Revisiting Modernism Maria-Ana Tupan , By shifting the centre of gravity from author to reader Roland Barthes had certainly prepared us for a Copernican turn in aesthetics yet Michael J Pearce s *Art in the Age of Emergence* still sounds unfamiliar two years after its publication While acknowledging the existence of homologies among the art objects of a cultural phase the Californian academic also launches an explanatory hypothesis I realized that in order to understand art instead of looking for the similarities between the paintings and the sculptures we have to look at the similarities between the people looking at them Art is better explained by looking at how the mind works than by looking at the products of mind XV The substitution of the phenomenology of mind for the phenomenology of the work of art can only have a partial contribution to the understanding of period terms yet not devoid of relevance The numerous studies in modernism published of late for instance are revisionary the changing views being motivated by the new historical context rather than by a new assessment of forms The mind turns out to be working according to the critical theory it has been exposed to or which it has freely embraced Relegated to the status of socio political movement without aesthetic significance since 1939 when Clement Greenberg associated it with kitsch to Renato Poggioli Peter Bürger or Christopher Butler Early Modernism Literature Music and Painting in Europe 1900 1916 1994 the avant garde came to be enshrined as the weightiest artistic phenomenon and the last post of modernism by Richard Sheppard in *Modernism Dada Postmodernism* 2000 who joined thus a new party of postmodern critics among whom Linda Hutcheon who see the historical avant garde as the generative matrix of the post war literature in the 50s and the 60s stretching the term to include the French nouveau roman or the *Tel Quel* Quoted by Sheppard on Marx s Communist Manifesto being the first great modernist work of art Marshall Berman *All That Is Solid Melts into Air* 1982 too welcomes modernism into the sixties and seventies Titles such as *Avant Garde* and *After Rethinking*

Art Now by Brandon Taylor have tilted the scales measuring modernism against the avant garde into a more balanced position even if also the leads of the earlier twentieth century have been the object of New Historicist and culturalist approaches that corrected the Axel Castle icon of egocentric aloofness through readings that evinced the substantial presence of history in the writings of Woolf Joyce or D H Lawrence With interdisciplinarity the latest buzz word in the academic world lots of studies have been dedicated to the influence of Non Euclidian Geometry relativity and quantum physics on modernist art for instance Surrealism Art and Modern Science Relativity Quantum Mechanics Epistemology by Gavin Parkinson 2008 The most spectacular renovation has probably been undergone by no other than Charles Baudelaire the founding father who has been removed from his site with transcendent flavours and symbolic correspondences and inserted into the phantasmagoric pre cinematic media world Marit Grotta Baudelaire s Media Aesthetics The Gaze of the Fl neur and 19 th Century Media If we travel back in time to get a feeling of what modernists saw in each other and compare their vision with such contemporary framing we realize to what extent the history of reception modifies the history of composition Mina Loy s ekphrasis of sculptor Brancusi s Golden Bird for instance conveys the modernist artist s infatuation with archetypes tropes of immaculate conception breast of revelation or hyperaesthesia the alchemy whereby the senses projected a secondary reality of mixed perceptions Is there a possibility to negotiate meanings when talking to the dead as Stephen Greenblatt has put it in the opening of Shakespearean Negotiations Used also by Ayendy Bonifacio in his essay on Hart Crane interliterariness is a middle European term for what Russian semioticians or French and American social critics or American New Historicists had already attempted to achieve an archeology of meaning a history and a philosophy of culture that help the visitor of past ages assess meaning and value The more elements of a culture s codes are absorbed into an art object the more representative and valuable is its testimony in the history of the spirit Understanding such serious and heavy codes as Pound dubbed them takes longer studies of a work s genealogy bringing it to light in all its complexity The history of literature is replete with such novas Irish Flann O Brien whose works are an ark of his time s literary aesthetic scientific or political ideas is the revelation of the last decade emerging almost out of anonymity thanks to systematic research initiated by a team coordinated by Professor Werner Huber from the University of Vienna Whether the Virgilian guide be New Historicist Greenblatt or as suggested by Professor Sachin C Ketkar in his essay Lotman s semiotics or Dionyz Durisin s study of the discursive exchanges of semantic energy across national boundaries it becomes possible for instance to read Mardhekar in the context of the international modernist movements and in light of interliterary genetic contactual relations instead of the idea of influence which invariably brings in normative hierarchy between the influencer and the influenced placing the latter on a lower or secondary position In the beginning building international communities was indeed a matter of hierarchies of power Japan or China were forced to open their harbours to international trade coming out of their ancestral isolation while the Macaulay law forced Indians into chimeric native bodies and English minds Merchants

or colonizers however opened the way to enlightened politicians scientists or artists In his History of Romanian Civilization Eugen Lovinescu critic and editor of the earlier twentieth century distinguishes between evolutionary and revolutionary models of culture The major cultures know a continuous and organic growth whereas minor ones lured by centres of influence break off abruptly from their traditions borrowing foreign models That is why it is easy to date period terms in the latter whereas the former have very discreet lines of demarcation Ezra Pound's manifesto of imagism for instance is heavily indebted to Alfred Binet's model of reasoning through associations of images instead of syllogisms but ahead of Binet there was Herbart and before Herbart Kant who had borrowed ideas for his Anthropology from David Hume It is again the constitution of homologies across disciplinary spheres and reciprocal loans that allow an observer to identify a territorialization as Deleuze calls it that is a distinct type of culture Politically speaking modernism begins with Baudelaire's declaration of war on the bourgeois *Vous êtes la majorité nombre et intelligence donc vous êtes la force qui est la justice* You are the majority in number and intelligence therefore you are the force which is justice Salon de 1846 With its nomination of the working class as being entitled to lead the other social classes which they did when they had the chance Marx's Capital meant even less democracy than the bourgeois republic The modernist political discourse was one of individualism and human rights built on Jefferson's model It is this fascinating rebel against hypocritical social conventions that still appeals to the nonconformist youth cultures Shweta Basu undertaking a study in the translation of Flowers of Evil across cultures and media in a Japanese manga series Modernism saw the collapse of dynasties and the foundation of international leagues of nations enjoying equal rights or of clubs of the intellectual elites of all nations PEN CLUB E M Forster was writing in 1938 I believe in aristocracy Not an aristocracy of power based upon rank and influence but an aristocracy of the sensitive the considerate and the plucky Under the circumstances of huge differences in point of civilization Bipin Balachandran mentions the case of Poland and other middle and East European countries but capitalizing on the widely circulated narrative of the superiority of culture over civilization which was considered to be rapidly changing into a soulless machinery individual contacts of scholars or artists contributed to the emergence of a truly international spirit and a cosmopolitan culture By contrast the eighteenth century had thrived on models of justified hierarchies the best of all possible worlds colonizing missions histories of empires to learn from them the rise to international power The systematic oppositions we can establish between the Enlightenment and modernism prevent us from merging them into a singular modernity Frederic Jameson The culture of modernism is a hybrid one with metropolitan cultures fascinated by the new nations they were put in contact with open to the foreigners who sought them out to study or pursue a career Japanese art was studied and imitated while the interest in India aroused by the discovery of the common origin of Indo European languages by Schopenhauer's philosophy or by Madame Blavatsky's esoteric pursuits emulated by the British and the Americans alike reached such proportions that references to India almost became a sign of recognition Even quantum physics pioneers Heisenberg and Schrödinger owned a

debt to Hindu mythology and the Indian logic of the included third Naturally possessed of this mindset physicist Satyendra Nath Bose initiated calculations of a new state of condensed matter where atoms lose their identity reaching the peace of a frozen quantum state of superimposed waves The experiment is known as the Bose Einstein condensate A very fashionable topic of research nowadays the search for native forms of modernism outside the centrality of Paris London or New York is usually successful Paraphrasing scratch a national culture and you will find traces of modernism It was not difficult for Rindon Kundu and Saswati Saha to spot out a Wagner in Latin America in the person of Rub n Dar o and even an aesthetic contest between him and Enrique Gonz lez Mart nez similar to the Wyndham Lewis Marinetti duel in Europe For T S Eliot India was a myth of origin from The Love Song of Alfred Prufrock to The Waste Land As he confessed in a speech in memory of Rudyard Kipling the former was inspired by The Love Song of Har Dyal Eliot s protagonist is spiritually impoverished frustrated by lack not of love affairs but of strong feelings like those that give lovers the courage to risk their lives in the Indian story Anindita Mukherjee chooses another contextualization out of many possible as is the case with the erudite modernists and that is Rilke s thoughts on love disclosed to a young poet who had asked him for advice In that letter Rilke says that dragons are but princesses who want to see their lovers courageous Prufrock is acutely aware of his inferiority in relation to bright cultivated women who comment on his weakness while the imagery surrounding them suggests the strength of warrior women And I have known the arms already known them all Arms that are braceleted The essayist notices though the redemption of the protagonist his final capacity to dismiss his daily routine as rubbish and reach for transcendence Sumi Bora looks into textual traces of the relationship between the poet and his rhetorical masks interrogating the status of the authorial figure and biography in the modernist text The web of mythic allusions in The Waste Land is a familiar feature of the modernist agenda to seek reality and justice in a single vision Yeats Nisarga Bhattacharjee and Ananya Chatterjee write on the modernists use of myth as part of the mythopoetic tradition blooming into extended metaphors of life or of the human condition while Susan Haris is plumbing into the symbolism of unconscious drives and identification with elementary nature in D H Lawrence s personal version of psychoanalysis The figural psyche of modernist fiction and the gendered landscape of female isolation is Lava Asaad s focus on the early modernist career of Jean Rhys better known for her postcolonial rewriting of Jane Eyre Is there an aesthetic continuity between the historical avant garde and the Beat Generation or the abstract expressionism in the 50s and 60s Allen Ginsberg John Ashbery or Lawrence Ferlinghetti engage often in dialogue with precedent canonical texts their intertexts sinning on the side of courteous attitudes to tradition which does not fit into the context of Marinetti s dismissal of libraries academies and museums The Futurist Manifesto Abstract art is obviously something different from found objects while in critical theory the fifties and the sixties saw the rise of semiotics psychoanalysis deconstruction feminism that is of the very practice of interdisciplinarity in literary criticism something at the other pole from New Criticism and other formalisms in which ended up structuralism

Although not irrelevant in point of aesthetic achievement Ayendy Bonifacio writing persuasively on Hart Crane's constructivist rhetoric the avant garde is still perceived as a self standing chapter in the cultural history of modernism The exchange of cultural narratives and traditions fostered by historical circumstances but also by Worringer's aesthetics that praised primitive art for its tendencies towards abstraction in flight from a threatening and alien nature that could provide a spiritual cure to a materialistic civilization was defining for the poetics of art at the turn of the last century Modernism was humanity's first coming together "We Met in Paris" Joan E Howard,2018-05-31 Grace Frick introduced English language readers all over the world to the distinguished French author Marguerite Yourcenar with her award winning translation of Yourcenar's novel *Memoirs of Hadrian* in 1954 European biographies of Yourcenar have often disparaged Frick and her relationship with Yourcenar however This work shows Frick as a person of substance in her own right and paints a portrait of both women that is at once intimate and scrupulously documented It contains a great deal of new information that will disrupt long held beliefs about Yourcenar and may even shock some of her scholars and fans *Dramaturgy and Dramatic Character* William Storm,2016-03-17 William Storm delivers a wide ranging investigation of character in drama from ancient beginnings to the present day **Surreal Beckett** Alan Warren Friedman,2017-08-15 Surreal Beckett situates Beckett's writings within the context of James Joyce and Surrealism distinguishing ways in which Beckett forged his own unique path sometimes in accord with sometimes at odds with these two powerful predecessors Beckett was so deeply enmeshed in Joyce's circle during his early Paris days 1928 late 1930s that James Knowlson dubbed them his Joyce years But Surrealism and Surrealists rivaled Joyce for Beckett's early and continuing attention if not affection so that Raymond Federman called 1929-45 Beckett's surrealist period Considering both claims this volume delves deeper into each argument by obscuring the boundaries between these differentiating studies These received wisdoms largely maintain that Beckett's Joycean connection and influence developed a negative impact in his early works and that Beckett only found his voice when he broke the connection after Joyce's death Beckett came to accept his own inner darkness as his subject matter writing in French and using a first person narrative voice in his fiction and competing personal voices in his plays Critics have mainly viewed Beckett's Surrealist connections as roughly co terminus with Joycean ones and ultimately of little enduring consequence Surreal Beckett argues that both early influences went much deeper for Beckett as he made his own unique way forward transforming them particularly Surrealist ones into resources that he drew upon his entire career Ultimately Beckett endowed his characters with resources sufficient to transcend limitations their surreal circumstances imposed upon them Masculine Domination in Henry James's Novels Wibke Schniedermann,2020-07-20 This book proposes a new interdisciplinary approach to the gendered power relations in James's novels Reading James's narrative form through the lens of relational sociology specifically Pierre Bourdieu's concept of symbolic domination reconciles some of the most fiercely disputed positions in James studies of the past decades The close readings focus on three novels *The Portrait of a Lady* *The*

Wings of the Dove and The Golden Bowl providing a systematic relational analysis into the specifically Jamesian method of narrating the socio psychological embodied responses to masculine power and oppression James persistently narrates his characters as social agents whose perception affects and bodily practices are products of the social structures that they in turn continue to shape and reproduce The chapters trace a development throughout James s career that reflects a growing sensitivity for the concealment and attendant misrecognition of gendered domination Author Beowulf

celebrated the figure of the self made man and the idea of establishing selfhood particularly male selfhood in nature However during the crisis of masculinity that swept across America in the middle of the twentieth century a generation of writers started exploring a different kind of a man This was a figure who was concerned not so much with the loss of the West or the desire to recover a wilderness but with how to live in an ordinary domesticated continent Masculinity and Place in American Literature since 1950 explores the role of place in negotiating reinforcing and subverting articulations of hegemonic masculinity in the work of four American writers from the latter part of the 20th century John Cheever John Updike Raymond Carver and Richard Ford The book argues that American fiction by white male writers between the 1950s and the present day is compelled by the troubled and troubling relationship between masculinity and place This relationship is deeply embedded in how ideals of masculinity are predicated upon the experience of the physical world and how the symbolic logic of masculinity is continually subverted by alternative conceptions of dwelling and ecological consciousness **The Theatre**
