Lewis, Kerrie L. MacPherson, 2007-10-19 The Asia Pacific region has not only the greatest concentration of population but is arguably the future economic centre of the world Epidemiological transition in the region is occurring much faster than it did in the West and many countries face the emerging problem of chronic diseases at the same time as they continue to grapple with communicable diseases This book explores how disease patterns and health problems in Asia and the Pacific and collective responses to them have been shaped over time by cultural economic social demographic environmental and political factors With fourteen chapters each devoted to a country in the region the authors take a comparative and historical approach to the evolution of public health and preventive medicine and offer a broader understanding of the links in a globalizing world between health on the one hand and culture economy polity and society on the other Public Health in Asia and the Pacific presents the importance of the non medical context in the history of human disease as well as the significance of disease in the larger histories of the region It will appeal to scholars and policy makers in the fields of public health the history of medicine and those with a wider interest in the Asia Pacific region **Nutrition in Public Health** Sari Edelstein, 2010-09-13 **Nursing for Public Health: Promotion, Principles and Practice** Paul Linsley, Roslyn Kane, Sara Owen, 2011-02-17 Nursing for Public Health reflects the growing need for all nurses to promote the health of patients as well

as treating illnesses This textbook examines core policies theories and models of public health alongside nursing skills and interventions for health issues such as obesity smoking and sexual health *COVID-19, Aging, and Public Health* Emily Joy Nicklett, Marcia G. Ory, Tzvi Dwolatzky, 2022-07-14 Handbook of Health Psychology and Behavioral Medicine Jerry M. Suls, Karina W. Davidson, Robert Malcolm Kaplan, 2010-08-19 Providing a state of the science overview of theory research and practice at the interface of psychology and health this comprehensive volume explores how health and health behaviors are shaped by a wide range of psychological processes and social environmental factors Psychology and Sociology Applied to Medicine E-Book Beth Alder, Edwin van Teijlingen, Michael Porter, 2011-11-29 This textbook in the Illustrated Colour Text series offers an integrated treatment of sociology and psychology for medical students It is presented in a much more colourful and graphic format than is usual for books on these two subjects This integration reflects the tendency to teach these two subjects together as behavioural science with an increased stress on the place of medicine in society and on illness as a product of psychological and social circumstances rather than merely a biological phenomenon The book reflects these trends and has been successful and popular with students An integrated treatment of psychology and sociology for medical students in line with the trend towards teaching these subjects as behavioural sciences Use of case studies and Stop Think boxes encourages critical thinking and discussion Graphic Illustrated Colour Text presentation style enlivens a subject which most medical students are not keen on This third edition contains a new introduction on the importance and key features of the biopsychosocial model and additional double page spreads on International Health and Rural Health The Interwar World Andrew Denning, Heidi J.S. Tworek, 2023-08-29 The Interwar World collects an international group of over 50 contributors to discuss analyze and interpret this crucial period in twentieth century history A comprehensive understanding of the interwar era has been limited by Euro American approaches and strict adherence to the temporal limits of the world wars The volume s contributors challenge the era s accepted temporal and geographic framings by privileging global processes and interactions Each contribution takes a global thematic approach integrating world regions into a shared narrative Three central questions frame the chapters First when was the interwar Viewed globally the years 1918 and 1939 are arbitrary limits and the volume explicitly engages with the artificiality of the temporal framework while closely examining the specific dynamics of the 1920s and 1930s Second where was the interwar Contributors use global history methodologies and training in varied world regions to decenter Euro American frameworks engaging directly with the usefulness of the interwar as both an era and an analytical category Third how global was the interwar Authors trace accelerating connections in areas such as public health and mass culture counterbalanced by processes of economic protectionism exclusive nationalism and limits to migration By approaching the era thematically the volume disaggregates and interrogates the meaning of the global in this era As a comprehensive guide this volume offers overviews of key themes of the interwar period for undergraduates while offering up to date historiographical insights for postgraduates and scholars interested in this

pivotal period in global history The Island Press Bibliography of Environmental Literature Yale University. School of Forestry and Environmental Studies, 1993 Environmental professionals have long felt the need for a practical reference work that takes an interdisciplinary approach to environmental research This comprehensive reference work lists books monographs journals conference proceedings government reports and other publications that contain essential information for those working to solve environmental problems professionals researchers policymakers and students
