The Tyranny of Common Sense Irmgard Emmelhainz,2021-11-01 As one of the first countries to implement a neoliberal state apparatus Mexico serves as a prime example of the effects of neoliberal structural economic reform on our sensibility Irmgard Emmelhainz argues that in addition to functioning as a form of politico economic organization neoliberalism creates particular ways of seeing and inhabiting the world It reconfigures common sense justifying destruction and dispossession in the name of development and promising to solve economic precarity with self help and permanent education Pragmatism reigns yet in always aiming to maximize individual benefit and profit such common sense fuels a culture of violence and erodes the distinction between life and death Moreover since 2018 with the election of a new Mexican president neoliberalism has undergone what Emmelhainz calls post neoliberal conversion intensifying extractivism and ushering in a novel form of moral political and intellectual hegemony rooted in class tensions and populism Integrating theory with history and lived reality with art film and literary criticism *The Tyranny of Common Sense* will appeal to academics and readers interested in the effects of neoliberalism and now post neoliberalism in Mexico from a broader global perspective Originally published in Spanish in 2016 as *La tiranía del sentido común La reconversión neoliberal de México* the English edition has been thoroughly revised and expanded to encompass a critical vision of the current regime

The Deepest Border Sasha D. Pack,2019-01-15 In the mid nineteenth century as European navies learned to neutralize piracy new patterns of circulation and settlement became possible in the western Mediterranean *The Deepest Border* tells the story of how a borderland society formed around the Strait of Gibraltar bringing historical perspective to one of the contemporary world's critical border zones Drawing on primary and secondary research from Spain France Gibraltar and Morocco including military intelligence files public health reports consular correspondence and travel diaries Sasha D Pack draws out parallels and connections often invisible to national and mono imperial histories In conceptualizing the Strait of Gibraltar region as a borderland Pack reconsiders a number of the region's major tensions and conflicts including the Rif Rebellion the Spanish Civil War the European phase of World War II the colonization and decolonization of Morocco and the ongoing controversies over the exclaves of Gibraltar Ceuta and Melilla Integrating these threads into a long history of the region *The Deepest Border* speaks to broad questions about how sovereignty operates on the periphery how borders are constructed and maintained and the enduring legacies of imperialism and colonialism

The Darkest Sides of Politics, I Jeffrey M. Bale,2017-09-04 This book

examines a wide array of phenomena that arguably constitute the most noxious extreme terrifying murderous secretive authoritarian and or anti democratic aspects of national and international politics Scholars should not ignore these dark sides of politics however unpleasant they may be since they influence the world in a multitude of harmful ways The first volume in this two volume collection focuses on the history of underground neo fascist networks in the post World War II era neo fascist paramilitary and terrorist groups operating in Europe and Latin America in the 1960s and 1970s and the manipulation of those and other terrorist organizations by the security forces of various states both authoritarian and democratic A range of global case studies are included all of which focus on the lesser known activities of certain secular extremist milieus This collection should prove to be essential reading for students and researchers interested in understanding seemingly arcane but nonetheless important dimensions of recent historical and contemporary politics MARTE Gabriel
