Fast Track Your Novel Maurice Northmore, 2025-06-25 After taking so long to write my first novel I realised that things had to change I had to work smarter and over the years I have accumulated an enormous amount of information and learned countless methods to improve and speed up my novel writing So it occurred to me that I should share this wealth of experience and write a writers resource book My aim was to save authors of novels and short stories years learning the tricks of the trade It was essential for me to create a book that deliberately avoided too much generic information cliches and

general phrases and that the information I provided was formatted in a simple and logical way as well as the advice given was practical and easy to understand I also wanted to create a resource book that would help writers of all abilities including the first time novel writer and short story writer to the more experienced writer If you have a desire to tell a story perhaps it is your story or you have been thinking about writing a story but don't know how to start or you merely wish to improve your story writing this book is definitely for you MN **Sharpen Your Quill** Rosie Morris,2009-04-15 A friendly guide to creative writing This book does not aim to teach you everything about the English Language It doesn't want to bore you with an extremely detailed history confuse you with Jargonistic Linguibabble or convince you of a right and wrong usage of our language What it does aim to do is improve the flow feel and general comprehensibility of your writing in order to reach the widest audience possible Learning Disabilities and e-Information Peter Williams,2020-06-30 Digital Technology is becoming ever more used by people with learning disabilities for information entertainment to socialise and enjoy self expression This book explores these important issues establishing how page design use of images and other factors facilitate or inhibit information access and information behaviour more generally **Be An Author: what would it be like if you write your book** Anne Orchard,2012-08-15 This title by Anne Orchard is for aspiring authors It provides encouragement and advice for writing your own book **Cómo se investiga** Lorraine Blaxter,Christina Hugues,Malcolm Tight,2008-06-18 Manual prático para llevar a cabo tanto proyectos de investigación como para la enseñanza de métodos para investigar Fuente de información ejercicios e ideas para ayudar a los nuevos investigadores a los estudiantes y a quienes disponen de más experiencia Língua Inglesa III Tânia Araujo Moreira,2023-10-06 A Série Universitária foi desenvolvida pelo Senac São Paulo com o intuito de preparar profissionais para o mercado de trabalho Os conteúdos abrangem diversas áreas abordando desde conhecimentos teóricos e práticos adequados às exigências profissionais atuais de forma prática e sólida Língua Inglesa III considera as tecnologias da informação e comunicação como vetores para as práticas de ensino aprendizagem do inglês no século XXI visando os processos de aquisição aperfeiçoamento e interação com o idioma Discute as ideias de passado presente e futuro com base no estudo de tempos verbais aplicados a temas de interesse tais como o planejamento de eventos e de viagens as decisões imediatas a recordação de vivências pretéritas a descrição do clima e das estações e o relato de eventos em continuidade no passado Esta obra trata ainda de gêneros textuais escritos que fomentem competências comunicativas e argumentativas O propósito facilitar a compreensão de conceitos gramaticais morfológicos e sintáticos sem perder de vista o uso da língua inglesa como ferramenta de comunicação e portanto de acesso a diferentes meios sociais e culturais de forma a auxiliar o leitor em sua atuação pessoal e profissional **The Oxford and Cambridge examiner, English grammar, parsing and analysis, comprising the Oxford and Cambridge examination papers from 1858 to the present, and a selection from the papers of the Royal college of preceptors. Researchers as Writers Lorelei Lingard, Christopher Watling, 2021-04-26 Many researchers dread writing They find it laborious even painful to put their scholarly work into words They get bogged down in the study and lose track of the story And they produce uninspiring papers that fail to resonate with readers or reviewers This book offers an antidote to this problem brief accessible lessons that guide researchers to write clear and compelling scientific manuscripts The book is divided into three sections Story Craft and Community The Story section offers advice on getting the balance of study and story just right introducing strategies for tackling each section of a scientific manuscript The Craft section considers the grammatical and rhetorical tools of the trade showing how they can be wielded for maximum impact And the Community section offers suggestions for writing collaboratively supporting other writers and navigating peer review Each section features multiple short and pragmatic lessons peppered with illustrative examples Readers can use the chapters collectively to build holistic writing skills or dip in and out to refine specific elements of the craft Rooted in a coaching philosophy we aim to unlock our readers potential as writers through instruction reflection and example And we hope to inspire researchers to face writing with joy This work is clearly written and easily understandable Its many practical examples tools and exercises make an effective toolbox of support for scholarly writers This will be invaluable to new scholars and help established scholars as well The inclusion of examples specific to the health arena and the clear elegantly simple explanations add strength and relevance to this work Toni Ungaretti Johns Hopkins School of Education Baltimore MD USA This book is the most original perspective I have ever read about the craft of writing As its title suggests it is inspiring Brownie Anderson NBME Philadelphia PA USA
