The cultural diversity characterizing international arbitration today is as much a source of enrichment as it is sometimes a source of practical difficulties affecting both the arbitration procedure and the application of substantive law Consequently it is becoming clearer that the critical project for international arbitration in the immediate future will be how to best answer the fundamental question of cultural pluralism This book presents an informative and well argued discussion on many aspects of international arbitration clarifying the main procedural and substantive similarities and differences between different legal systems around the world focusing not only on common and civil law traditions but also the role played by regional legal traditions including Islamic law and African perspectives With contributions from fifty arbitrators counsel and academics representing every region of the world where international arbitration has secured a foothold the volume consolidates and synthesizes a series of discussions sponsored by the Chartered Institute of Arbitrators that took place in Dubai Johannesburg and Paris in 2017 The essays identify and address the cultural distinctions that affect the key ever present factors which have forged the character of modern international arbitration such as the following the seat of the arbitration and the legal regime to which the arbitration is attached due process which has different and specific meanings in different national legal systems international standards such as international public policy illegality arbitrability and sanctions the immunity of international arbitrators form of presentation of evidence production of documents oral and written submissions and expert evidence the specific context of international investment arbitration disputes in specific industries or legal areas telecommunications construction mining intellectual property the role of national judges and the legal traditions they embrace throughout and after arbitration proceedings how to incorporate more conciliatory cultural traditions which are notably shared in many African and Asian countries and training and opportunities for the next generation in international arbitration The book is replete with tools and recommendations to ensure synergy and harmony between the different legal traditions that coexist in today s arbitral proceedings All users of arbitration whether the arbitrators themselves lawyers involved as counsel for parties or judges applying arbitration law will greatly appreciate this matchless elucidation of the different systems and alternative ways of presenting the divergent procedures and ways of conducting international arbitrations The book s immeasurable value to arbitration academics goes without saying *Inside*

Transnational Anti-Gender Politics Aiko Holvikivi, Billy Holzberg, Tomás Ojeda, 2024-06-08 In recent years attacks on the rise of gender ideology and genderism as a political force on gender studies as an academic field and on feminist queer and trans individuals seen to be their embodied representatives have grown in scope and intensity This edited volume understands such attacks as a global force in need of urgent analytical and political attention Drawing on contributions from and about a varied range of geographical locations including Argentina Chile China Germany the Persian Gulf Hungary India Pakistan Peru South Africa Spain Turkey Uganda the UK and the US this book explores how anti gender mobilisations work as a transnational formation shaped by the legacies of colonialism racial capitalism and resurgent nationalisms and how these can be resisted By transnationalising our inquiries into the epistemic affective and political nature of the anti gender phenomenon this volume troubles the origin stories we tell about where anti gender politics come from and helps to better locate the various sources actors and networks behind these attacks contesting the notion that anti gender politics derive solely from right wing nationalist or conservative religious actors to show how they also derive from more centrist liberal leftist and even presumably feminist positions The book thus invites us to sharpen and rethink the conceptual vocabularies and strategies we use to understand and resist anti gender attacks opening up space for envisioning new political imaginaries and transnational feminist solidarities Chapter 1 is available open access under a Creative Commons Attribution 4.0 International License via link [springer.com](https://www.springer.com)
