

STEP E-8

Slide the bellcrank assembly over the posts as shown (note photo for exact assembly).

STEP E-9

Locate two 3mm flat washers and two 3x30mm hex cap screws (shown below). Place the washers over the shoulder screws and secure the bellcrank assembly to the posts.

STEP E-10

The steering and throttle servos are not included with the kit. Follow your radio system's instructions for "centering" the servos before installing any servos. Attach the steering servo to the upper chassis plate, exactly as shown, with four 3x8mm washerhead self-tapping screws.

STEP E-11

Locate the servo saver and adapters, the 28mm threaded rod, two long rod ends, two hollow ball connectors, one 3x15mm washerhead machine screw, one 3x12mm washerhead machine screw and one 3mm locknut.

STEP E-12

Screw the rod ends onto the threaded rod, an equal number of turns each, so that there is a center-to-center distance of 46mm. Snap the two hollow ball connectors in to the holes on the rod ends. This assembly will now be referred to as the steering rod.
