Description :

A fully integrated vocabulary development program in American English, progressing from essential words to the more complex, delivered in short thematic units. Realistic scenarios and modern artwork are easy to relate to and these, together with story pages and practice exercises, have been applauded for their success in promoting critical thinking skills. Content is fully supported by a range of components (in English only) - including Workbooks, Classroom Activities, Audio and website.

Customer Reviews Most helpful customer reviews 2 of 2 people found the following review helpful.Great book. By Jeremy I purchased this book as the textbook for a senior-level mathematics course in my undergrad. However, this book does not "read like a textbook." This book has been one of the easiest reads in a mathematics-heavy book I have ever had the pleasure of laying my eyes on. The pictures are clear, the words are concise, the ideas are organized logically and in proper order such that ideas are clearly described and explained in a manner that you don't have to be a mathematician major to understand what is being talked about. While I purchased this book as a necessity for my coursework, if you have any kind of interest in mathematics (or just logic/puzzle games) the book is extremely interesting and you will learn A LOT. Highly recommended. Very well-done book, especially for a topic as "obscure" as Oxford Picture Dictionary Second Edition: English-French Edition: Bilingual Dictionary for French-speaking teenage and adult students of English. 0 of 0 people found the following review helpful. It has been very useful in helping me understand simple concepts needed to do ... By Sarah A. Moqueen This book is written very well. I use this book in conjunction with more formal Oxford Picture Dictionary Second Edition: English-French Edition: Bilingual Dictionary for French-speaking teenage and adult students of English books. The writing is simpler and easier to understand than the more technical books. It has been very useful in helping me understand simple concepts needed to do my research. 0 of 0 people found the following review helpful. Five Stars By Amazon Customer Awesome book, very understandable. People get a kick out of it. See all 17 customer reviews...
