Oxford Textbook of Old Age Psychiatry Tom Denning, Alan Thomas, 2013-09-26 Broad in scope and with global appeal The Oxford Textbook of Old Age Psychiatry second edition is the definitive resource on old age psychiatry It comprehensively provides the latest knowledge on the science and practice of treating later life mental disorders focusing on the health and social issues that arise around ageing dementia co morbidity dependency and the end of life in progressively ageing societies across the world Published in previous incarnations as the much loved Psychiatry in the Elderly this core resource for all old age psychiatrists trainees and other clinical professionals treating older people's mental health has been fully revised updated and significantly expanded Twelve months inclusive access to the online version including the full text which can be browsed by the contents list index or searched links from references to external sources via PubMed ISI and CrossRef and the ability to download all figures and illustrations into PowerPoint ensures that it remains the leading text on old age psychiatry in the field Maintaining the classic combination of comprehensive coverage clear writing style and the provision of authoritative and up to date information from earlier editions this highly respected volume

covers the underpinning basic science both the neurobiological and social varieties clinical practice and specific disorders as well as providing information on psychiatric services for older people and medico legal and ethical issues that often present hard challenges for those treating older patients Taking a global approach by highlighting both the common burdens and the differences in management from country to country and with a much expanded cast of contributors providing a truly international perspective The Oxford Textbook of Old Age Psychiatry second edition includes information on all the latest improvements and changes in the field New chapters are included to reflect the development of old age care covering palliative care the ethics of caring and living and dying with dementia Existing chapters have also been revised and updated throughout and additional information is included on brain stimulation therapies memory clinics and services and capacity which now includes all mental capacity and decision making Providing extensive coverage and written by experts the field the second edition of the Oxford Textbook of Old Age Psychiatry is an essential resource no old age psychiatrist trainee or anyone working in the field of mental health care for older people should be without a copy on their bookshelf Oxford Textbook of Inpatient Psychiatry Alvaro Barrera, Caroline Attard, Rob Chaplin, 2019-05-30 Inpatient mental health care is an essential part of community based mental health care in the UK Patients admitted to acute mental health wards are often experiencing high levels of distress and acute mental illness and need to be assessed managed and treated by a wide team of mental health care professionals Inpatient care is often a traumatic experience for patients and their relatives which can define their relationship with mental health care services Reforming inpatient psychiatry is a priority for both patients and staff yet there are few reference texts on this psychiatric specialty The Oxford Textbook of Inpatient Psychiatry bridges this gap by offering a comprehensive and pragmatic guide to the UK s inpatient mental health care system today Written and edited by a multidisciplinary team this innovative resource discusses the real life experiences and challenges of a wide range of professionals working on acute mental health wards Organized into 8 sections this resource covers nursing team leadership multidisciplinary work psychology and medical aspects Individual chapters address key topics such as the management of children and adolescents and contain information on up to date research and best practice Focusing on the dignity and autonomy of patients this unique resource offers a model for clinical and organizational practice both at a national and international level Oxford Textbook of Attention Deficit Hyperactivity Disorder Tobias Banaschewski, David Coghill, Alessandro Zuddas, 2018-05-11 Attention deficit hyperactivity disorder ADHD is one of the most common mental disorders affecting children and adolescents The condition is characterized by a persistent pattern of behavioural symptoms including inattentiveness hyperactivity and impulsiveness associated with substantial impairment in social academic and or occupational functioning Clinical and research interest in the topic of ADHD has grown substantially in recent years but despite this there is still a lack of up to date reference texts devoted to the diagnosis assessment and management of patients with these conditions Part of the Oxford Textbooks in Psychiatry series the Oxford Textbook of Attention Deficit Hyperactivity

Disorder attempts to bridge this gap by providing an authoritative multi disciplinary guide to the latest research developments in the diagnosis assessment and management of patients with ADHD Organized into eight key sections this textbook covers the aetiology pathophysiology epidemiology clinical presentation co morbidity clinical assessment and clinical management of ADHD Individual chapters address key topics such as the clinical assessment of ADHD in adults and contain information on best practice current diagnostic guidelines including DSM 5 and ICD 11 and key up to date references for further reading Edited and written by an international group of recognized experts the Oxford Textbook of Attention Deficit Hyperactivity Disorder is a comprehensive resource suitable for child and adolescent psychiatrists adult psychiatrists and psychiatric trainees as well as child psychologists paediatricians psychiatric nurses and other mental health care professionals

Oxford Textbook of Migrant Psychiatry Dinesh Bhugra, 2021-02-04 Migrant psychiatry is an evolving subdiscipline within cultural psychiatry that deals with the impact of migration on the mental health of those who have migrated and those who work with these groups and provide services to them Stress related to migration affects migrants and their extended families either directly or indirectly The process of migration is not just a phase but leads on to a series of adjustments including acculturation which may occur across generations Factors such as changes in diet attitudes and beliefs and overall adjustment are important in settling down and making the individuals feel secure This period of adjustment will depend upon the individual migrant's pre migration experiences migration process and post migration experiences but also upon an individual's personality social support and emotional response to migration Socio demographic factors such as age gender educational and economic status will all play a role in post migration adjustment In order to understand the impact on individuals not only the type of migration and different stressors but also the types of psychological mechanisms at a personal level and the resources and processes at a societal level need to be explored Despite the number of refugees and asylum seekers around the world increasing at an astonishing rate the mental health needs of migrants are often ignored by policy makers and clinicians The Oxford Textbook of Migrant Psychiatry is designed to serve as the comprehensive reference resource on the mental health of migrants bringing together both theoretical and practical aspects of the mental health needs of refugees and asylum seekers for researchers and professionals Individual chapters summarise theoretical constructs related to theories of migration the impact of migration on mental health and adjustment collective trauma individual identity and diagnostic fallacies The book also covers the practical aspects of patient management including cultural factors ethnopsychopharmacology therapeutic interaction and therapeutic expectation and psychotherapy Finally the book will examine special clinical problems and special patient groups Part of the authoritative Oxford Textbooks in Psychiatry series this resource will serve as an essential reference for psychiatrists mental health professionals general practitioners primary care physicians social workers policy makers and voluntary agencies dealing with refugees and asylum seekers

Oxford Textbook of Neuropsychiatry Niruj Agrawal, Rafey Faruqui, Mayur Bodani, 2020 New from Oxford

Textbooks in Psychiatry the Oxford Textbook of Neuropsychiatry bridges the gap between general psychiatric textbooks and reference texts in neuropsychiatry Divided into four sections it covers core knowledge and skills for practice in all psychiatric disciplines with key information for training in neuropsychiatry *Oxford Textbook of Community Mental Health* Graham Thornicroft, Robert E. Drake, Oye Gureje, Kim T. Mueser, George Szumukler, 2025-01-03 Community mental health has evolved as a field of practice and as a research discipline during the last 50 years Now newer concepts such as shared decision making the recovery approach evidence based practice implementation science telemedicine and mobile device technology are adding layers of texture to this domain These developments require an ever more sophisticated understanding of the very latest evidence and experience in community mental health care to respond to the values goals needs and preferences of people with lived experience of mental health conditions This second edition of the Oxford Textbook of Community Mental Health addresses recent changes and achievements current controversies and future challenges while emphasizing areas of convergence where social values health medical sciences and policy formation converge and meet This edition also features a new section on global mental health to emphasise what is known about the mental health gap in low and middle income countries and the evidence of how to respond to these huge global challenges Like community mental health care itself the authors are multidisciplinary international and bring both clinical and scientific perspectives to this volume This textbook will be an invaluable and authoritative source of reference for all mental health specialists for people with mental health conditions for staff in non governmental and governmental organisations and indeed for all who are dedicated to creating better mental health services and systems *Oxford Textbook of the Psychiatry of Intellectual Disability* Sabayasachi Bhaumik, Regi Alexander, 2020-02-05 Intellectual Disability ID describes a lifelong condition of heterogeneous aetiology associated with the impairment of intellectual functioning IQ *Best of Five MCQs for MRCPsych Paper 3* Lena Palaniyappan, Rajeev Krishnadas, 2010-03-25 Following recent changes to the syllabus and MRCPsych exam by the Royal College of Psychiatrists this book contains 450 multiple choice questions offering exclusive coverage of Paper 3 Supporting these MCQs are detailed explanatory answers and revision notes Content is closely matched to the exam and includes practice papers **Shorter Oxford Textbook of Psychiatry** Philip Cowen, Paul Harrison, Tom Burns, 2012-08-09 This volume provides an introduction to all the clinical topics required by the trainee psychiatrist It emphasizes an evidence based approach to practice and gives full attention to ethical and legal issues **Psychiatry** Sidney Bloch, Stephen A. Green, Jeremy Holmes, 2014-05-01 Psychiatry Past Present and Prospect brings together perspectives from a group of highly respected psychiatrists each with decades of experience in clinical practice The topics covered range from scientific discoveries of all kinds advances in treatment and conceptual breakthroughs The highlights are countered by the field's negative sides perennial indecisiveness about the boundaries of psychiatry the limitations of a narrow approach to human suffering the retreat from the hope of a de institutionalised community based psychiatry the divide between biological

treatments and psychotherapy the technical and ethical complexities of psychiatric research and the low priority given to psychiatry especially but far from exclusively in less developed countries The result is a text full of collected wisdom which will promote the curiosity of mental health professionals about key developments in psychiatry over the past half century sensitize the next generation of mental health professionals to the role they might play in advancing the state of knowledge about mental illness and its treatment during the course of their careers and serve as a valuable archival resource for scholars This collection of viewpoints from very experienced leaders in the field of psychiatry will prove fascinating reading for psychiatrists and allied mental health professionals such as psychologists psychiatric social workers psychiatric nurses and occupational therapists both trained and in training It will also offer the interested laity a balanced account of psychiatry s evolution since the 1950s and its likely prospects in the 21st century

Comprehensive Women's Mental Health David J. Castle, Kathryn M. Abel, 2016-03-07 This is a comprehensive up to date and evidence based review of women s mental health It starts by considering the social and cultural contexts of women s lives today before addressing how developmental aspects pertain to mental health exploring biological evolutionary and psychosocial parameters The heart of the book contains a series of chapters with a clinical emphasis These aim to elucidate causal mechanisms for gender differences in mental disorder considering hormonal and environmental influences The therapeutic implications of gender are then addressed in some detail with a focus on inter partner and other forms of violence substance misuse personality disorder and post traumatic stress disorder The book concludes with a detailed section considering psychosis and its sequelae in women and their families The book s scope is intended to be broad and it is aimed at a clinical audience including psychiatrists and general physicians as well as mental health nurses psychologists social workers and occupational therapists
