Global Perspective WIPO, Global Business School Network, 2023-08-28 How do business schools equip budding entrepreneurs and business students with the IP skills needed for a global knowledge economy To get a more informed view of the extent of IP education in business schools the World Intellectual Property Organization WIPO undertook this study in collaboration with the Global Business School Network GBSN The study shows that IP is taught to some degree in the vast majority of business schools surveyed but that more can be done reinforcing the importance of collaboration among stakeholders of the innovation ecosystem including IP governing bodies business and educational institutions Geography and National Identity David Hooson, 1994-10-20 This volume of especially commissioned essays explores the geography of and the role of geography in national and proto national identity Place and national identity are bound together Attachment to the one is almost always inseparable from the sense of the other Yet as this volume shows the articulated self conscious linking of place and identity is by and large a modern phenomenon that took root in nineteenth century Europe The formation of supranational states and the much vaunted globalization of culture led many to believe there would be a progressive dilution of national identities and a growing agglomeration of places and nations into larger state units Precisely the reverse has taken place This book explores the connections between identity and homeland showing how a place may be perceived as archetypal endowed with love and celebrated in music and poetry yet be a pretext for violence and war It examines the evolution of ideas about identity and their manifestations in a wide variety of settings from the former Soviet Union to the island states of the South Pacific **Distance edu Different Countries** D.b.rao, 2007 **Outdoor Learning**
