The Anglophone Question and Postcolonial Hegemony in Cameroon Vol 2 Lyombe Eko,2025-03-12 The Anglophone Question Postcolonial Hegemony in Cameroon The Past that Did Not Pass is a comprehensive collection of essays and analyses that explore the historical colonial postcolonial legal and international relations aspects of the politico cultural and linguistic crisis between the English speaking former British Southern Cameroons now divided into the Northwest and Southwest regions and the French speaking majority of the former French Cameroon la R publique du Cameroun This conflict has shaken Cameroon to its core since the 1990s and led to an armed conflict between the government of Cameroon and Anglophone non state armed groups The premise of this book is that the Anglophone Question the problematic situation of the muted English and Pidgin speaking minority in French Cameroon is one of the unfinished items of business of World War I and the Treaty of Versailles of 1919 that resolved the conflicts of that great conflict The Anglophone conflict has been exacerbated by the authoritarian republican chieftaincy that was installed in Cameroon after independence and reunification This neo patrimonial kleptocratic regime of Cameroon has with the support of its international partners emphasized the argument of force rather than the force of argument thereby creating yet another frozen African conflict

Nationalism, Referendums and Democracy Matt Qvortrup,2016-04-08 Democracy is above all about majority rule But which majority should rule if a part of a country wants to secede and become independent Should the majority of the whole country decide Or only the majority in the part that seeks to become independent be allowed to vote Referendums and democracy have often been perceived to be almost incompatible with nationalism and ethnicity Are they Are there limits to democracy and the use of referendums This book looks at these issues through a comprehensive study of the referendums held on ethnic and nationalist issues since the French Revolution It analyses the pros and cons of

Delancey, Rebecca Neh Mbuh, 2019-06-15 Cameroon is a land of much promise but a land of unfulfilled promises It has the potential to be an economically developed and democratic society but the struggle to live up to its potential has not gone well Since independence there have been only two presidents of Cameroon the current one has been in office since 1982 Endowed with a variety of climates and agricultural environments numerous minerals and substantial forests and a dynamic population this is a country that should be a leader of Africa Instead we find a country almost paralyzed by corruption and poor management a country with a low life expectancy and serious health problems and a country from which the most talented and highly educated members of the population are emigrating in large numbers To all of this is recently added a serious terrorism problem Boko Haram in the north a separatist movement in the Anglophone west refugee influxes in the north and east and bandits from the Central African Republic attacking eastern villages This fifth edition of Historical Dictionary of the Republic of Cameroon contains a chronology an introduction and an extensive bibliography The dictionary section has over 300 cross referenced entries on important personalities politics economy foreign relations religion and culture This book is an excellent resource for students researchers and anyone wanting to know more about the Republic of Cameroon *Military Marxism* Adam Mayer, 2024-12-16 Adam Mayer s *Military Marxism Africa s Contribution to Revolutionary Theory 1957 2023* explores African Marxist theory and the intellectual merits of Afro Marxist schools of thought to show how they have developed and impacted sub Saharan Africa from the Cold War to the present He also discusses the efficacy of the movements influenced by Marxism and how they are contested today Through in depth research Mayer answers the following questions Who were the African Marxist intellectuals What happened to these intellectuals in the 1990s in NGO administered deindustrialized Africa How are these theories inspiring popular rebellions and radical anti Western military coups today This book explores how Military Marxism through its own rich and variegated African theory has continued to inform and guide the practice of various political movements today **TRIUMPH OF RACISM** Emmanuel Neba-Fuh, 2021-04-05 Emmanuel Neba Fuh in this comprehensive chronological compilation and thorough narrative of the history of white supremacy in Africa provide an unflinching fresh case that African poverty a central tenet of the shithole demonization is not a natural feature of geography or a consequence of culture but a direct product of imperial extraction from the continent a practice that continues into the present A brutal and nefarious tale of slave trade genocides massacres dictators supported progressive leaders murdered weapon smuggling cloak and dagger secret services corruption international conspiracy and spectacular military operations he raised the most basic and fundamental question how was Africa the world s richest continent raped and reduced to what Donald J Trump called shithole By V Mbanwie *The*

Reunification Debate in British Southern Cameroons Joseph Nfi Lon, 2024-11-29 This book is a succinct account of the role immigrants from French Cameroon played in the Reunification politics in the Southern Cameroons. The study reveals that these strangers organised themselves in Pressure Groups in order to fight for equal opportunities with the indigenes and when such opportunities were not coming they initiated the Reunification Idea, propagated it and converted many reluctant Southern Cameroonians. They militated in pro reunification political parties such as the KNC, KNDP, UPC and OK and successfully shifted the reunification idea from the periphery to the centre of Southern Cameroons decolonisation politics. The immigrants convinced the UN through petitions and reunification which was the most unpopular option for independence became one of the two alternatives at the 1961 plebiscite. They and the reluctant KNDP campaigned and voted for it. The Reunification of Cameroon was therefore the handiwork of French Cameroon immigrants.

God the Politician Peterkins Manyong, 2008-05-15 *God the Politician* is a compelling analytical, critical, informed and largely eyewitness account of the major events that have taken place in Cameroon since the return of multiparty politics in the 1990s. The accession of Paul Biya to power under the one party regime in 1982 and the attempt to overthrow him in a coup d'état in 1984 are told in flashback, so are the excesses of power without responsibility that have come to be associated with over 25 years of Biya as President. Most of the story is centred on the struggle by the opposition led by the Social Democratic Front (SDF) to overthrow the incumbent. In his determination to crush opposition, President Biya and his collaborators have sometimes used intrigue but mostly force and callous indifference to basic human rights and to democracy. Bloodshed has often been the result of the regime's titanic struggles against freedoms. President Paul Biya is not in a hurry to go and so instead of democratizing Cameroon he has chosen to Cameroonize democracy, turning electoral fraud into an art. Because of massive fraud during elections and the inability of the opposition to unite, political party leaders have decided to join him, who they cannot beat. The book is an x-ray of a regime and the Frankenstein monsters it has created and sustained to thwart democracy. It exposes the corruption, electoral fraud, human rights abuse and cynicism that make politicians believe they can play God in the lives of Cameroonians.

White Malice Susan Williams, 2021-08-10 A revelatory history of how postcolonial African Independence movements were systematically undermined by one nation above all the US. In 1958 in Accra, Ghana, the Hands Off Africa conference brought together the leading figures of African independence in a public show of political strength and purpose. The charismatic Kwame Nkrumah, who had just won Ghana's independence, led a determined appeal for Pan Africanism. Young idealistic leaders across the continent as well as African Americans seeking civil rights at home heeded his call. Yet a moment that signified a new era of African freedom simultaneously marked a new era of foreign intervention and control. In *White Malice*, Susan Williams unearths the CIA's covert operations from Ghana to the Congo to the UN, which frustrated the attempts of Africa's new generation of nationalist leaders to establish democratic governance. These revelations dramatically upend the conventional wisdom that African nations failed to establish effective democratic states on their own accord. As the

old European powers moved out the US moved in Drawing on original research and recently declassified documents Williams introduces readers to idealistic African leaders and to the secret agents ambassadors and even presidents who deliberately worked against them forever altering the future of a continent Africa's Media, Democracy and the Politics of Belonging Francis B. Nyamnjoh, 2005-05 An overview of the press and mass media in Africa today and their contribution to democratization

Education of the Deprived A. Ambanasom, 2010-07-01 Education of the Deprived is a perceptive socio artistic examination of the key works of some major writers of Anglophone Cameroon literary drama today For over two decades now socio political developments in Cameroon including the liberalization of the press have led to an unprecedented proliferation of political journalistic and imaginative writings Availing themselves of their new found freedom of expression Cameroonians in general are forcefully articulating their views more than even before and creative writers in particular are artistically recording intimate and painful experiences in the on going endeavour to make sense of the socio political environment they are mapping out through images and symbols the peculiar contour of the collective Cameroonian soul What observers have noticed with regard to Anglophone Cameroon imaginative writing however is that there are few significant critical works to match the burgeoning creative literature While in the 1970s there was a cry concerning the scarcity of imaginative works by Anglophone Cameroonians the complaint now at the turn of the 21st century is that there is a dearth of critical literature capable of catapulting on to the international literary scene the Anglophone Cameroon literature being written This book covers both traditional and modern drama as written by Anglophones lays bare the technical differences between the two dramatic traditions and brings out the central themes developed by these committed dramatists

Situating Globality Wim van Binsbergen, Rijk van Dijk, 2004-03-01 Situating Globality challenges the dominant view that globalization is a primary threat to African societies and economies It explores how these societies are appropriating

elements of the emerging global culture arguing the significance of this appropriation in local struggles the expression of critical thinking ideologies and ritual styles of behaviour Combining an interest for micro level processes of situating the multifaceted process of globality with the exploration of reflexivity creativity and the production of knowledge Situating Globality straddles the divide between anthropological and philosophical representations of Africa in the new world order The first section examines philosophical issues relating to the production of knowledge in and about Africa from a globalizing perspective while the other sections include case studies showing how these processes are accommodated in everyday life

Snapshots: An X-ray of Cameroons Democracy, Governance and Unification Sam-Nuvala Fonkem, 2014-01-20 In the 1960s and 1970s Third World governments prescribed and imposed a certain kind of journalism variously called objective journalism or development journalism They understood this as journalism restricted to reporting facts as dished out by their propagandists and did not tolerate the questioning of government policy By development journalism they meant the mere reporting of government efforts to provide services amenities and infrastructures and the singing of praises anytime a bridge was inaugurated irrespective of whether it was well built or whether the contract to build was awarded according to the norms of transparency and probity This one sided journalism was prevalent especially in state owned media and media practitioners in the few private news publications that existed who did not toe the line were subjected to constant harassment and incarceration However with the coming of well trained journalism graduates into the scene in the 1970s and the advent of global liberalization in the late 1980s and 1990s daring journalists like Sam Nuvala Fonkem thought it was time to take the bull by the horn and start taking a more critical look at government pronouncements matching policy statements with real action in the field in short moving from objective journalism to interpretative and investigative journalism This collection of Sam Nuvala Fongkems writings is a sampling of the fruit of that new spirit to dare where angels hitherto feared to tread to hold public officials to account and to expose the falsehood cached behind the political masquerade of the ruling class

Pan-Africanism: Political Philosophy and Socio-Economic Anthropology for African Liberation and Governance Kini-Yen Kinni, 2015-09-23 This Book is the outcome of a long project begun thirty years ago It is a book on the makings of pan Africanism through the predicaments of being black in a world dominated by being white The book is a tribute and celebration of the efforts of the African American and African Caribbean Diaspora who took the initiative and the audacity to fight and liberate themselves from the shackles of slavery It is also a celebration of those Africans who in their own way carried the torch of inspiration and resilience to save and reconstruct the Free Humanism of Africa As a story of the rise from the shackles of slavery and poverty to the summit of Victors of their Renaissance Identity and Self Determination as a People the book is the story of African refusal to celebrate victimhood The book also situates women as central actors in the Pan African project which is often presented as an exclusively masculine endeavour It introduces a balanced gender approach and diagnosis of the Women actors of Pan Africanism which was very much lacking The problem of balkanisation of Africa on

post colonial affiliations and colonial linguistic lines has taken its toll on Africa's building of its common identity and personality. The result is that Africans are more remote to each other in their pigeon hole nation states which put more restrictions for African inter mobility coupled by education and cultural affiliations the communication and transportation and trading networks which are still tied more to their colonial masters than among themselves. This book looks into the problem of the new wave of Pan Africanism and what strategies that can be proposed for a more participatory Pan Africanism inspired by the everyday realities of African masses at home and in the diaspora. This book is the first book of its kind that gives a comprehensive and multidimensional coverage of Pan Africanism. It is a very timely and vital compendium.
