Initiation in the South where initiates set their intentions then moves into the West where they free themselves from habitual patterns and core beliefs then into the North the direction of cultivating attention and unity and finishes in the East the direction of regeneration and initiation Drawing upon the life experiences of those who have successfully navigated the wheel Johnson demonstrates that once fears assumptions and ingrained beliefs are confronted and transformed initiates emerge ready to reenter society with renewed energy and vision that will enrich their own lives and their communities

Hidden Dimensions B. Alan Wallace, 2010-02-22 B Alan Wallace introduces a natural theory of human consciousness that has its roots in contemporary physics and Buddhism Wallace's special theory of ontological relativity suggests that mental phenomena are conditioned by the brain but do not emerge from it Rather the entire natural world of mind and matter subjects and objects arises from a unitary dimension of reality Wallace employs the Buddhist meditative practice of samatha to test his hypothesis creating a kind of telescope to examine the space of the mind He then proposes a

more general theory in which the participatory nature of reality is envisioned as a self excited circuit In comparing these ideas to the Buddhist theory known as the Middle Way philosophy Wallace explores further aspects of his general theory of ontological relativity which can be investigated through vipasyana or insight meditation He then focuses on the theme of symmetry in quantum cosmology and the problem of frozen time relating these issues to the theory and practices of the Great Perfection school of Tibetan Buddhism He concludes with a discussion of complementarity as it relates to science and religion

Tiso, 2016-01-26 A leading authority on the rainbow body traces its history in the encounter of religions in medieval Central Asia exploring a previously unimagined connection between early Dzogchen and the resurrection of Jesus. Francis V. Tiso, a noted authority on the rainbow body, explores this manifestation of spiritual realization in a wide-ranging and deeply informed study of the transformation of the material body into a body of light. Seeking evidence on the boundary between physical science and deep spirituality that might elucidate the resurrection of Jesus, he investigates the case of Khenpo A. Ch., a Buddhist monk who died in eastern Tibet in 1999. *Rainbow Body and Resurrection* chronicles the dissolution of Khenpo's material body within a week of his death, including eye-witness interviews. Tiso describes the spiritual practices that give rise to the rainbow body and traces their history deep into the encounter of religions in medieval Central Asia. His erudite exploration of the Tibetan phenomenon raises the fascinating question of whether there is a connection between the rainbow body and the dying and rising of Jesus. Drawing on a wealth of recent research, Tiso expands his discussion to include the contemplative geography out of which Dzogchen arose some time in the eighth century along the great Silk Road across Central Asia. The result is an illuminating consideration of previously unimagined relationships between spiritual practices and beliefs in Central Asia.

Fathoming the Mind B. Alan Wallace, 2018-10-02 Bestselling author B. Alan Wallace delivers the long-awaited follow-up to his *Stilling the Mind: Shamatha Teachings from Dudjom Lingpa's Vajra Essence* (2011). This companion volume stems from an oral commentary Dudjom Lingpa gave to the next section of the *Vajra Essence* in which he elucidates the cultivation of contemplative insight or vipashyana into the nature of existence as a whole. The revelation appears in the form of a fascinating dialogue within Dudjom Lingpa's own mind, posing questions to his own primordial consciousness and the pithy and provocative replies tap into the very ground of being. The ensuing dialogue explores every stage of the path to buddhahood in this lifetime, from the very beginning to the unexcelled result of the rainbow body signifying enlightenment. Everything you need to know to attain buddhahood is complete in this text. As Wallace continued to reflect on Dudjom Lingpa's writings and their relevance to the modern world, he was inspired to elaborate extensively on his original commentary. The book includes new introductory essays and an afterword revealing the text's contribution to the contemplative revolution triggered by the discoveries of Galileo, Darwin, and Einstein. *Between Ourselves* Evan Thompson, 2001 Second-person I/You relations are central to human life yet have been neglected in consciousness research. This book puts that right and goes further by also including descriptions of animal person-to-person interactions.
