The Pain Management Handbook M. Eric Gershwin, 2013-04-17 Those who do not feel pain seldom think that it is felt SAMUEL JOHNSON The Rambler no 48 September 1 1750 Who among us has not experienced the suffering of a patient with chronic disease who in addition to the vicissitudes of fatigue anxiety and frustration must also deal with the suffering of pain Who among us has not considered and then reconsidered whether a patient's complaints are worthy of a narcotic and thence worried about the social and legal implications of chronic use Who among us has not refused pain medications to our patients for fear that use was turning into abuse Finally who among us would not have liked a clinical guide to a myriad of syndromes all of which have pain as their common denominator in the hopes of developing some strategy to prioritize treatment Our purpose in preparing The Pain Management Handbook is to provide the information needed by clinicians to develop strategies that optimize pain management It is the goal of the editors and authors that the present handbook above all else will be clinically useful Its aim is to provide practical information regarding the diagnosis and treatment of disorders causing pain along with tables and graphics to provide the busy practitioner with rapid access to relevant data
