension and subject attainments across the curriculum including mathematics

Girlhood, Schools, and Media Michele Paule, 2016-09-13 This book explores the circulation and reception of popular discourses of achieving girlhood and the ways in which girls themselves participate in such circulation It examines the figure of the achieving girl within wider discourses of neoliberal self management and post feminist possibility considering the tensions involved in being both successful and successfully feminine and the strategies and negotiations girls undertake to manage these tensions The work is grounded in an understanding of media educational and peer contexts for the production of the

successful girl It traces narratives across school television and online in texts produced for and by girls drawing on interviews with girls in schools online forum participation within the purpose built site [www smartgirls tv](http://www.smartgirls.tv) and girls discussions of a range of teen dramas

Cross-Linguistic Transfer of Writing Strategies Karen Forbes,2020-10-19 In the context of increasingly multilingual global educational settings this book provides a timely exploration of the phenomenon of cross linguistic transfer of writing strategies in particular transfer from the foreign language to the first language and presents a compelling case for a multilingual approach to writing pedagogy The book presents evidence from a classroom based intervention study conducted in a secondary school in England on cross linguistic strategy transfer It suggests that even beginner or low proficiency foreign language learners can develop effective skills and strategies in the foreign language classroom which can also positively influence writing in other languages including their first language This book ultimately encourages more joined up cross curricular cross linguistic thinking related to language in schools by exploring the potential for collaboration between languages teachers
