The Manor Mac Griswold, 2025-09-23 Mac Griswold's The Manor is the biography of a uniquely American place that has endured through wars great and small through fortunes won and lost through histories bright and sinister and of the family that has lived there since its founding as a Colonial New England slave plantation three and a half centuries ago In 1984 the landscape historian Mac Griswold was rowing along a Long Island creek when she came upon a stately yellow house and a garden guarded by looming boxwoods She instantly knew that boxwoods that large twelve feet tall fifteen feet wide had to be hundreds of years old So as it happened was the house Sylvester Manor had been held in the same family for eleven generations Formerly encompassing all of Shelter Island New York a pearl of 8 000 acres caught between the North and South Forks of Long Island the manor had dwindled to 243 acres Still its hidden vault proved to be full of revelations and treasures including the 1666 charter for the land and correspondence from Thomas Jefferson Most notable was the short and steep flight of steps the family had called the slave staircase which would provide clues to the extensive but little known story of Northern slavery Alongside a team of archaeologists Griswold began a dig that would uncover a landscape bursting with stories Based on years of archival and field research as well as voyages to Africa the West Indies and Europe The Manor is at once an investigation into forgotten lives and a sweeping drama that captures our history in all its richness and suffering It is a monumental achievement

Motherhood, Childlessness and the Care of Children in Atlantic Slave Societies Camillia Cowling, Maria Helena Pereira Toledo Machado, Diana Paton, Emily West, 2020-05-21 This book provides critical perspectives on the multiple forms of mothering that took place in Atlantic slave societies Facing repeated child death mothering was a

site of trauma and grief for many even as slaveholders romanticized enslaved women's work in caring for slaveholders' children. Examining a wide range of societies including medieval Spain, Brazil, and New England and including the work of historians based in Brazil, Cuba, the United States, and Britain, this collection breaks new ground in demonstrating the importance of mothering for the perpetuation of slavery and the complexity of the experience of motherhood in such circumstances. This pathbreaking collection on all aspects of the experience, politics, and representations of motherhood under Atlantic slavery analyses societies across the Atlantic world and will be of interest to those studying the history of slavery as well as those studying mothering throughout history. This book comprises two special issues originally published in *Slavery Abolition and Women's History Review*.

The Rise of African Slavery in the Americas David Eltis, 2000. Why were the countries with the most developed institutions of individual freedom also the leaders in establishing the most exploitative system of slavery that the world has ever seen? In seeking to provide new answers to this question, *The Rise of African Slavery in the Americas* examines the development of the English Atlantic slave system between 1650 and 1800. The book outlines a major African role in the evolution of the Atlantic societies before the nineteenth century and argues that the transatlantic slave trade was a result of African strength rather than African weakness. It also addresses changing patterns of group identity to account for the racial basis of slavery in the early modern Atlantic World. Exploring the paradox of the concurrent development of slavery and freedom in the European domains, David Eltis provides a fresh interpretation of this difficult historical problem.

The Children of Africa in the Colonies Melanie J. Newton, 2008-06. When a small group of free men of color gathered in 1838 to celebrate the end of apprenticeship in Barbados, they spoke of emancipation as the moment of freedom for all colored people, not just the former slaves. The fact that many of these men had owned slaves themselves gives a hollow ring to their lofty pronouncements. Yet in *The Children of Africa in the Colonies*, Melanie J. Newton demonstrates that simply dismissing these men as hypocrites ignores the complexity of their relationship to slavery. Exploring the role of free blacks in Barbados from 1790 to 1860, Newton argues that the emancipation of the slaves was a result of their economic success.

The Slaves' Economy Ira Berlin, Philip D. Morgan, 1995. Slaves achieved a degree of economic independence, producing food, tending cash crops, raising livestock, manufacturing, furnishing goods, marketing their own products, consuming, and saving the proceeds and bequeathing property to their descendants. The editors of this volume contend that the legacy of slavery cannot be understood without a full appreciation of the slaves' economy.

West Indian Slavery and British Abolition, 1783-1807 David Ryden, 2009-01-19. Ryden challenges conventional wisdom regarding the political and economic motivations behind the final decision to abolish the British slave trade in 1807. His research illustrates that a faltering sugar economy after 1799 tipped the scales in favour of the abolitionist argument and helped secure the passage of abolition.

The Politics of Reproduction Katherine Paugh, 2017-04-21. Many British politicians, planters, and doctors attempted to exploit the fertility of Afro-Caribbean women's bodies in order to ensure the economic success of the British Empire during the age of abolition. Abolitionist reformers hoped

that a homegrown labor force would end the need for the Atlantic slave trade By establishing the ubiquity of visions of fertility and subsequent economic growth during this time The Politics of Reproduction sheds fresh light on the oft debated question of whether abolitionism was understood by contemporaries as economically beneficial to the plantation colonies At the same time Katherine Paugh makes novel assertions about the importance of Britain s Caribbean colonies in the emergence of population as a political problem The need to manipulate the labor market on Caribbean plantations led to the creation of new governmental strategies for managing sex and childbearing such as centralized nurseries discouragement of extended breastfeeding and financial incentives for childbearing that have become commonplace in our modern world While assessing the politics of reproduction in the British Empire and its Caribbean colonies in relationship to major political events such as the Haitian Revolution the study also focuses in on the island of Barbados The remarkable story of an enslaved midwife and her family illustrates how plantation management policies designed to promote fertility affected Afro Caribbean women during the late eighteenth and early nineteenth centuries The Politics of Reproduction draws on a wide variety of sources including debates in the British Parliament and the Barbados House of Assembly the records of Barbadian plantations tracts about plantation management published by doctors and plantation owners and missionary records related to the island of Barbados
