Pacific Histories David Armitage, Alison Bashford, 2014-01-23 The first comprehensive account to place the Pacific Islands the Pacific Rim and the Pacific Ocean into the perspective of world history A distinguished international team of historians provides a multidimensional account of the Pacific its inhabitants and the lands within and around it over 50 000 years with special attention to the peoples of Oceania It providing chronological coverage along with analyses of themes such as the environment migration and the economy religion law and science race gender and politics *Oceanic Histories* David Armitage, Alison Bashford, Sujit Sivasundaram, 2018 Freshly presents world history through its oceans and seas in uniquely wide ranging original chapters by leading experts in their fields **The Cambridge History of the Pacific Ocean:**

Volume 1, The Pacific Ocean to 1800 Ryan Tucker Jones, Matt K. Matsuda, 2023-01-05 Volume I of The Cambridge History of the Pacific Ocean provides a wide ranging survey of Pacific history to 1800 It focuses on varied concepts of the Pacific environment and its impact on human history as well as tracing the early exploration and colonization of the Pacific the evolution of Indigenous maritime cultures after colonization and the disruptive arrival of Europeans Bringing together a diversity of subjects and viewpoints this volume introduces a broad variety of topics engaging fully with emerging environmental and political conflicts over Pacific Ocean spaces These essays emphasize the impact of the deep history of interactions on and across the Pacific to the present day *Transoceanic America* Michelle Burnham, 2019-05-23

Transoceanic America offers a new approach to American literature by emphasizing the material and conceptual interconnectedness of the Atlantic and Pacific worlds These oceans were tied together economically textually and politically through such genres as maritime travel writing mathematical and navigational schoolbooks and the relatively new genre of the novel Especially during the age of revolutions in the late eighteenth and early nineteenth centuries long distance transoceanic travel required calculating and managing risk in the interest of profit The result was the emergence of a newly suspenseful form of narrative that came to characterize capitalist investment political revolution and novelistic plot The calculus of risk that drove this expectationist narrative also concealed violence against vulnerable bodies on ships and shorelines around the world A transoceanic American literary and cultural history requires new non linear narratives to tell the story of this global context and to recognize its often forgotten textual archive *Word Across the Water* Tom Smith, 2024-10-15 In *Word Across the Water* Tom Smith brings the histories of Hawai i and the Philippines together to argue that US imperial ambitions towards these Pacific archipelagos were deeply intertwined with the work of American Protestant missionaries As self styled interpreters of history missionaries produced narratives to stoke interest in their cause locating US imperial interventions and their own evangelistic projects within divinely ordained historical trajectories As missionaries worked in the shadow of their nation s empire however their religiously inflected historical narratives came to serve an alternative purpose They emerged as a way for missionaries to negotiate their own status between the imperial and the local

and to come to terms with the diverse spaces peoples and traditions of historical narration that they encountered across different island groups *Word Across the Water* encourages scholars of empire and religion alike to acknowledge both the pernicious nature of imperial claims over oceanic space underpinned by religious and historical arguments and the fragility of those claims on the ground

The New Coastal History David Worthington, 2017-10-17 This book provides a pathway for the New Coastal History Our littorals are all too often the setting for climate change and the political refugee and migration crises that blight our age Yet historians have continued in large part to ignore the space between the sea and the land Through a range of conceptual and thematic chapters this book remedies that Scotland a country where one is never more than fifty miles from saltwater provides a platform as regards the majority of chapters in accounting for and supporting the clusters of scholarship that have begun to gather around the coast The book presents a new approach that is distinct from both terrestrial and maritime history and which helps bring environmental history to the shore Its cross disciplinary perspectives will be of appeal to scholars and students in those fields as well as in the environmental humanities coastal archaeology human geography and anthropology

Ireland's Farthest Shores Malcolm Campbell, 2022-01-20 Irish people have had a long and complex engagement with the lands and waters encompassing the Pacific world As the European presence in the Pacific intensified from the late eighteenth century the Irish entered this oceanic space as beachcombers missionaries traders and colonizers During the nineteenth century economic distress in Ireland and rapid population growth on the Pacific Ocean s eastern and western shores set in motion large scale migration that exerted a deep political social and economic impact across the Pacific Malcolm Campbell examines the rich history of Irish experiences on land and at sea offering new perspectives on migration and mobility in the Pacific world and of the Irish role in the establishment and maintenance of the British Empire This volume investigates the extensive transnational connections that developed among Irish immigrants and their descendants across this vast and unique oceanic space ties that illuminate how the Irish participated in the making of the Pacific world and how the Pacific world made them

Pacific Futures Warwick Anderson, Miranda Johnson, Barbara Brookes, 2018-11-30 How when and why has the Pacific been a locus for imagining different futures by those living there as well as passing through What does that tell us about the distinctiveness or otherwise of this sea of islands Foregrounding the work of leading and emerging scholars of Oceania *Pacific Futures* brings together a diverse set of approaches to and examples of how futures are being conceived in the region and have been imagined in the past Individual chapters engage the various and sometimes contested futures yearned for unrealized and even lost or forgotten that are particular to the Pacific as a region ocean island network destination and home Contributors recuperate the futures hoped for and dreamed up by a vast array of islanders and outlanders from Indigenous federalists to Lutheran improvers to Cantonese small business owners making these histories of the future visible In so doing the collection intervenes in debates about globalization in the Pacific and how the region is acted on by outside forces and postcolonial

debates that emphasize the agency and resistance of Pacific peoples in the context of centuries of colonial endeavor With a view to the effects of the slow violence of climate change the volume also challenges scholars to think about the conditions of possibility for future thinking at all in the midst of a global crisis that promises cataclysmic effects for the region Pacific Futures highlights futures conceived in the context of a modernity coproduced by diverse Pacific peoples taking resistance to categorization as a starting point rather than a conclusion With its hospitable approach to thinking about history making and future thinking one that is open to a wide range of methodological epistemological and political interests and commitments the volume will encourage the writing of new histories of the Pacific and new ways of talking about history in this field the region and beyond

The Pretender of Pitcairn Island Tillman W. Nechtman, 2018-09-13 Pitcairn a tiny Pacific island that was refuge to the mutineers of HMAV Bounty and home to their descendants later became the stage on which one imposter played out his

influential vision for British control over the nineteenth century Pacific Ocean Joshua W Hill arrived on Pitcairn in 1832 and began his fraudulent half decade rule that has until now been swept aside as an idiosyncratic moment in the larger saga of Fletcher Christian's mutiny against Captain Bligh and the mutineers' unlikely settlement of Pitcairn Here Hill is shown instead as someone alert to the full scope and power of the British Empire to the geopolitics of international imperial competition to the ins and outs of naval command the vicissitudes of court politics and as such to Pitcairn's symbolic power for the British Empire more broadly
