**Natural Rights and the New Republicanism** Michael Zuckert, 2011-06-27 In Natural Rights and the New Republicanism Michael Zuckert proposes a new view of the political philosophy that lay behind the founding of the United States In a book that will interest political scientists historians and philosophers Zuckert looks at the Whig or opposition tradition as it developed in England He argues that there were in fact three opposition traditions Protestant Grotian and Lockean Before the English Civil War the opposition was inspired by the effort to find the one true Protestant politics an effort that was seen to be a failure by the end of the Interregnum period The Restoration saw the emergence of the Whigs who sought a way to ground politics free from the sectarian theological scriptural conflicts of the previous period The Whigs were particularly influenced by the Dutch natural law philosopher Hugo Grotius However as Zuckert shows by the mid eighteenth century John Locke had replaced Grotius as the philosopher of the Whigs Zuckert's analysis concludes with a penetrating examination of John Trenchard and Thomas Gordon the English Cato who he argues brought together Lockean political philosophy and pre-existing Whig political science into a new and powerful synthesis Although it has been misleadingly presented as a separate classical republican tradition in recent scholarly discussions it is this new republicanism that served as the philosophical point of departure for the founders of the American republic
