Nature, Man and Woman Alan Watts, 1951-02-27 From perhaps the foremost interpreter of Eastern disciplines for the contemporary West and an author who had the rare gift of writing beautifully the unwritable Los Angeles Times a guide that draws on Chinese Taoism to reexamine humanity's place in the natural world and the relation between body and spirit Western thought and culture have coalesced around a series of constructed ideas that human beings stand separate from a nature that must be controlled that the mind is somehow superior to the body that all sexuality entails a seduction that in some way underlie our exploitation of the earth our distrust of emotion and our loneliness and reluctance to love Here Watts fundamentally challenges these assumptions drawing on the precepts of Taoism to present an alternative vision of man and the universe one in which the distinctions between self and other spirit and matter give way to a more holistic way of seeing

Alan Watts Here and Now Peter J. Columbus, Don Adrian L. Rice, 2012-06-01 Considers the contributions and contemporary significance of Alan Watts **Yoga Journal**, 1981-03 For more than 30 years Yoga Journal has been helping readers achieve the balance and well being they seek in their everyday lives With every issue Yoga Journal strives to inform and empower readers to make lifestyle choices that are healthy for their bodies and minds We are dedicated to providing in depth thoughtful editorial on topics such as yoga food nutrition fitness wellness travel and fashion and beauty *Self, Attitudes, and Emotion Work* Christopher Bradley, 2017-09-08 This book is about how Western social psychology interfaces with an Eastern Zen Buddhist perspective It is neither a purely Zen Buddhist critique of the former nor is it merely a social psychological interpretation of Zen Rather it is an attempt to create common ground between each through the systematic comparison of certain shared fundamental concepts and ideas Anglo American social psychology is not much more than a century old despite having its roots in a broad philosophical tradition Alternately the Zen version of Buddhism can trace its historical origins to roughly 1 500 years ago in China Even though the two arose at different times and at first glance appear stridently antithetical the authors show that they share considerable areas of overlap The logic of Zen contemplates the consequences of the taken for granted tyranny created by personal memories and culture These traits common to every

culture include hubris greed self centeredness distrust prejudice hatred fear anxiety and violence Social psychology leans more toward a nurture rather than nature explanation for behavior Both areas of research are firmly rooted within the domain of sociological social psychology the processes are also sometimes referred to as learning or conditioning Zen challenges in radical terms key assumptions of both sociology and psychology concerning individual identity human nature and human motivation This stimulating volume will provoke new thoughts about an old tradition and a newer area of scholarly work

Seeing, Knowing, Being John Greer, 2012-02-15 From ancient Taoist sages and Sufi mystics to Christian contemplatives and contemporary Zen masters Seeing Knowing Being explores the profound truth behind all the world's mystic traditions Living a spiritual life has nothing to do with fixing ourselves It is simply a matter of awakening to what we already are The real work of self discovery and the answer to our suffering emptiness and loss of meaning is learning to see in a different way The mystical adventure is all in the seeing says John Greer From departure to arrival nothing changes but our eyes But the process isn't that simple In this all embracing work that is destined to become a classic Greer artfully traces the steps and stages of the delicate process of awakening He shows how we can move from society's hand me down version of reality to the wonder of our true nature from conceptual habitual patterns of thinking to knowing the truth by being Like a master artist who captures an image and stirs something deep inside of us Greer also highlights nearly one hundred evocative metaphors as varied and colorful as the sages themselves to kindle your imagination and spark your intuition to shift your perspective and shake you into an awareness that no amount of explanation can What Greer shows with great wisdom and compassion is that when you put aside the map of the mind you can follow the compass of your heart You can move through the details of life going to work raising a family throwing out the garbage and still experience the wonders and oneness of life with deep reverence gratitude and joy Books often describe journeys Seeing Knowing Being actually takes you on one A profound expedition into the true nature of life

The Secret History of Western Sexual Mysticism Arthur Versluis, 2008-03-25 The first book to reveal the history of Western sexual mysticism Reveals the secret sexual practices that have been used since ancient Greece to achieve mystical union with God Details the sects and

individuals who transmitted the radical sexual practices that orthodox Christianity never completely silenced Distinguishes between sexual magic and sexual mysticism Beginning with the ancient Greek Mystery traditions Gnosticism and the practices in early Christianity Arthur Versluis uncovers the secret line of Western sexual mysticism that like the Tantra of the East seeks transcendence or union with God through sexual practices Throughout antiquity and right into the present day sexuality has played an important if largely hidden role in religious traditions and practices This includes not only Christian but also kabbalistic and hermetic alchemical currents of sexual mysticism many discussed together here for the first time In the Mystery tradition of hieros gamos sacred marriage and the Gnostic tradition of spiritual marriage we see the possibility of divine union in which sexual union is the principal sign or symbol Key to these practices is the inner or archetypal union of above and below the intermingling of the revelatory divine world with the mundane earthly one Versluis shows that these secret currents of sexual mysticism helped fuel the rise of the troubadours and their erotic doctrine the esoteric teachings of Jacob Boehme in the late 16th century the 19th century utopian communities of John Humphrey Noyes and Thomas Lake Harris the free love movement of the 20th century and the modern writings of Denis de Rougemont and Alan Watts

memoir Olivia Ames Hoblitzelle describes how her husband's Alzheimer's diagnosis at the age of seventy-two challenged them to live the spiritual teachings they had embraced during the course of their life together. Following a midlife career shift, Harrison Hoblitzelle, or Hob as he was called, a former professor of comparative literature at Barnard, Columbia, and Brandeis University, became a family therapist and was ordained a Dharmacharya, senior teacher, by Thich Nhat Hanh. Hob comes to life in these pages as an incredibly funny and brilliant man who never stopped enjoying a good philosophical conversation, even as his mind quite literally slipped away from him. And yet, when they first heard the diagnosis, Olivia and Hob's initial reaction was to cling desperately to the life they had had. But everything had changed, and they knew that the only answer was to greet this last phase of Hob's life consciously and lovingly. *Ten Thousand Joys, Ten Thousand Sorrows* provides a wise and compassionate vision for maintaining hope and grace in the face of life's greatest challenges. This memoir was originally self-published as *The Majesty of Your Loving*. [The Mother of All Webs Who Gotcha!](#) Gyeorgos C. Hatonn, 1992

Fittingness and Environmental Ethics Michael S. Northcott, Steven C. van den Heuvel, 2023-02-24. This volume focuses on fittingness as an ethical-aesthetical idea and in particular examines how the concept is beneficial for environmental ethics. It brings together an innovative set of contributions to argue that fittingness is a significant but under-investigated facet of human ethical deliberation with both ethical and aesthetic dimensions. In widely diverse matters, from architecture to table manners, individuals and communities make decisions based on fittingness, also expressed in related terms such as appropriateness, prudence, temperance, and mutuality. In the realm of environmental ethics, fittingness denotes a relation between conscious embodied persons and their habitats and is of relevance to judgements about how humans shape and take up with the non-human environment and hence to ethical decisions about the development and use of the environment and non-human creatures. As such, fittingness can be of great benefit in reframing human relationships to the non-human, stimulating a way of living in the world that is fitting to the preservation of its fruitfulness, goodness, beauty, and truth.
