Hatch, 2007 A valuable resource for both student and practitioner The text and photos are clear concise and informative A valuable addition to any library the general public as well Kenneth S Nakaba FASLA Professor California State Polytechnic University Pomona This is the treed landscape knowledge source and the design and management tool we have all been hoping to see for decades Bridging horticulture and design it spans without judgment native specifics introduced near native and not so near native trees It provides the much asked for design settings as well as the species characteristics in all their delight and imagery This exhaustive treatise on California trees even sets the context for the big issues of climate geomorphic topographic and hydrologic effects and how we design with trees so as to be true partners in the best future for California Joe Brown Principal EDAW Inc I find the concept for Chuck s book quite exciting and envision it will be used both by those involved with urban landscapes as well as those involved with restoration of native habitats It is a well researched compendium that will aid anyone who is interested in trees and their use in a wide variety of situations The photographs in the book are an excellent aid in tree identifications and the single volume will reduce the need carry around multiple

references for identification of both native as well as non native trees It is my hope that Chuck s book will stimulate greater use of California s drought tolerant native trees in landscape plantings because of their reduced water requirements and ecological compatibility with other native plants and animals Monty Knudsen Assistant Project Leader USDI Fish Wildlife Service Trees of the California Landscape is a masterful combination of those native and non Californian species that have importance in wildlands or the designed landscape or both Each of the 468 plus pages is devoted to a single species with photographs of the tree the bark and leafy branches accompanied by an amazingly efficient text that summarizes the natural distribution key identification traits tree architecture longevity and suitable habitats for planting all in a very readable style Charles Hatch has created an excellent reference for forest ecologists landscape designers horticulturalists and restoration specialists not only in California but throughout the United States Michael G Barbour Professor of Plant Ecology University of California Davis This richly illustrated book provides a much needed resource for students educators and practitioners Margarita M Hill Head Landscape Architecture Department California Polytechnic State University San Luis Obispo

Designing Gardens with Flora of the American East, Revised and Expanded Carolyn Summers, Kate Brittenham, 2024-02-16 As recent years have seen alarming declines of insect and bird populations in many states more gardeners have discovered the importance of including native plants in order to nurture these pollinators and sustain local ecosystems But when so many popular landscaping designs involve exotic cultivars and invasive plant species how can you create a garden that is both aesthetically pleasing and ecologically responsible In this fully revised second edition of the classic guide *Designing Gardens with Flora of the American East* gardening expert Carolyn Summers draws on the most recent research on sustainable landscaping She is joined in this edition by her daughter landscape designer Kate Brittenham offering an intergenerational dialogue about the importance of using indigenous plants that preserve insect and bird habitats The practical information they provide is equally useful for home gardeners and professionals including detailed descriptions of keystone trees shrubs perennials vines and grasses that are native to the eastern United States Accompanied by entirely new illustrations and updated plant lists they offer chic yet eco friendly landscape designs fully customized for different settings from suburban yards to corporate office parks The states covered in this book are CT DE IA IL IN KY MA MD ME MI MN MO NC NH NJ NY OH PA RI TN VA VT WI and WV as well as southern Quebec and Ontario **North American Odyssey** Craig E. Colten, Geoffrey L. Buckley, 2014-03-27 This groundbreaking volume offers a fresh approach to conceptualizing the historical geography of North America by taking a thematic rather than a traditional regional perspective Leading geographers building on current scholarship in the field explore five central themes Part I explores the settling and resettling of the continent through the experiences of Native Americans early European arrivals and Africans Part II examines nineteenth century European immigrants the reconfiguration of Native society and the internal migration of African Americans Part III considers human transformations of the natural landscape in carving out a transportation network

replumbing waterways extracting timber and minerals preserving wilderness and protecting wildlife Part IV focuses on human landscapes blending discussions of the visible imprint of society and distinctive approaches to interpreting these features The authors discuss survey systems regional landscapes and tourist and mythic landscapes as well as the role of race gender and photographic representation in shaping our understanding of past landscapes Part V follows the urban impulse in an analysis of the development of the mercantile city nineteenth and twentieth century planning and environmental justice With its focus on human environment interactions the mobility of people and growing urbanization this thoughtful text will give students a uniquely geographical way to understand North American history Contributions by Derek H Alderman Timothy G Anderson Kevin Blake Christopher G Boone Geoffrey L Buckley Craig E Colten Michael P Conzen Lary M Dilsaver Mona Domosh William E Doolittle Joshua Inwood Ines M Miyares E Arnold Modlin Jr Edward K Muller Michael D Myers Karl Raitz Jasper Rubin Joan M Schwartz Steven Silvern Andrew Sluyter Jeffrey S Smith Robert Wilson William Wyckoff and Yolonda Youngs
