Paint The White House Black:

Paint the White House Black Michael P. Jeffries, 2013-02-13 Barack Obama's election as the first black president in American history forced a reconsideration of racial reality and possibility. It also incited an outpouring of discussion and analysis of Obama's personal and political exploits. *Paint the White House Black* fills a significant void in Obama-themed debate, shifting the emphasis from the details of Obama's political career to an understanding of how race works in America. In this groundbreaking book, race rather than Obama is the central focus. Michael P. Jeffries approaches Obama's election and administration as common cultural ground for thinking about race. He uncovers contemporary stereotypes and anxieties by examining historically rooted conceptions of race and nationhood, discourses of biracialism, and Obama's mixed heritage, the purported emergence of a post-racial society, and popular symbols of Michelle Obama as a modern black woman. In so doing, Jeffries casts new light on how we think about race and enables us to see how race in turn operates within our daily lives. Race is a difficult concept to grasp, with outbursts and silences that disguise its relationships with a host of other phenomena. Using Barack Obama as its point of departure, *Paint the White House Black* boldly aims to understand race by tracing the web of interactions that bind it to other social and historical forces.

Revealing Male Bodies Nancy Tuana, 2002-05-06 *Revealing Male Bodies* is the first scholarly collection to directly confront male lived experience. There has been an explosion of work in men's studies, masculinity issues, and male sexuality, in addition to a growing literature exploring female embodiment. Missing from the current literature, however, is a sustained analysis of the phenomenology of male gendered bodies. *Revealing Male Bodies* addresses this omission by examining how male bodies are physically and experientially constituted by the economic, theoretical, and social practices in which men are immersed. Contributors include Susan Bordo, William Cowling, Terry Goldie, Maurice Hamington, Don Ihde, Greg Johnson, Björn Krondorfer, Alphonso Lingis, Patrick McGann, Paul McIlvenny, Terrance MacMullan, Jim Perkinson, Steven P. Schacht, Richard Schmitt, Nancy Tuana, Craig L. Wilkins, and John Zuern.

Not in Our Lifetimes Michael C. Dawson, 2019-10-25 Reflects on black politics in America and what it will take to see equality.

The Personal Is Political Christine Salkin Davis, Jonathan L. Crane, 2020-07-27 In the wake of Donald J. Trump's unprecedented victory and his administration's multi-pronged attacks on an array of vulnerable populations, a diverse collection of scholars was asked to document the ways in which marginalized peoples have experienced the first years of Trump mayhem. The essays in this volume ask us to think through tough narratives of exclusion, exile, and pain. The challenge in this book is to represent the unrepresentable, to document in chilling detail how Trump, his allies in government, and his unshakeable base have weaponized the culture war and threatened the ideals of the Republic. This book invites us to experience the scarifying perspective of the marginalized Other, to remember to honor all our most human stories that woven together make up the collective us, the collective U.S. The editors also hope this collection suggests a way forward, a way to defeat American nativism, and a way to end the war on those of us who are on this sad day, our nation's public enemies.

Preachers of Hate Kenneth R. Timmerman, 2004-11-23 Like no book before it Preachers of Hate uncovers an ancient hatred that threatens the life and livelihood of every American The new anti-Semitism targets not only Jews but Americans specifically and the West in general It targets our values our lifestyle and our freedoms It is the single most important issue we face when trying to make sense of the Arab world Most Americans will be stunned to discover the depth and extent of anti-Semitic hatred in today's Middle East and Europe and that many Muslim leaders are not just encouraging it but spending a great deal of money to spread the lies that spawned the terrorists responsible for the September 11 attack on America In Preachers of Hate bestselling author Kenneth R Timmerman who is not Jewish contends that besides Islam itself the core unifying force in the Muslim world is a virulent strain of anti-Semitism that postulates the existence of a Jewish conspiracy to take over the world From the pulpits of fiery Muslim clerics to the Arab street and to the highest reaches of government and state sponsored media there is a belief that this thousand year old conspiracy has already taken hold in America and is now especially after the war in Iraq about to do the same in the Middle East and beyond It is seen as no less than Muslims historical destiny to prevent such a takeover

and to do so by any means possible To misunderstand the ferocity of that belief is to vastly underestimate the resolve of many Muslims to repel America Israel and all things Western Timmerman explores the roots of this hatred examining its history the religious sources upon which it draws and how it is being transmitted to young people growing up in Arab societies by their leaders their teachers and their mosques He documents how U S and European Union money has been used to finance hatred in Palestinian schools He exposes the double talk of Arab leaders and their supporters in the West As it so often was throughout history this new strain of Jew hatred is really about much more than Jews They get attacked first when the enemies of America can't attack Americans However what begins with the Jews never ends with the Jews Is there a conspiracy between America and the Jews asks Timmerman Indeed there is A common heritage a dedication to improving the human condition through compassion and tolerance of differences a conspiracy of freedom And that is why they hate us As with the Jews throughout history America has been unfairly successful As have the Jews Americans have profited from the misery and poverty of others If you hate Jews you must also hate America Such is the simple logic of the anti Semite Such increasingly is the logic of the Middle East It is a message that is reinforced day in and day out by the official government sanctioned Arab media from the streets of Egypt London Lebanon Saudi Arabia Paris and Gaza and in the mosques where impassioned clerics quote verbatim texts like the Protocols of the Elders of Zion a pillar of anti Semitic hatred that originated in czarist Russia As America reasserts her role in the Middle East and attempts to bring peace between Jews and Arabs Preachers of Hate is an essential book that reframes a very complicated issue as a matter of life and death

Food and Media Jonatan Leer, Karen Klitgaard Povlsen, 2016-06-17 Food is everywhere in contemporary mediascapes as witnessed by the increase in cookbooks food magazines television cookery shows online blogs recipes news items and social media posts about food This mediatization of food means that the media often interplays between food consumption and everyday practices between private and political matters and between individuals groups and societies This volume argues that contemporary food studies need to pay more attention to the significance of media in relation to how we do food Understanding food media is particularly central to the diverse contemporary social and cultural practices of food where media use plays an increasingly important but also differentiated and differentiating role in both large scale decisions and most people's everyday practices The contributions in this book offer critical studies of food media discourses and of media users interpretations negotiations and uses that construct places and spaces as well as possible identities and everyday practices of sameness or otherness that might form new or renew old food politics

Necessary Trouble Drew Gilpin Faust, 2023-08-22 AN INSTANT NEW YORK TIMES BESTSELLER A memoir of coming of age in a conservative Southern family in postwar America To grow up in the 1950s was to enter a world of polarized national alliances nuclear threat and destabilized social hierarchies Two world wars and the depression that connected them had unleashed a torrent of expectations and dissatisfactions not only in global affairs but in American society and Americans lives A privileged white girl in conservative segregated Virginia was expected to adopt a willful blindness to the inequities of race and the constraints of gender For Drew Gilpin the acceptance of both female subordination and racial hierarchy proved intolerable and galvanizing Urged to become well adjusted and to fill the role of a poised young lady that her upbringing imposed she found resistance was necessary for her survival During the 1960s through her love of learning and her active engagement in the civil rights student and antiwar movements Drew forged a path of her own one that would eventually lead her to become a historian of the very conflicts that were instrumental in shaping the world she grew up in Culminating in the upheavals of 1968 Necessary Trouble captures a time of rapid change and fierce reaction in one young woman s life tracing the transformations and aftershocks that we continue to grapple with today Includes black and white images **The**

America That I Didn't Know Existed Francis Kwarteng, 2020-09-09 The American Dream is a popular concept It is a celebrated mantra But does it really exist Even if it does is it for everyone The American experiment tells a different story Examples abound of many for whom the American Dream is an empty rhetoric Although America prides itself on liberal ideas of equity social justice and equality for all harnessing the potential benefits of the American Dream is far from true for many hardworking educated Americans Inasmuch as the American Dream may exist for some white privilege employment and educational discrimination racism may stand in the way of achieving one s fullest potential This is compounded by the

Eurocentric content of the American curriculum which denies equal representation to non white Americans in the marketplace of ideas reinforcing their sociopolitical and epistemic marginalization In a remarkably wide ranging and moving book Francis Kwarteng has provided us with one of the most honest and earnest assessments of what immigrants find in the United States The book *The America That I Didn't Know Existed* reminds me of the complex reasons people are attracted to the American society and the disappointment that they find when they sometimes discover that what one reads about America is not truly the best way to know America Kwarteng has lived studied and learned in America and he counts these experiences as blessings as anyone would who has seen possibilities However this determined intellectual has shown us a path forward with acceptance and humanity This riveting book has the making of an incredibly powerful drama as well Molefi Kete Asante author of *Erasing Racism The Survival of the American Nation* Francis Kwarteng's book recounts his personal journey to America by reliving the challenges and struggles he had to overcome to realize that the dream he once imagined was only a mirage The author provides the rationale behind his decision to come to America and the subsequent disillusion with the gap between his aspirations and realities on American soil Framed within the intellectual lens of Afrocentricity Kwarteng exposes and critiques the prevailing dominance of Eurocentric constructs that systemically dehumanizes and perforce disempowers persons of African descent The result of this is a readable empowering page turning memoir that will resonate with every African immigrant Kwame Akonor is Associate Professor of Political Science at Seton Hall University USA founding director of the New York based African Development Institute and author of *African Economic Institutions*
