Doomed to Succeed Dennis Ross, 2016-10-04 Winner of the National Jewish Book Award's Gerrard and Ella Berman Memorial Award in History A necessary and unprecedented account of America's changing relationship with Israel When it comes to Israel U S policy has for some time emphasized the unbreakable bond between the two countries and our ironclad commitment to Israel's security Today our ties to Israel are close so close that when there are differences they tend to make the news But it was not always this way Dennis Ross has been a direct participant in shaping U S policy toward the Middle East and Israel specifically for nearly thirty years He served in senior roles including as Bill Clinton's envoy for Arab Israeli peace and was an active player in the debates over how Israel fit into the region and what should guide our policies In *Doomed to Succeed* he takes us through every administration from Truman's to Obama's throwing into dramatic relief each president's attitude toward Israel and the region the often tumultuous debates between key advisers and the events that drove the policies and at times led to a shift in approach Ross points out how distancing the United States from Israel in the Eisenhower Nixon first Bush and Obama administrations never yielded any benefits and explains why that lesson has never been learned *Doomed to Succeed* offers compelling advice about how the priorities of Arab leaders can be understood and how future administrations might best shape U S policy in that light

The Discursive Struggle for Taiwan in the Making of the New Cold War Alain Brossat, Juan Alberto Ruiz Casado, 2023-07-10 This book provides a thought provoking analysis of the perception of China as a formidable threat amidst the current era of socio political polarization and growing militarization By exploring the discursive strategies and tactics employed to cultivate antagonism it unveils the culture of enmity that fosters fear and distrust towards China both in Taiwan and beyond Drawing on interdisciplinary research the book delves into the ontological characteristics of such a culture and provides insights into the Taiwan conflict as a crucial observation post for understanding the intricate discursive dynamics of the New Cold War The geopolitical situation of Taiwan presents a predicament as it finds itself at the crossroads of two conflicting realms On one hand it is deeply intertwined with Chinese culture and history with the added dimension of its strategic proximity to China at a time when the latter aspires to become a regional hegemon On the other hand Taiwan boasts a Western influenced political system Western leaning strategic alliances and a distinct political identity forged over the past few decades It is within this intricate interplay of apparently dissonant but overlapping factors that the thorny and

challenging nature of the discursive struggle for Taiwan becomes apparent The book consists of a collection of articles initially created by the authors during their research in Taiwan over several years first at National Yang Ming Chiao Tung University and then at National Cheng Kung University The articles organized into different chapters cover various disciplines such as political philosophy geopolitics history discourse analysis and anthropology reflecting the diverse educational backgrounds of the authors Despite their diversity all chapters are deeply connected to the discursive struggle over Taiwan Ultimately by offering a nuanced perspective that challenges prevailing narratives the authors provide a deliberately controversial yet refreshing viewpoint that advocates for a policy of empathy and negotiation Such approach goes beyond mere dialogue and diplomacy emphasizing the need for coexistence and peaceful living among different worlds
