**How New York Became American, 1890-1924** Art M. Blake, 2020-04-14 Originally published in 2006 For many Americans at the turn of the twentieth century and into the 1920s the city of New York conjured dark images of crime poverty and the desperation of crowded immigrants In *How New York Became American 1890 1924* Art M Blake explores how advertising professionals and savvy business leaders reinvented the city creating a brand image of New York that capitalized on the trend toward pleasure travel Blake examines the ways in which these early boosters built on the attention drawn to the city and its exotic populations to craft an image of New York City as America writ urban a place where the arts flourished diverse peoples lived together boisterously but peacefully and where one could enjoy a visit Drawing on a wide range of textual and visual primary sources Blake guides the reader through New York's many civic identities from the first generation of New York skyscrapers and their role in Americanizing the city to the promotion of Midtown as the city's definitive public face His study ranges from the late 1890s into the early twentieth century when the United States suddenly emerged as an imperial power and the nation's industry commerce and culture stood poised to challenge Europe's global dominance New York the nation's largest city became the de facto capital of American culture Social reformers and tourism boosters keen to see America's cities rival those of France or Britain jockeyed for financial and popular support Blake weaves a compelling story of a city's struggle for metropolitan and national status and its place in the national imagination

[Empire of Water](#) David Soll, 2013-03-26 Supplying water to millions is not simply an engineering and logistical challenge As David Soll

shows in his finely observed history of the nation's largest municipal water system the task of providing water to New Yorkers transformed the natural and built environment of the city its suburbs and distant rural watersheds Almost as soon as New York City completed its first municipal water system in 1842 it began to expand the network eventually reaching far into the Catskill Mountains more than one hundred miles from the city Empire of Water explores the history of New York City's water system from the late nineteenth century to the early twenty first century focusing on the geographical environmental and political repercussions of the city's search for more water Soll vividly recounts the profound environmental implications for both city and countryside Some of the region's most prominent landmarks such as the High Bridge across the Harlem River Central Park's Great Lawn and the Ashokan Reservoir in Ulster County have their origins in the city's water system By tracing the evolution of the city's water conservation efforts and watershed management regime Soll reveals the tremendous shifts in environmental practices and consciousness that occurred during the twentieth century Few episodes better capture the long standing upstate downstate divide in New York than the story of how mountain water came to flow from spigots in Brooklyn and Manhattan Soll concludes by focusing on the landmark watershed protection agreement signed in 1997 between the city watershed residents environmental organizations and the state and federal governments After decades of rancor between the city and Catskill residents the two sides set aside their differences to forge a new model of environmental stewardship His account of this unlikely environmental success story offers a behind the scenes perspective on the nation's most ambitious and wide ranging watershed protection program

hotel has defined our understanding of money and glamour from the Gilded Age to the Go Go Eighties to today's Billionaire Row. From the moment in 1907 when New York millionaire Alfred Gwynne Vanderbilt strode through the Plaza Hotel's revolving doors to become its first guest to the afternoon in 2007 when a mysterious Russian oligarch paid a record price for the hotel's largest penthouse, the eighteen-story white marble edifice at the corner of Fifth Avenue and 59th Street has radiated wealth and luxury. For some, the hotel evokes images of F. Scott Fitzgerald frolicking in the Pulitzer Fountain or Eloise, the impish young guest who pours water down the mail chute. But the true stories captured in *THE PLAZA* also include dark hidden secrets: the cold-blooded murder perpetrated by the construction workers in charge of building the hotel; how Donald J. Trump came to be the only owner to ever bankrupt the Plaza; and the tale of the disgraced Indian tycoon who ran the hotel from a maximum security prison cell 7,000 miles away in Delhi. In this definitive history, award-winning journalist Julie Satow not only pulls back the curtain on Truman Capote's *Black and White Ball* and The Beatles' first stateside visit; she also follows the money trail. *THE PLAZA* reveals how a handful of rich dowager widows were the financial lifeline that saved the hotel during the Great Depression and how today foreign money and anonymous shell companies have transformed iconic guest rooms into condominiums that shield ill-gotten gains, hollowing out parts of the hotel as well as the city around it. *THE PLAZA* is the account of one vaunted New York City address that has become synonymous with wealth and scandal, opportunity and tragedy. With glamour on the surface and strife behind the scenes, it is the story of how one hotel became a mirror reflecting New York's place at the center of the country's cultural narrative for over a century.

*The Letters of William Carlos Williams to Edgar Irving Williams, 1902-1912* William Carlos Williams, 2009. From 1902 to 1912, William Carlos Williams wrote more than 300 letters to his younger brother Edgar, an architect with whom he shared the desire to become a great artist. This collection of 200 letters sheds light on the aesthetic thoughts and practices with which Williams was engaged before his unique voice emerged in *The Wanderer*.

**Early Wall Street: 1830-1940** Jay Hoster, 2014. *Early Wall Street: 1830-1940* traces the development of New York's financial district from the low-lying city of the early 19th century through the building boom of the 1870s and 1880s and into the skyscraper era. A sequence of views shows 40 Wall Street as a modest three-story walk-up topped by a figure from Greek mythology; then the stately Victorian structure that replaced it; and finally the skyscraper that missed being the tallest building in the world by a spire's length. A rare 1860s photograph captures the first New York Stock Exchange building when the marble on the exterior was still pristine. In these images, Wall Street celebrates and Wall Street mourns. Stagecoaches clog Broadway; clipper ships dock at East River piers; and elevated trains chug through the financial district.
