## **Oxford Guide To Literature:**

**The Oxford Guide to Literature in English Translation** Peter France, 2000 This guide highlights the place of translation in our culture encouraging awareness of the process of translating and the choices involved making the translator more visible Concentrating on major writers and works it covers translations out of many languages from Greek to Hungarian Korean to Turkish For some works e g Virgil's Aeneid which have been much translated the discussion is historical and critical showing how translation has evolved over the centuries and bringing out the differences between versions Elsewhere with less familiar literatures the Guide examines the extent to which translation has done justice to the range of work available *The Oxford Guide to Literature in English Translation* Peter France, 2005 **The Oxford Guide**

**to Contemporary World Literature** John Sturrock, 1997 opinion the Guide offers a discriminating and sometimes controversial view of a broad range of contemporary literatures **The Oxford Guide to Literature in English Translation** Peter France, 2000 *The Oxford Guide to Arthurian Literature and Legend* Alan Lupack, 2007-04-26 The Oxford Guide to Arthurian Literature and Legend offers a comprehensive survey of the Arthurian legends in all their manifestations from the earliest medieval texts to their appearances in contemporary culture Essential reading for Arthurian scholars medievalists and for those interested in myth and legend **The Oxford Handbook of English Prose 1500-1640** Andrew Hadfield, 2013-07-04 The Oxford Handbook of English Prose 1500-1640 is the only current overview of early modern English prose writing The aim of the volume is to make prose more visible as a subject and as a mode of writing It covers a vast range of material vital for the understanding of the period from jestbooks newsbooks and popular romance to the translation of the classics and the pioneering collections of scientific writing and travel writing from diaries tracts on witchcraft and domestic conduct books to rhetorical treatises designed for a courtly audience from little known works such as William Baldwin's *Beware the Cat* probably the first novel in English to *The Bible* *The Book of Common Prayer* and Richard Hooker's eloquent statement of Anglican belief *The Laws of Ecclesiastical Polity* The work not only deals with the range and variety of the substance and types of English prose but also analyses the forms and styles of writing adopted in the early modern period ranging from the Euphuistic nature of prose fiction inaugurated by John Lyly's mannered novel to the aggressive polemic of the Marprelate controversy from the scatological humour of comic writing to the careful modulations of the most significant sermons of the age and from the pithy and concise English essays of Francis Bacon to the ornate and meandering style of John Florio's translation of Montaigne's famous collection Each essay provides an overview as well as comment on key passages and a select guide to further reading *Literary Translation* Ida Klitgård, 2006 This volume of *Angles on the English Speaking World* discusses the intriguing inter relatedness between the concepts and phenomena of world literature and translation The term *worlding* presented by Struwr Eysteinsson in this collection is coined by Sarah Lawell in her book *Reading World Literature* 1994 where it denotes the reader's pleasurable reading of the meeting of worlds

in a literary translation i.e. the meeting of the different cultural environments embodied in a translation from one language into another Through such reading the reader in fact participates in creating true world literature This is a somewhat unorthodox conception of world literature conventionally defined as great literature shelved in a majestic canonical library In the opening article sparking off the theme of this collection Eysteinsson asks Which text does the concept of world literature refer to It can hardly allude exclusively to the original which the majority of the work's readers may never get to know On the other hand it hardly refers to the various translations as seen apart from the original It seems to have a crucial bearing on the border between the two and on the very idea that the work merits the move across this linguistic and cultural border to reside in more than two languages Picking up on this question at issue all the essays in this collection throw light on the problematic mechanics of cultural encounters when reading the world in literary translation i.e. in the texts themselves as well as in the ways in which they have become institutionalised as world literature
