# Oxford Take Off In German

**Erica Carter**

## **Oxford Take Off In German:**

**Oxford take off in German** ,2008      **Oxford Take Off in German** Heike Schommartz,Andrea Reitz,2000 This course book can be used in combination with the cassettes or CDs of the Oxford Take Off in German language learning course or on its own Suitable for all from absolute beginners to students wishing to brush up on their forgotten language skills this carefully structured text is divided into 14 easy to digest units designed to take the reader from beginner to intermediate German quickly and easily      **Oxford Take Off in German Dictionary** Gunhild Prowe,Jill Schneider,2000      **Compact Oxford German Dictionary** Michael Clark,2013-05-09 A compact intermediate level dictionary covering over 90 000 words and phrases and 120 000 translations ideal for the home office or school      **The Oxford Guide to Middle High German** Howard Jones,Martin H. Jones,2019-05-15 The Oxford Guide to Middle High German is the most comprehensive self contained treatment of Middle High German available in English It covers the language literature history and culture of German in the period from 1050 to 1350 and is designed for entry level readers advanced study teaching and reference The book includes a large sample of texts not only from Classical works such as Erec the Nibelungenlied Parzival and Tristan but also from mystical writing chronicles and legal documents the selection represents all major dialects and the full time span of the period The volume begins with an introduction that defines Middle High German linguistically geographically and chronologically Chapter 2 then provides a detailed exploration of the grammar covering sounds and spelling inflectional morphology syntax and lexis Each section in this chapter begins with a summary of the main points followed by detailed paragraphs for in depth study and reference Chapter 3 deals with versification discussing metre rhyme lines of verse in context and verse forms and includes practical tips for scansion Chapter 4 offers an account of the political and social structures of Medieval Germany and a survey of the principal types of texts that originated in the period The final chapter of the book comprises over forty texts each placed in context and provided with explanatory footnotes the first two texts to be taken together with the introductory grammar sections are aimed at newcomers A glossary provides full coverage of the vocabulary appearing in the texts and throughout the book      **The Oxford Handbook of Modern German History** Helmut Walser Smith,2011-09-29 This is the first comprehensive multi author survey of German history that features cutting edge syntheses of major topics by an international team of leading scholars Emphasizing demographic economic and political history this Handbook places German history in a denser transnational context than any other general history of Germany It underscores the centrality of war to the unfolding of German history and shows how it dramatically affected the development of German nationalism and the structure of German politics It also reaches out to scholars and students beyond the field of history with detailed and cutting edge chapters on religious history and on literary history as well as to contemporary observers with reflections on Germany and the European Union and on multi cultural Germany Covering the period from around 1760 to the present this Handbook represents a remarkable achievement of synthesis based on current scholarship It

constitutes the starting point for anyone trying to understand the complexities of German history as well as the state of scholarly reflection on Germany's dramatic often destructive integration into the community of modern nations. As it brings this story to the present it also places the current post unification Federal Republic of Germany into a multifaceted historical context. It will be an indispensable resource for scholars, students and anyone interested in modern Germany. Deutsch, Lehren und Lernen, 2000

**The Oxford-Duden German Dictionary** Oxford University Press. Dictionary Department. German Section, 1999. Acclaimed by language professionals the world over for its comprehensive coverage and meticulous accuracy, the Oxford Duden German Dictionary is the result of a unique collaboration between two of the world's foremost dictionary publishers: Oxford University Press and the Dudenverlag. New to this edition is a guide to life and culture in the German and English speaking worlds. This guide covers a wide range of topics from the political and educational systems to key events in the calendar and how they are celebrated. It is an ideal reference for University students as well as translators and language professionals. This title is a revised edition with supplements and replaces ISBN 0 19 860226 x plain and 0 19 860248 0 thumb index.

*German History 1789-1871* Eric Dorn Brose, 2013-08-01. During recent years there has been a noticeable increase in interest in the nineteenth century resulting in many fine monographs. However, these studies often gravitate toward Prussia or treat Germany's southern and northern regions as separate entities or else are thematically compartmentalized. This book overcomes these divisions offering a wide ranging account of this revolutionary century and skillfully combining narrative with analysis. Its lively style makes it very accessible and ideal for all students of nineteenth century Germany.

**Timeless Experience** Nancy Amendt-Lyon, Philip Brownell, 2016-05-11. For years psychotherapists have known that Laura Perls was actively involved in the development of what today is known as Gestalt therapy, although her husband, Frederick Perls, officially authored the foundational texts. Laura Perls's own professional publications are succinct and appreciated but they are not numerous. The present volume, comprising Laura Perls's heretofore unpublished writing including journal entries, letters, poems, translations, short stories and drafts for lectures and publications, offers a very personal perspective on one of the founders of Gestalt therapy. The extensive interview that Daniel Rosenblatt conducted with Laura Perls in 1972, published here for the first time in English, complements her literary texts and provides valuable background information. Laura Perls's history spans two world wars, flight from Nazi persecution, life on three continents and many new beginnings. Together with her known works, these literary texts reflect the emergence of women into professional and public life during the 20th century by giving the reader insight into this time period and the influence of a woman on the development of a major school of Humanistic Psychology. The rich cultural background from which Laura Perls benefited and the authors whose works inspired her resonate in her literary texts: a treasure chest of personal reflections during the decades of her life from 1946 to 1985. In addition, a general overview of her life is provided, her theoretical and practical contributions to the origins and development of Gestalt therapy are described, and her legacy to the field of Gestalt therapy is

elucidated Laura Perls was known for making the New York Institute for Gestalt Therapy a viable and important teaching community For decades she was the keeper of the flame of this foundational Gestalt institute Best known for her concepts of contact and support the creative use of experiments and productive use of embarrassment Laura Perls s literary texts are finally made available here      How German is She? Erica Carter,1997 The 1950s have passed into the history books as the period of the Federal Republic of Germany s so called economic miracle yet attention to women s roles in economic reconstruction has until now been negligible In this book Erica Carter explores how the development of a social market economy after 1949 gave a new centrality to consumers as key players in the economic life of the nation and in that process gave women a new public significance Public attention focused in particular on the nation s housewives who were to train the populace for entry into a new world of consumer prosperity Carter investigates this focus from two perspectives in part 1 she tackles the political economy of postwar West German consumption and in part 2 she looks at representations of the consuming woman across a range of popular cultural forms Since visual imagery is discussed at length the book is lavishly illustrated with advertisements fashion photographs film stills and documentary photography from the period How German Is She also makes a distinctive contribution to questions of national identity While many historians agree that nationalism was a spent force after 1945 Carter argues that concepts of nationhood survived in the rhetorics of public policy and in popular culture of the period In this context national and efficient consumption became a housewife s duty not just to husband and family but to the postwar nation The book will be of primary interest to scholars and students in German studies women s studies and cultural studies Erica Carter is Research Fellow in German Studies University of Warwick      *Fire and Fury* Randall Hansen,2009-09-15 National Bestseller An enlightening and utterly convincing re examination of the allied aerial bombing campaign and of civilian German suffering during World War II an essential addition to our understanding of world history During the Second World War Allied air forces dropped nearly two million tons of bombs on Germany destroying some 60 cities killing more than half a million German citizens and leaving 80 000 pilots dead Much of the bombing was carried out against the expressed demands of the Allied military leadership Hundreds of thousands of people died needlessly Focusing on the crucial period from 1942 to 1945 and using a compelling narrative approach *Fire and Fury* tells the story of the American and British bombing campaign through the eyes of those involved military and civilian command in America Britain and Germany aircrew in the sky and civilians on the ground Acclaimed historian Randall Hansen shows that the Commander in Chief of Bomber Command Arthur Harris was wedded to an outdated strategy whose success had never been proven how area bombing not only failed to win the war it probably prolonged it and that the US campaign which was driven by a particularly American fusion of optimism and morality played an important and largely unrecognized role in delivering Allied victory      **Central Europe** Luka Ivan Jukic,2025 An absorbing journey through a region caught between history geography and ideology      **Landmarks in the German Novel** Peter Hutchinson,2007 There is a large pool of German

novelists in whose oeuvre we may look for works of landmark significance and at certain periods of its history German fiction is particularly rich. Yet although the novel begins to assert itself in the seventeenth century we have to wait until the late eighteenth and Goethe's first major prose work *Werther* to see it truly rise to the level of other genres. The thirteen novels featured in this collection have all proved milestones in the development of the form and there is heavy prominence given to works by Goethe himself and by Thomas Mann. Through these as well as those by such figures as Kafka, Hesse and Günter Grass we can trace the development of the novel to its far more self-conscious form ranging through the social studies of the nineteenth to works which treat a variety of intellectual, psychological and philosophical issues in the twentieth. A second volume will cover landmarks published between 1959 and the present day. These essays, all by specialists in the relevant field, were originally delivered as lectures in the University of Cambridge.

**Nietzsche and Early German and Austrian Sociology** Franz von Solms-Laubach, 2012-02-13 While Nietzsche's influence on philosophy, literature and art is beyond dispute, his influence on sociology is often called into question. A close textual analysis of Nietzsche's works and those of important sociologists Max and Alfred Weber, Ferdinand Tönnies, Rosa Mayreder provides the first comprehensive account of their study and use of Nietzsche's writings. Above all, Nietzsche's critique of modernity, morality and culture are shown to have had a decisive influence on the development of sociology and the work of its leading thinkers at the end of the 19th century and the beginning of the 20th.

**Sounds German** Kirkland A. Fulk, 2020-11-01 For decades Germany has been shaped and reshaped by the sounds of popular music, whether viewed as uniquely German or an ideological invader from abroad. This collected volume brings together leading figures in the field of German Studies, popular music studies and cultural studies at large to survey the sociopolitical impact of music on conceptions of the German state and national identity, gender and sexuality and transnational cultural production and consumption, expanding on the ways in which sound technologies, media practices and exchanges of popular music provide a unique glimpse into the cultural dynamics of postwar Germany.

**German #MeToo** Elisabeth Krimmer, Patricia Anne Simpson, 2022 This volume responds to the MeToo movement whose worldwide resonance has illustrated not only the ubiquity of sexual abuse and sexual violence but also the failure to hold perpetrators accountable. Representing a range of disciplines, the collected essays engage current cultural and political discourses about systemic sexism, feminist theory and practice and gender-based discrimination from an academic and activist perspective. The focus on national cultures of German-speaking Europe from the mid-eighteenth century to the present captures the persistence of normalized and institutionalized sexism reframed through the lens of a contemporary political and social movement. With 16 essays from established and emerging scholars, *German MeToo* argues that sexual violence is not a universal human constant. Rather, it is enabled and sustained by the social, political, cultural, legal and economic fabric of specific societies. The contributors sustain and vary their exploration of MeToo-related issues through considerations of rape, prostitution, sexual murder, the politics of consent and victim-blaming as enacted in canonical and

marginalized authors the visual arts the graphic novel film television and theater

### **Urban Liberalism in Imperial**

**Germany** Jan Palmowski, 1999-05-13 Debates about Liberalism in imperial Germany have focused almost exclusively on the national level This book investigates liberal politics in local government the only sphere in which liberals had direct access to power throughout Germany Through the study of one of Germany's most progressive cities Frankfurt am Main Jan Palmowski examines more generally the processes of politicization and policy formulation at the local level He argues that in Frankfurt as elsewhere local affairs had become politicized not around 1900 as is generally assumed but by the 1870s Once in power the liberals concern for religion social policy and education as well as their skilful use of fiscal policy shows that liberals in Germany were as sophisticated as liberals in Britain or France Even in the face of an authoritarian state structure German liberals received and made use of freedom for renewal and reform German liberalism was not inherently weak Instead the crucial problem lay in the country's complicated federal structure which made it impossible to transfer innovations from the local level to the state and national levels

The United States in the First World War Anne Cipriano Venzon, 2013-12-02

First Published in 1999 Includes six maps

Forgotten Voices of the Secret War

Roderick Bailey, 2008-09-04 The Gestapo kept me three days in this interrogation house They especially wanted to know what I did after my escape and precise things on the organisation of the SOE And just for fun I suspect because I had really not much to tell them they pulled one of my toenails out Robert Sheppard SOE agent The Special Operations Executive SOE was a secret British organisation created early in World War 2 to encourage resistance and carry out sabotage behind enemy lines in Winston Churchill's famous phrase to set Europe ablaze Drawing on the vast resources of the Imperial War Museum Sound Archive and featuring a mass of previously unpublished personal testimonies Forgotten Voices of the Secret War tells the stories of SOE agents HQ staff diplomats aircrew and naval personnel in their own words As the war unfolds we learn of parachute drops into enemy territory torture by the Gestapo and nerve wracking sabotage missions in far flung climes Forgotten Voices of the Secret War is both an incredible account of espionage during World War 2 and a fitting testament to the efforts and sacrifices of a dedicated group of courageous men and women
