Navaho Weaving Its Technic And History Charles Avery Amsden:

Navaho Weaving Charles Avery Amsden, 2013-01-17 First in depth study of the technical aspects of Navaho weaving plus history of the loom and its prototypes in the prehistoric Southwest analysis and description of weaves dyes and more Over 230 illustrations **Announcing the Publication on November 15, 1933 of Navajo Weaving, Its Technic [sic] and History by Charles Avery Amsden with a Foreword by Frederick Webb Hodge... ,193? Swept Under the Rug** Kathy M'Closkey, 2002 Debunks the romanticist stereotyping of Navajo weavers and Reservation traders and situates weavers within the economic history of the southwest **The Book of Looms** Eric Broudy, 2021-09-29 A heavily illustrated classic on the evolution of the handloom The handloom often no more than a bundle of sticks and a few lengths of cordage has been known to almost all cultures for thousands of years Eric Broudy places the wide variety of handlooms in their historical context What influenced their development How did they travel from one geographic area to another Were they invented independently by different cultures How have modern cultures improved on ancient weaving skills and methods Broudy shows how virtually every culture has woven on handlooms He highlights the incredible technical achievement of early cultures that created magnificent textiles with the crudest of tools and demonstrates that modern technology has done nothing to surpass their skill or inventiveness A History Of Textiles Kax Wilson, 2021-11-28 Originally published in 1979 this volume acts as a reference for the history textiles It asks questions on the effect of technology on textiles how did particular historical periods and locations expand or limit the possibilities for the manufacture of fabrics and how the textile history related to politics and economics sociology and psychology art and engineering anthropology and archaeology chemistry and physics Addressing these questions the author surveys the development of the technical components of fabrics and discusses the textiles of selected places and times She uses prose drawings and more than 130 photographs to show how each era of textile production reflects its age This book is designed to serve as a college text and as a reference work for museum researchers With sections including illustrations and diagrams key terminology spinning wool spinning and raw materials single ply and cord and fabric construction **Disruptive Voices and the Singularity of Histories** Regna Darnell, Frederic W. Gleach, 2019-11-01 Histories of Anthropology Annual presents diverse perspectives on the discipline s history within a global context with a goal of increasing awareness and use of historical approaches in teaching learning and conducting anthropology The series includes critical comparative analytical and narrative studies involving all aspects and subfields of anthropology Volume 13 Disruptive Voices and the Singularity of Histories explores the interplay of identities and scholarship through the history of anthropology with a special section examining fieldwork predecessors and indigenous communities in Native North America Individual contributions explore the complexity of women s history indigenous history national traditions and oral histories to juxtapose what we understand of the past with its present continuities These contributions include Sharon Lindenburger s examination of Franz Boas and his navigation with Jewish identity Kathy M

Closkey's documentation of Navajo weavers and their struggles with cultural identities and economic resources and demands and Mindy Morgan's use of the text of Ruth Underhill's Oodham study to capture the voices of three generations of women ethnographers. Because this work bridges anthropology and history a richer and more varied view of the past emerges through the meticulous narratives of anthropologists and their unique fieldwork ultimately providing competing points of access to social dynamics. This volume examines events at both macro and micro levels documenting the impact large scale historical events have had on particular individuals and challenging the uniqueness of a single interpretation of the same facts.

Navaho Weaving, Its Technique and History Charles Avery Amsden, 1949 Navajo Weaving and Textiles of the American Southwest Shiela Betterton, 1991 Artisans and Cooperatives Kimberly M. Grimes, B. Lynne Milgram, 2022-07-12

With new markets opening up for goods produced by artisans from all parts of the world craft commercialization and craft industries have become key components of local economies. Now with the emergence of the Fair Trade movement and public opposition to sweatshop labor many people are demanding that artisans in third world countries not be exploited for their labor. Bringing together case studies from the Americas and Asia this timely collection of articles addresses the interplay among subsistence activities craft production and the global market. It contributes to current debates on economic inequality by offering practical examples of the political economic and cultural issues surrounding artisan production as an expressive vehicle of ethnic and gender identity. Striking a balance between economic and ethnographic analyses the contributors observe what has worked and what hasn't in a range of craft cooperatives and show how some artisans have expanded their entrepreneurial role by marketing crafts in addition to producing them. Among the topics discussed are the accommodation of craft traditions in the global market fair trade issues and the emerging role of the anthropologist as a proactive agent for artisan groups. As the gap between rich and poor widens the fate of subsistence economies seems more and more uncertain. The artisans in this book show that people can and do employ innovative opportunities to develop their talents and in the process strengthen their ethnic identities.
