The New Nationalism Louis Snyder, 2017-07-05 Nationalism the state of mind in which the individual's supreme loyalty is owed to the nation state remains the strongest of political emotions As a historical phenomenon it is always in flux changing according to no preconceived pattern In *The New Nationalism* Louis L. Snyder sees various forms of nationalism and categorizes them as a force for unity a force for the status quo a force for independence a force for fraternity a force for colonial expansion a force for aggression a force for economic expansion and a force for anti colonialism In Snyder's opinion nationalism should be differentiated from Theodore Roosevelt's New Nationalism a phrase he borrowed from Herbert D. Croly's *The Promise of American Life* Croly warned that giving too much power to big industry and finance would lead to the degradation of the masses and that state and federal intervention must be pursued on all economic fronts Roosevelt expanded upon this concept and saw the flourishing of democratic government as a means of reviving the old pioneer sense of individualism and opportunity Snyder in contrast extends the work of the two major pioneers in the study of modern nationalism Carlton J. H. Hayes and Hans Kohn in exploring this most powerful sentiment of modern times and showing how it relates to the political economic and psychological tendencies of historical development
