Xiaorong Li, 2013-05-03 This study of poetry by women in late imperial China examines the metamorphosis of the trope of the inner chambers *gui* to which women were confined in traditional Chinese households and which in literature were both a real and an imaginary place Originally popularized in sixth century palace style poetry the inner chambers were used by male writers as a setting in which to celebrate female beauty to lament the loneliness of abandoned women and by extension to serve as a political allegory for the exile of loyal and upright male ministers spurned by the imperial court Female writers of lyric poetry *ci* soon adopted the theme beginning its transition from male fantasy to multidimensional representation of women and their place in society and eventually its manifestation in other poetic genres as well Emerging from the role of sexual objects within poetry late imperial women were agents of literary change in their expansion and complication of the boudoir theme While some take ownership and de eroticizing its imagery for their own purposes adding voices of children and older women and filling the inner chambers with purposeful activity such as conversation teaching religious ritual music sewing childcare and chess playing some simply want to escape from their confinement and protest gender restrictions imposed on women *Women's Poetry of Late Imperial China* traces this evolution across centuries providing and analyzing examples of poetic themes motifs and imagery associated with the inner chambers and demonstrating the complication and nuancing of the *gui* theme by increasingly aware and sophisticated women writers **The Cambridge History of Chinese Literature**

HARVEY HEATHER ARDEN KAREN JAMBECK JULIA BOFFEY JENNIFER SUMMIT MARGARITA STOCKER      **How to Read Chinese Poetry in Context** Zong-qi Cai, 2018-02-20 How to Read Chinese Poetry in Context is an introduction to the golden age of Chinese poetry spanning the earliest times through the Tang dynasty 618-907. It aims to break down barriers between language and culture, poetry and history that have stood in the way of teaching and learning Chinese poetry. Not only a primer in early Chinese poetry, the volume demonstrates the unique and central role of poetry in the making of Chinese culture. Each chapter focuses on a specific theme to show the interplay between poetry and the world. Readers discover the key role that poetry played in Chinese diplomacy, court politics, empire building, and institutionalized learning, as well as how poems shed light on gender and women's status, war and knight errantry, Daoist and Buddhist traditions, and more. The chapters also show how people of different social classes used poetry as a means of gaining entry into officialdom, creating self-identity, fostering friendship, and airing grievances. The volume includes historical vignettes and anecdotes that contextualize individual poems, investigating how some featured texts subvert and challenge the grand narratives of Chinese history. Presenting poems in Chinese along with English translations and commentary, How to Read Chinese Poetry in Context unites teaching poetry with the social circumstances surrounding its creation, making it a pioneering and versatile text for the study of Chinese language, literature, history, and culture.

**The Organization of Distance** Lucas Klein, 2018-07-17 What makes a Chinese poem Chinese? Some call modern Chinese poetry insufficiently Chinese, saying it is so influenced by foreign texts that it has lost the essence of Chinese culture as known in premodern poetry. Yet that argument overlooks how premodern regulated verse was itself created in imitation of foreign poetics. Looking at Bian Zhilin and Yang Lian in the twentieth century alongside medieval Chinese poets such as Wang Wei, Du Fu, and Li Shangyin, The Organization of Distance applies the notions of foreignization and nativization to Chinese poetry to argue that the impression of poetic Chineseness has long been a product of translation from forces both abroad and in the past.

**Tamkang Review**, 2002 A quarterly of comparative studies of Chinese and foreign literatures.

**A Century of British Medieval Studies** Alan Deyermond, 2007-11-29 This is an authoritative guide to the full range of medieval scholarship undertaken in twentieth-century Britain: history, archaeology, language, culture. Some of the twenty-nine essays focus on changes in research method or on the achievements of individual scholars; others are personal accounts of a lifetime's work.
