(Chapter 1) (The French Revolution)
(India and the Contemporary World-I)

Question 6:

How would you explain the rise of Napoleon?

Answer 6:

After France became a republic in 1792, the then ruler, Robespierre, gave more privileges to the wealthier section of society. Further, he was a sort of autocrat himself. This led to reign of terror for the following many years. After Robespierre's rule came to an end a directory was formed to avoid concentration of power in one individual. Members of the directory often fought among themselves leading to total chaos and political instability. This created a political vacuum in France. This was a conducive situation and Napoleon Bonaparte took the reign of power as a military dictator.
